First semester begins middle of September and second semester the first of February of each year. For catalogue, bulletins, announcements, etc., address **The Registrar, State College, Pennsylvania**

The Outdoor Gymnasium.

Last week work was begun on the outdoor gymnasium which is located between the Armory and the "Den." Here during the coming months, those men who are not on the varsity or class teams and who really need the exercise most will be at liberty to engage in all kinds of sports. Here is just the opportunity for you to get out into the open air and take that exercise which you need so much and which is so beneficial. Remember that an active brain is an impossibility for any length of time, without a good, sound, well developed body. Don't mope around as if you had lost your last friend. Get into the fun and you will be surprised at how much better you will feel.

Here is a list of the games which you may indulge in: Tennis, especially for the beginners, on the court next to the Armory. (The more experienced players should join the Tennis Association and take part in the tournaments)

Volleyball. This is probably a new game to most of the fellows, but one which will be enjoyed by all when they learn how to play it. It is played on a court about 50 ft. square, across the center of which a net is stretched, the top of the net being eight feet above the ground. There may be one, two, three or four men on a side and the play may wax very warm at times before 21 points which is a game have been

scored. The ball, which resembles a polo ball with the exception that it is leather covered, is batted around with the hands, and one must acquire considerable skill before he can place it where he wants it to go.

There will also be a pit for tumbling and pyramid building and places for high and broad jumping and pole vaulting. In these last events especially it is hoped that a large number of men will become interested because there is a lack of material in this line in college at the present time.

Besides all this, there will be three quoit sets for the use of the fellows, and also both horizontal and parallel bars. Indoor baseball in addition will be played. This is another new game and it will undoubtedly meet with great approval.

These grounds will be open at all times, and in the evenings and on Saturday afternoons coaches and instructors will be present to explain the rudiments of the new games and assist in the playing of the others. From present indications the grounds will be ready for use by next Saturday afternoon, so come out and take a little exercise. We all need it.

If the weather conditions are favorable an outdoor gymnasium exhibition will be held tomorrow evening at 6:30. Some of the special features will be a hammer throwing exhibition by Lee Talbot, a few tumbling "stunts" by "Pop"

Golden and Weston, wrestling, fencing and boxing by others and a dumb-bell drill by the freshmen.

Reducing Cost of Living.

Mrs. Ellen H. Richards, Instructor in the Chemistry of Foods at the Massachusetts Institute of Technology will give a practical demonstration on "The High Cost of Living and How to Reduce It" under the auspices of the Department of Home Economics of this institution today at 11:30 o'clock. The demonstration will show how to select meats and vegetables and how to prepare and cook them with greatest economy.

At noon a luncheon will be served in the the Domestic Science Laboratories in the Womans' Building. At 2 o'clock Mrs. Richards will give an illustrated lecture on "Home Economics and How it Came to Be" All ladies of the village and vicinity are invited to be present.

Edgar Allen Poe.

The sixth lecture in the Liberal Art course of free lectures will be delivered in the Old Chapel on Friday evening, April 22, at 8 o'clock. Mr. Crocket will lecture on "Edgar Allen Poe." Those who have heard the previous lectures of this course will welcome this news and those who have not been in the habit of attending can find no more profitable way of spending the evening. Let us have a large attendance and show our appreciation to the Liberal Arts Lecture Committee.
