After a touchdown has been made the team making it shall be credited with five points and the Captain of the team shall translate 500 words of Caesar's Commentaries. **Visit the School of Mines.**

Next Monday evening, the Mining building will be thrown open to visitors, and all interested in the work of the School of Mines, are invited to inspect the museums and Laboratories belonging to the school. The Geological museum will probably be open for the first time, which marks a distinct advance in the facilities for geological work. The Mining museum is conceded to be the finest of its kind in the United States, having models that are not duplicated in any other museum. The Collections of glass sands and sand products just installed add to its completeness.

The building will be open for visitors between the hours of 7 and 10, on the evening of Monday, May 30.
