STATE COLLEGE, PA., OCTOBER 1, 1908.

Price Five Cents

Track Trials.

Track trials were held on Saturday afternoon for the purpose of finding out what sort of material the freshman class contains. The records made were not exceptional, since none of the new men have been in training. After a few months of work, however, some men should be developed who will materially strengthen the team. The order of events was as follows, the men ranking in the order named:

100 yard dash, first heat—Tellysh, James, Krall. Time, 11 1-5 seconds. Second heat—Hoskins, Asplundh, Graham. Time, 12 seconds.

120 yard hurdle—Harrison, Pier. Time, 17 3 5 seconds.

440 yard dash—Krall, D. F. Hoskins, W. E. Hoskins. Time, 62 2-5 seconds.

One mile run—Metzger, Glavin, Meikle. Time, 5 minutes 9 seconds.

Half mile run—Heller, Burgeit, Allison. Time 2 minutes 23 seconds.

Pole vault—Crawford, James, Borden. Height, 9 feet 6 inches.

Running high jump—Tellysh, Brown. Height, 4 feet 9 inches.

These trials will be held every Saturday afternoon as long as the weather permits, and all new men are urged to take part.

Grove City Defeated.

Last Saturday's game on Beaver Field with Grove City college resulted in a cleanly played contest in which the white and blue triumphed by the score of 31 to 0, or fifteen points less than were scored last season against the same aggregation.

There was no repetition of the loose play seen in the Bellefonte game, for captain McCleary had been able to imbue the players with his own State fighting spirit in the week following that contest. Larry Vorhis, "ginger" also had a great deal to do with the well earned victory and the reappearance of Hirshman at fullback, with his line smashes, added materially to State's strength.

Good work was done by the new men—Mosser, Barr, Ballou, Messner, Lyon, Piollet and Brown, who have seen their first active service under varsity colors this year. It is to the new men that we must look for our strength now. Graduation and other causes lost us eight players from the 1907 eleven and these will be hard to replace.

STATE 31 GROVE CITY COLLEGE 0
 Piollet, Brown.....f b.....Aker, Atchison
 Weaver.....l t.....Lace
 McClellan.....l g.....Hawk
 Gray, Johnson.....c.....McWilliams
 Cyphers.....r e.....Archer
 Lyon.....t.....Hecker
 Smith, Messner.....r e.....McCullough
 Ballou, Hermann.....g.....Lowe (Capt.)
 Vorhis, Barr.....l b.....Wasson
 McCleary (Capt.).....r h.....Marks
 Hirshman, Mosser.....f b.....McCoy
 Touchdowns—Vorhis, McCleary, Hirshman,
 Smith, Cyphers—Goals from touchdown—Vorhis 4.
 Safety—Penn State. Referee—Dr. Robison. Umpire—Welsh. Time of halves—20 and 15 minutes.

Work on Chemistry Building Resumed.

Work on the Chemistry building, which was stopped after the foundation was completed, has been resumed. The original plans were made for a brick structure and they had to be altered when it was decided to build with concrete blocks. This is what has caused the delay. The work has been ordered resumed provided that iron uprights are placed within the concrete blocks to support the ceiling of the large lecture room. The work will be pushed in order to get the building ready for use by second semester if possible.

Off for Wilkes-Barre.

The State-Indian game was the principal topic of discussion at the Wednesday morning mass meeting. Manager Postlethwaite has practically completed all the arrangements for the trip, and it is likely that the special train will leave Lemont on Friday afternoon. A rate of \$8.75 for the round trip has been secured, provided a sufficient number go. The train will reach Wilkes-Barre between seven and eight o'clock Friday evening, and returning will leave there probably about the same time Saturday evening.

The game will be one of the best of the year, and every man who can possibly arrange to go, should do so.

Dedication of Woman's Building.

The invitations for the dedication of the Woman's Building on October 16 are being sent out. The program for the event is not yet fully arranged. It will include talks by Miss M. T. Dock, of Harrisburg who was instrumental in securing the appropriation for the building, and Mrs. Tillinghass, of Titusville. Practical demonstrations in cooking will be given in the domestic science laboratory by Mrs. Rorer of New York.

New Water Supply for the College.

The new eight inch pipe line which the College has been laying to Musser's Gap is nearing completion, and will be ready for use when the reservoir at the Gap has been constructed. There is a fall of 250 feet in the line and it will be necessary to reduce the pressure somewhat before the water can be turned into the smaller pipes on the campus.
