6 to 6. Harvard is reported to have a much stronger eleven than in 1907 -and the showing of the Midshipmen, who really outplayed the Cam bridge team, can mean norhing else than that the Naval Academy possesses one of the best elevens in its history, even if its consistent record in the previous games were not taken into account.

## The Reserves' Game.

On Saturday the reserve team journeyed to Lock Haven and played the strong Normal School team. The contest was a warm one throughout both halves. The reserves were unable to score in the first half, although thes had the ball on the two-yard line. In the second half they fared better, however, Wells carrying the ball over from the thirty-five yard line on a delayed pass. Doster played a strong game at quarter, making some good end runs, and carrying the punts back in fine style. Wheeler played a consistent game at fuliback. While the Normal boys did not come near scoring, they played a good defensive game against their heavier rivals.

The treatment accorded to the reserves could not have been better. RESERVES-5 LOCKHAVEN-0

Because of the recent fires which have occurred in town, it has been thought advisable to publish the fire signals as they are given by the siren whistle. The students can cut them out and fasten them up in their rooms where they can be easily referred to.

Arrangements are being perfected to place Sunday papers in the library on the day of issue. This will be of interest to those who wish to devote a part of the leisure of that day to the current events. It would bea matter of convenience, and result in economy of time if users of the newspapers would replace the files in their proper places. The racks are plainly marked, and it is hoped the order indicated will be observed for the convenience of all.

The College Library has received from Mrs. Rufus C. Elder, of Lewistown, Pa., the original subscription list to the Farmer's High School in Mifflin county. Grateful acknowledgment is made for this valuable addition to the early history of the College.
"May I print a kiss on your lips ?" I said,
And she nodded her sweet permission;
So we went to p:ess, and I rather guess
We printed a full edition.
"But one edition is hardly enough,"
She said, with a charming pout;
So again in the press the forms were placed
And we got some "extras" out. -Ex.
