

The addition was placed beside the old building, the same kind of material was selected and a similar style of architecture chosen. The result is a harmonious whole. The entire building is about 140 feet in length; it contains fourteen suits of rooms and nine single rooms in the dormitories; and it provides laboratories and demonstrating rooms for the courses in Domestic Science. This building owing its existence so largely to the women of Pennsylvania, it is proposed to dedicate, October 16, 1908. The program of the day includes various demonstrations in the new laboratory by the Department of Domestic Science; an inspection of the Dairy of the School of Agriculture; and an interesting program in the Auditorium. Each women's club in the State is invited to send a delegate who will be entertained by members of the Women's Literary Club of State College.

#### The Graduate Summer School of Agriculture.

State was well represented at the Graduate Summer School of Agriculture held at Cornell University during the month of July. Dr. Armsby gave a course of five lectures on "Selected Chapters in Stock Feeding." Dean Hunt delivered a lecture at one of the sessions. Others present were Prof. Van Norman, Prof. Stewart, Messrs. Larsen, McIntyre, Lichtenhaler, Fries, Braman, Shaw and Jones, all connected with the agricultural faculty.

Prof. Gardner, the newly elected head of the department of Agronomy was also present.

R. V. Little, '03, and Miss Helen B. Druar, of Buffalo, N. Y., were married on June 9. After a trip which included Eagles Mere and other points of interest they returned to their new home at 554 Centennial avenue, Sewickley, Pa.

#### An Assistant for the Department of Forestry.

Mr. John A. Ferguson, who took up his work on September first as an assistant in the Department of Forestry, comes originally from Canandaigua, New York. He received his preparatory training at the Canandaigua Academy and was graduated from Hamilton College with the class of 1896, receiving a degree of A. B. In 1903 the same institution conferred upon him the degree of A. M.

Upon graduation from college, Mr. Ferguson began teaching in the Brooklyn Polytechnic Institute at Brooklyn, and continued this work at Fond du Lac, Wisconsin. For several years he was instructor in Science at Rutgers College Preparatory School, New Brunswick, N. J. In July 1906, Mr. Ferguson entered the Yale Forest School and was graduated in 1908 with the degree

of M. F. While in Yale, Mr. Ferguson assisted Professor Tracy of the Sheffield Scientific School in Surveying and later assisted Professor Chapman of the Yale Forest School in field work carried on by the senior class of the Forest School in Alabama. During the summer of 1907, Mr. Ferguson was a log scaler with the Pigeon River Lumber company of North Carolina. Upon completion of the course in Yale Forest School, he entered the United States Forest Service and spent the summer season of 1908 upon the Boise National Forest with headquarters at Boise, Idaho.

Mr. Ferguson comes to the college with unusual training and his connection with the Department of Forestry will mean a great deal in the development of that work in this college.

Prof. J. M. Willard and family enjoyed a month's rest on the Maine coast.
