

been accomplished since September is the best evidence of that. And though it is a little premature I might add that your baseball Manager and Captain voluntarily made up their budget for supplies for this spring so that it will cost a third less than last year's equipment. This is the spirit that we want; the spirit that is satisfied with what we can afford.

The statement of the Football Department and Track House account below are for your careful study. And, remember, if there is anything that you do not understand or anything that is not stated quite as fully as you would like to see it write me and I will be glad to give you whatever information I can. I want you to feel that any information the Graduate Manager has is yours for the asking, and that there is nothing to cover up or conjure with in the conduct of your Association.

It is the purpose to publish the statement for the basketball season very soon and then complete track and baseball so that you may have them, together with the entire year's business at Commencement time. In other words the Advisory Committee deems it more satisfactory to make the yearly accounting in June or the first week in September of each year for the reason that in January there is so much business pending always that a perfectly reliable statement of conditions is almost impossible.

Trusting that the report will prove both gratifying and satisfactory to you, I am,

Very sincerely
 Geo. R. Meek,
 Graduate Manager.

Football Account, 1908

H. WELLINGTON WOOD
 Who will speak Sunday

The Seattle Exposition.

Work on its grounds that would have taken the University of Washington at Seattle ten years to accomplish, has been done in two years by the Alaska-Yukon-Pacific Exposition, in preparation for the great World's Fair which is to be held on the University campus during the summer of 1909. Approximately \$1,600,000 is being expended for permanent buildings and in further beautifying the campus.

The Exposition has spent more than \$300,000 in work on the grounds exclusive of buildings. Five miles of roads and avenues have been graded and paved with asphalt. A complete sewerage system embracing three miles of pipe has been laid. With this goes the seven miles of water mains that cover the entire campus.

After the Exposition is over the University will find it has a natural amphitheatre staged and seated, able at least to care for 25,000 persons. Besides these things two subways have been constructed under the Northern Pacific railroad tracks which cross the lower cam-

pus. Another \$100,000 has been spent in parking the grounds in terraces, shrubs and trees and in every way possible to beautify the University campus on which the Exposition stands.

The new athletic stadium, to be used during the exposition, will be held dear by the students of the University for several reasons. Not only will they witness upon it the struggles of their own favorites in intercollegiate contests, but theirs will be the satisfaction of knowing that their assistance greatly aided and forwarded the movement for its erection.

Wellington Wood Coming

The speaker at next Sunday's meetings, both morning and evening, will be H. Wellington Wood, manager in Philadelphia for the H. J. Heinz company. Mr. Wood has a wide reputation as a successful business man, as a speaker, and as a writer. As a business man alone he is well worth hearing, since he is actively engaged in the management of the Philadelphia business of the Heinz company. One of his books has recently been translated and is being published in French. It has the hearty endorsement of the Philadelphia Public Ledger, and of such men as Drs. Agnew and Davies of Philadelphia. Charles Alexander, of the Chapman-Alexander Mission, and Ralph Connor, the author.

Mr. Wood will meet the seniors at 10 o'clock, will speak at the regular chapel service at 11 o'clock, and at the all-college meeting at 6.15 in the auditorium.

Geraldine—I saw a Phi Tappa Keg with a handbag this afternoon and it sounded just as if it were full of bottles.

Percival—Yes? That was probably the secret grip of the fraternity.

As we go to press the score is received—State 9, Navy 3.
