

**The Christian Association Meetings.**

Frank A. Fall of New York University talked interestingly last Sunday on a subject which is comparatively unknown to the average college man—the boy problem. Mr. Fall is a business man of New York whose avocation, as he expresses it, is to work in the interest of boys. He told of the Big Brother movement which originated in New York and has since spread to a number of large cities all over the world, in which a man makes himself responsible for a particular boy who is in need of help.

Robert Davis, who will be here next Sunday, is a strong, virile college man who is worth knowing. He is a Dartmouth graduate, and was a member of the football and track teams in college. He is now associate pastor of the Brick Presbyterian church on Fifth Avenue, New York, and the fact that he is able to interest and hold the men of the city speaks strongly in his favor. The men who have known him at Northfield and elsewhere are enthusiastic for "Bob" Davis.

Mr. Davis will speak to the seniors at 10 o'clock, will preach at the chapel service at 11 o'clock, and will address an all-college meeting in the Auditorium at 6.15. He is a very practical, matter-of-fact talker, who will be able to interest every man in college.

**Thesis Subjects of the Civil and Sanitary Engineers.**

Design of a Dam—H. H. Acheson.

Design of a Reinforced Concrete Dam—J. G. Bechtold.

Effects of Oils on Cement—H. J. Bennett, P. A. L. Maurhoff.

Study of Proposed Tunnel at Renova—W. J. Carlson.

Design for a Sewer System for the Borough of Watsonstown—F. D. Cooner, W. E. Fowler.

Design of an Incline Bridge—A. Digby.

Design of a Dam—W. Fuhs.

Design of Cantilever Bridge—R. V. Gossard, D. Panaini, W. M. Smelo.

Survey and Plans for Improved Roads from State College to Lemont—F. E. Grazier, C. A. Hogenogler, H. B. Waha, G. W. Woodward, R. O'Donnell.

Tests of Various Concrete Mixtures—N. B. Higgins.

Design for a Steel Arch—F. K. Plough.

Design of a Masonry Dam—F. B. Schoch.

Design of a Dam—H. W. Bell.

Design of a Sewage Purification Plant—I. B. Criily.

**Wrestling Team at Cornell.**

Seven sturdy wrestlers will represent Penn State against Cornell at Ithaca tomorrow night. The men have worked on the mat without rest or delay and the team should be successful in its first big encounter with another outside institution. President McKee and Manager Brown of the Wrestling Association have worked with a will and there is little doubt that this good sport will take its place among our standard athletic activities hereafter.

In place of the meet for last Friday night which Lehigh cancelled, the University of Pennsylvania will probably come up here on April 2. If "Mike" Murphy's team cannot be secured, a strong delegation from the Philadelphia Central Y. M. C. A. will be brought here within a week or ten days.

It is expected that the material for the new college catalogue will be in proper shape to send to the printer next week. If the work progresses as well as is planned, the catalogue should be finished by the latter part of April.

If college bred means 'four years' loaf,'  
(Some people say 'tis so)  
Oh, tell me where the flour is found  
By one who needs the dough.
