## ALUMNI NOTES.

D. L. Patterson, '95, who has been teaching at the University of Wisconsin, has become Associate Professor of Ancient and Mediaeval History in the University of Kansas.

Bob Menner, '95, who is now an engineer in the United States Navy, was an interested spectator at the Wilkes-Barre game. He will be detailed during the coming winter to the inspection of steel at Steelton, near Harrisburg.

C. G. Evans, '07, and Miss Carolyn B. Bowes, of Howard, Pa., were married on August 20. They will make their home at 361 South Main St., Wilkes-Barre, where Mr. Evans is assistant district engineer for the Lehigh Valley Coal Co.

Wm. F. H. Wentzel, '08, has been elected to a school superintendency in Fayette county, where he is still loyal to the White and Blue. His office and residence are

in McClellandtown, Pa. Mr. and Mrs. Wentzel extend a cordial invitation to all State men to call at their new home.

Fred P. Dodge, '03, of Dallas, Texas, was married last week to Miss Mildred Chandier, of Millerton, N. Y. Mr. Dodge is superintendent of a plant of the Texas Oil Company. After a visit with friends in Potter county, Mr. and Mrs. Dodge expected to go by way of New York and New Orleans to their new home in Texas.

Dugald C. Jackson, '85, and William B. Jackson, '90, consulting engineers of Chicago and Boston, and brothers of Dean J. P. Jackson, have removed their Western office from Madison, Wisconsin, to Chicago, where William J. Crumpton is in charge. The firm is engaged in all kinds of expert engineering and consulting work. Their Boston office is located at 911 India Building, State street.

A recent issue of the *Popular Science Monthly* contains an article by George R. Weiland, '93 entitled *The Conservation of the Great Marine Vertebrates: Imminent Destruction of the Wealth of the Seas*. Mr. Weiland is connected with the Carnegie Institution of Washington and with Yale University. He also has in a recent number of the *Journal of Science* an article entitled *Historical Fossil Cyads: Accelerated Cone Growth in Pinus*.

R. T. Strohm, '98, a graduate in Mechanical Engineering, who has been with the International Correspondence Schools of Scranton for a number of years, will sail for England on October 17th. He has recently accepted a position with the International Educational Company of Great Britain. This new company will have central offices in London and will conduct correspondence instruction in the British Isles and the Continent. Mr. Strohm will be abroad for at least two years, during which time he will be engaged in rewriting and recasting the textbooks of the I. C. S. so as to adapt them to British and European conditions.

During the summer, Bulletin 87, "Some Poultry Experiments" by Prof. T. I. Mairs, came from the press. The author deserves much credit for the excellent bulletin, as it is one of the most attractive as well as useful publications recently issued by the Experiment Station.

Another circular describing the Winter Courses in Agriculture has been issued and is being sent throughout the state to advertise these short courses which have proven so popular in recent years.

C. G. Bowers '07 who is taking an apprentice course with Allis-Chalmers spent a few days in town last week with old friends and acquaintances. His address is 341, 9th Ave., Milwaukee, Wis.
