

**COLLEGE NOTES.**

The picture scrap was won on Thursday morning by the freshmen. They gathered at the side of Mc-Allister and twenty-two exposures were taken from the third floor of the Chemistry building. Only one of the pictures taken was good. It had 185 freshmen on it, which is eight more than the number necessary to win.

It is proposed to dedicate our new athletic field next spring with a high school meet, inviting athletes from all the high schools and fitting schools in the state. The New York Alumni Association has voted thirty-nine medals to be put up for competition.

A meeting was held in the engineering building on Monday evening to consider the prospects for direct telegraphic service for State College. The matter has been taken up with the state department, and it is believed that something definite may be accomplished.

The annual feed and smoker of the Harrisburg club will be held at Engineers Club in Harrisburg on the evening of Dec. 30. The committee has made arrangements for a good time, and urges all State men and prospective students to be present.

A meeting was held last evening by the press correspondents and others interested in the formation of a press club. It is likely that a permanent organization will be formed.

Skating will be the popular diversion at the college after the holidays. An embankment is being built around Beaver Field, and it will be flooded and allowed to freeze.

More than thirty senior electricals and mechanicals left on Tuesday for a week's inspection trip, to include Philadelphia, Trenton, and New York.

On Friday night State's first debating team lost to Swarthmore at Swarthmore, while at the same time our second team won from their second team here.

**Christmas Suggestions:**

- Pennants
