**Pharsonians at Commencement.**

Through the efforts of the managers of the Pharsonians, a date has been obtained for a Commencement performance. The outline of the play will be somewhat similar to the first production which proved so popular, but an entirely new set of songs and jokes will be produced. The specialties will also be overhauled, cutting out the less popular parts and substituting for them specialties of undoubted popularity.

The show will be given in the Auditorium on the evening of Friday, June 12. After the show, an informal dance of at least twelve numbers will be held in the Armory. Purchasers of reserved seat tickets will be given cards which will admit them to the dance. First class

music will be furnished and a good time is assured to everyone. All examinations will close Thursday evening with the possible exception of a few Freshman subjects.

**AMONG OTHER COLLEGES.**

Moses was a college man  
And never played football;  
Yet in the rushes of the Nile  
He was the first of all.

Missionary—"Do you ever contribute money for the heathen in foreign lands?"

Millionaire—"Oh, yes. Both of my daughters married foreign noblemen."

The following is a copy of the new Yale song, "Mother of Men," which won the prize of \$300.00, offered for the best original Yale song. The words are by B. W. Hooker.

Mother of Men, grow strong in giving  
Honor to them thy lights have led—

Rich in the toil of thousands living,  
Proud in the deeds of the thousands dead;

We who have felt thy power, and know thee,  
We in whose work thy gifts avail—

High in our hearts enshrined en-throne thee,  
Mother of Men—Old Yale!

Spirit of Youth, alive, unchanging,  
Under whose feet the years are cast—

Heir to an empire, ranging  
Over the future and the past—  
Thee, whom our fathers loved before us,

Thee, whom our sons unborn shall hail,  
Praise we today in sturdy chorus,  
Mother of Men—Old Yale!

The announcement has been received of the marriage of William R. Fleming, '06, to Miss Rose P. Young in Pittsburg on May 2.
