

Last Call for 1910 La Vie.

Do you want a copy of this year's college annual? If you're satisfied to make use of the "other fellow's" book then there's no particular hurry but if you want your own copy of the La Vie—a book which in future years will serve to recall those pleasant recollections of your college days—you must subscribe at once.

It's a "straight tip"—the edition this year will be limited to subscribers only. You can't afford to miss getting the 1910 La Vie—the "classiest" most artistic and most attractive annual ever published at State.

Subscription price two dollars payable upon delivery of book about June 1st. Think it over and drop your subscription in the La Vie box.

Electrical Thesis Trip.

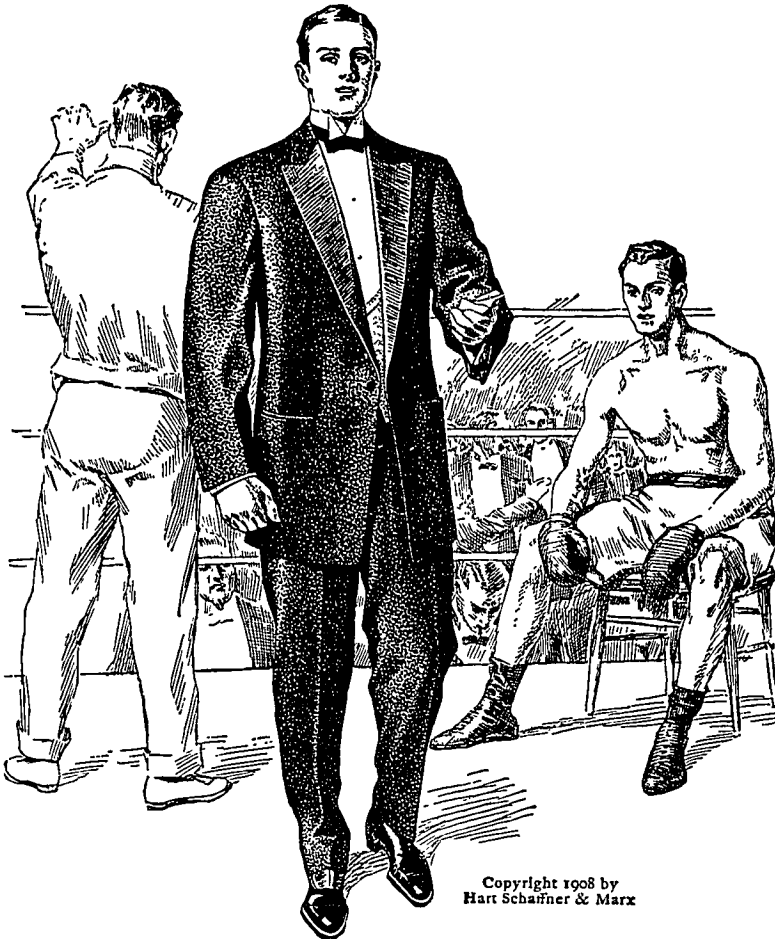

Sixteen senior electricals spent last week at Huntingdon, in a test of the power plant of the Juniata Water and Water Power Company. Professors Monroe, Wood, and Kinsloe each spent a portion of the week with the party. The plant, which was finished about a year ago, is of modern design, costing about two million dollars. It has four water units and two steam units, each of 500 K. W. capacity. Most of the power generated is used in Altoona and Tyrone.
