

**What County are You From?**

The bulletin boards and walks have been full during the past week of notices for meetings of the various county clubs. Every student should watch for them, the new students especially, for it is the only way to get acquainted with the men from your own section of the state. Make your meetings interesting and do all you can to inspire prospective students at home with some Penn State enthusiasm. Have the Collegian sent to your high schools and send some La Vie away. The county clubs have done much good for this college, the most of it being done during the Christmas recess in the way of dances, smokers or banquets. Those who have not met yet should do so soon and make plans. Keep the good work up!
