

The Pennsylvania State College

Chartered 1855

FOR THE FREE EDUCATION OF BOTH SEXES

Schools of Language and Literature, History, Mathematics and Philosophy, Agriculture, Natural Science, Engineering, Mines and Metallurgy, offering courses of study in all branches of the Arts and Sciences. For further information address

THE REGISTRAR, State College, Pennsylvania

The Baccalaureate Preacher.

Rev. Walter M. Walker, D. D., pastor of the Penn Avenue Baptist church, Scranton, Pa., has been selected to preach the sermon before the graduating class, Sunday, June 13, 1909. Dr. Walker was graduated from the State University of Iowa in 1883, receiving the degree of Bachelor of Arts, and in 1886 was given the degree of Master of Arts by the same institution. In 1889, he received the degree of Bachelor of Divinity from the University of Chicago and the degree of Doctor of Divinity from Des Moines, Iowa, College in 1901. He has held pastorates in New York, and in Iowa, and was for four years pastor of the Epiphany church at Philadelphia. He went to Scranton last September and has built up a church membership of 1000, which is now erecting a building to cost \$125,000.

Dr. Walker is gaining a wide reputation for his thought and eloquence and will prove a most acceptable speaker for the Commencement sermon.

"Where Roosevelt Will Hunt."

On Saturday evening the winter course of free lectures was closed by Mr. Carl E. Akeley, who spoke on "Where Roosevelt Will Hunt." Mr. Akeley is the official explorer and collector for the Field Museum in Chicago and is well acquainted with certain sections of Africa. The lecture was illustrated by excellent

pictures, thrilling and interesting. The points touched by Mr. Akeley and his large caravan, extended inland some great distance from Bembassa.

The committee in charge of these free lectures this year are indeed to be congratulated and certainly deserve the thanks of the whole student body for their efforts.

The Turbine.

The new turbine, which arrived just before Easter vacation, has been in operation nearly two weeks and has been giving entire satisfaction. It is carrying all of the load that the Willans engine carried, and more, with ample reserve, and when the Willans engine is repaired there will be power enough for any emergency, such as the extra lights at Commencement. The constant fear of inconvenience and delays due to breakdowns has at last been removed.

New Instructor.

The Mechanical Engineering department has been further strengthened by the addition to its teaching force, of J. P. Calderwood. Mr. Calderwood is a graduate of Ohio State University, and received the degree of M. E. from that institution in 1908. Before coming here he held a fellowship in Experimental Engineering at his alma mater, and will work along the same line in the M. E. department, assisting in the laboratories.

COLLEGE NOTES.

Dean Crane of the School of Mines and Metallurgy has been asked by the Institution of Mining Engineers of Great Britain to give an address at the annual meeting to be held in London May 28th next. The topic upon which he is asked to speak is "The Use of Concrete in Mining." This is an unusual compliment to a member of the faculty.

Press work on the 1910 La Vie is progressing very favorably. Proof has been read for a considerable portion, the binders are working on the new and attractive cover, and all indications point to its being on sale by June first, earlier than ever before.

P. I. Wrigley '09 has been receiving congratulations since April 8, for his marriage to Miss Alberta J. Dreibelbis of Pine Hall. The Collegian joins in with the rest and wishes a long and happy future for the bridal couple.

Any member of the freshman class who wishes to try for the business staff of the Collegian should report to the Collegian room in the basement of the Library at 6 o'clock Wednesday evening.

Any student who does not receive his Collegian in the mail delivery can get it at the post office, general delivery.

The Senior banquet will be held next Friday, April 30, at the Bush house, Bellefonte.
