

THE STATE COLLEGIAN

VOLUME 7 NUMBER 3

STATE COLLEGE, PA., OCTOBER 13, 1910

PRICE FIVE CENTS

ANOTHER BIG VICTORY

Penn State Warriors Pile Up a Score of 61 Points Against Carnegie Tech.

Captain Gray's team bettered its score against the Harrisburg A. C. by three points when Carnegie Tech was downed 61 to 0 on New Beaver field last Saturday afternoon. Thus our eleven has scored 119 points with nothing for our opponents in the first two games of the season, a record only eclipsed by captain Ben Fisher's '94 aggregation, which smothered Gettysburg 60 to 0 in the first contest and followed this by administering a 72 to 0 humiliation to Lafayette one week later. The truth of the matter is that our opponents' thus far this season have hardly been worthy of the name and, as Dr. Hollenback warned his men, there is room for overconfidence from our triumphs thus far and plenty of room for football knowledge and football plunging in the near future.

It was pleasant, exciting, and almost amusing to see the way Barrett and Miller stepped over, scrambled under, and ran around those Carnegie Tech tacklers last Saturday. Very, too, got in some splendid wide end runs, and his feat of making a touchdown from the kickoff in the Harrisburg game was duplicated by Fritz following the visitor's sixth kickoff and amid a wave of exultant applause Mauthe, Engel and Quirk made gains of from 10 to 40 yards in almost every attempt through the line or off tackle and the Tech Victory can hardly be considered seriously from a football standpoint. We may have to consider Saturday's game with the Sterling A. C. of Pittsburg in a different light and the Penn and Pitt encounters will surely be serious propositions, as well as the Villanova and Bucknell struggles in a lesser degree. The spirit of our football squad is excellent this year and the co-operation of the students will bring our Blue and White team out on top this year as usual.

It is good to see Burly Watson's clean tackles and his aggressive work at center. Captain Gray and Pete Johnson are invaluable at the guards as are Weaver, Harlow and Riddle at the tackles. The new game just suits our speedy pair of ends, Very and Piollet, and the combination of Miller at quarterback, Barrett at fullback, and Mauthe and Engel at the halves seems an excellent one. "Hausel" Mauthe and Dad Engel have been especially strong in breaking up interference this year, a pretty sample of their work being shown in the Tech walk away.

Engel scored first in five plays just 1 minute 20 seconds after Baum had kicked off to Dad last Saturday. Piollet made the second touchdown on a well executed 60 yard run and Barrett made the third on a 55 yard dash in which State's interference was splendid and the Tech boys engaged in a free for all tackling match. Dyer, who had been tackling brilliantly for the visitors up to this time, had to be removed because of a bad shoulder. Before the game was over two more of the Pittsburg players received regrettable injuries but our heavier eleven came out unscathed. The first quarter ended shortly after Dad scored another

touchdown, the score for the period being State 23 Tech 0.

The varsity lineup remained intact during the second period, Engel, Barrett and Very crossing the line for scores. Coaches Hollenback and Golden wisely made numerous substitutions after the game was half over and the score stood 40 to 0. Quirk especially was a consistent ground gainer and Clarke handled himself well for a youngster at the pivotal position. Indeed, all the new blood proved good so that our second string material looks almost as strong as that of last year.

A blocked kick enabled us to make the first score in the third period, a safety. This was followed by a pretty field goal from Mauthe's boot, Miller holding the ball. Hauser has improved wonderfully of late in making goals from placement and opponents will have to be on the lookout for him. Engel scored the last touchdown of the third period and the score stood State 50, Tech 0.

The visitors came within and ace of scoring in that period when they intercepted a forward pass of Miller's. Elste secured the ball on our 20 yard line and was headed for the goal but Dexter Very got him haid from behind.

Quirk and Barron made the final touchdowns and we had secured 61 points in 40 minutes of play. The Tech boys were light and tackled high but then showed commendable pluck and "ginger" so that State's older, heavier, and more experienced team had much respect for the Pittsburgers. Undoubtedly, our eleven has started well and the loyal, unflinching support of the student body will see an even better finish.

PENN STATE	CARNEGIE TECH
Piollet	1c
Riddle, Harlow	1t
Johnson, Leish, Debut	1g
Watson, Rhoades	1e
Gray (Capt)	1c
Weaver, Keller	1t

Umpire: Bush, Bellefonte. Attendance: 1,000. Line: Brad McClary, Middletown and Young. Time: 4 ten minute quarters. Time: 24. Detention	

The General Faculty Meets.
At the meeting of the general faculty, held Sept. 22, it was agreed that the students incurring deficiencies through entering from other colleges should not have those deficiencies counted against them in determining their class standing.

The question of interpretation of the words left "to graduate" in Rule 21 was left to the committee on graduation requirements. This committee later voted that a student who does not complete all his work in the senior year in accordance with rule 21 of the revised regulations, will not be permitted to graduate as of that class by the completion of his work after commencement, and that his diploma will be issued and dated as of the next following class, if the work is completed within that time. It was further recommended by the committee that this ruling does not apply to students of the class of 1910, as the revised regulations did not go into effect until the beginning of the school year 1910-1911.

Next Sunday's Speaker.
At the chapel service next Sunday a plain, practical talk will be given by Mr. W. A. Bouse, the Assistant Train Master of the Pennsylvania railroad. Mr. Bouse is widely known throughout the state for his addresses to young men.

STERLING A. C. NEXT NEW GYM CLASSES

Fast Wilkesburg Aggregation Will Combat the Blue and White on Beaver Field.

Next Saturday our football team will line up against the Sterling Athletic club of Wilkesburg. This team has been playing good football this year and an interesting game may be expected on Saturday. Maxwell, right guard, is the old star from Swarthmore, who, according to "Bill" Hollenback, is there with the goods. McChesney, left end, is also an experienced player of considerable reputation. The team will arrive on Saturday returning to Bellefonte after the game.

The two teams will line up as follows:

STERLING	STATE
McChesney	1c
S. Murdock	1t
Marshall	1g
Naylor	1e
Maxwell	1r
C. Murdock (Capt)	1t
Wilburn Blair	1e

THE FOOTBALL "S."
The Report of the Committee on the Awarding of the Varsity "S" Under the New Rules.

The committee appointed to revise article 8, section 8, of the Constitution and By-Laws of the Pennsylvania State College Athletic Association have recommended the following and submit the same to the members to be voted on in the near future:

The privilege of wearing the football "S" shall be granted to any member of the team who has played two full quarters in each of six regularly scheduled games, or who has played two full quarters in each of four regularly scheduled games and two full quarters in either the "Penn" or "Pitt" game, or who has played two full quarters in both the "Penn" and "Pitt" games.

The regularly elected manager acting for the season shall be awarded the Varsity "S."

Signed: F. E. McEntire, J. E. Watson, D. W. Lloyd, T. W. Piollet, committee.

ON TO PENN GAME!

Special Low Rates Secured for All Who Will Follow the Team to Penn.

A rate of \$6.74 for 100-150 fellows on a block ticket going and returning on same train designated by the Railroad company.

A rate of \$6.75 for 150 or more leaving Lemont on Friday noon and returning from Philadelphia on Sunday night about 1 o'clock.

Here is an opportunity to take a thousand men to Philadelphia and convince the Quakers that we are there for a purpose—to win, and if we take that many men, we will win!

Think it over, there are but two trips this year and you want to take one. How about this one?

Tennis Doubles.

Tomorrow, Friday, Oct. 14th, the tennis tournament in doubles will begin. Quite a large number of entries have already been handed in, and some exciting sets are assured.

The tournament of singles has not yet been finished, but it will probably be completed by the end of the week. These tournaments are indeed very interesting and every fellow who has any ability should enter up and make them more exciting.

Optional Gymnasium Work is Now Offered to All Students at Penn State.

Monday and Thursday nights of each week. Mr. Lewis is instructing a "Gym" class. The class has so far had two meetings and both of them have been largely attended, and many of the fellows seem to be taking great interest in the work. On these two nights the entire floor is utilized for gymnasium work, no basket ball being allowed then. However on Tuesday, Wednesday, Friday and Saturday nights basketball may reign supreme. Any student at all has the privilege of joining one of these classes and of deriving the benefits. At each of the last two meetings there were fifty or sixty men present. Most of these men were Freshmen. They certainly have the right spirit.

Every one will agree that these classes are conducive to health and strength, and undoubtedly every man in the institution wants to have both of these assets; then, why don't you come out and join one of these classes? You need it just as much as the fellow who sits beside you, and in many cases even more so. Why don't you come out and give your poor body a chance once in a while? Of what use anyway is a lot of knowledge with no body to carry that knowledge into practice? Your life-work has not begun yet. You are keeping your mind in the best kind of training, why not your body? There is not one fellow in this or any other institution who would not be benefitted by some good, wholesome systematic exercise.

Winter will soon swoop down upon us and perhaps it will feel much more pleasant to spend our idle hours, loafing in our rooms. The only exercise will be that received in going to and coming from classes. Common sense will tell anybody that is quite insufficient, and if we expect to make good after being graduated we must take good care of our physical as well as our spiritual and mental being. Let's get together, fellows, and all turn out at the next meeting of the class.

1911 Scholarship Men.

The following is a list of the class of 1911 who have been chosen for scholarships:

For the White Scholarships—Rhoades, Smith, B. G. Watson, LeFever and Kintzing.

For the Louise Carnegie Scholarship—Briner, Meade, Bowman, H. C., Ellis, App, Metzger, J. E., Leicy, Wallace, Chubbuck, M. E. Zerby, Van Keuren, Butler, Davis, E. F., Heisler, McBride, Yaney, Boag, Humberger, Pelton and Dickey.

The Thespians.

Last evening the Thespians held a meeting to elect a Secretary and to consider a new play for next year. Several shows of other colleges were looked over and discussed but nothing definite was decided upon. In a short time, however, work will be begun on the new play and any one with any dramatic talent at all should "get in shape" and be ready for the trials when they are announced.

Civic Club.

There will be an important meeting of the Civic Club, in room 23 of the Engineering building to-night at 7 p. m.

ENGINEERING NEWSLETS

What is Being Done by Prominent Men in the Various Engineering Schools.

The refrigerating plant and heating apparatus for the new thermo testing laboratory erected this summer have arrived and are being installed.

The seniors in M. E. Railroad Option, have arranged to spend Thursday, Friday and Saturday of this week in Altoona, running tests on the locomotive testing plant of the Pennsylvania Railroad company.

Mr. Phidean, manager of "The Technical Miller," the recognized journal of the milling industry, visited college Friday and Saturday for the purpose of studying the work which is being done here along that line, and to advance the milling interests of the country.

Mr. S. B. Maiks, manager of the of the Westinghouse Airbrake company gave an interesting illustrated lecture upon History of Transportation and Brakes last Friday in the Old Chapel. On Saturday morning, before the senior section in Mechanical engineering, he gave a technical discussion on the modern high speed air brakes.

The first Bulletin of the Engineering Experiment station is now being distributed. This bulletin contains a general description of the work which is planned for this station, a very practical and well prepared set of instructions by Prof. Elton D. Walker for laying concrete floors and walks, and the results of experimental lamp tests by Prof. Prof. C. L. Kinsloe. The surprising results obtained by Prof. Kinsloe's experiments, which were along lines heretofore untouched by investigators, are of vital interest to incandescent lamp manufacturers and users.

All Out Monday Afternoon.

On Monday afternoon, Oct. 17, Hon. Webster Grimm, Democratic nominee for Governor of Pennsylvania, will address the fellows in front of the Auditorium at four o'clock. The hour may possibly be changed, and if so the new arrangement will be posted on the walks.

Mr. Grimm is a very entertaining and fluent speaker and we are indeed fortunate in having the opportunity to hear him. The Civic Club is to be commended in bringing Mr. Grimm to address us.

Don't forget this. Watch the walks for any change in time.

Track Trials.

Last Saturday the track trials were held for the purpose of getting a line on all track material. Each event was watched with interest and very creditable showings were made by some of the new men. Craig in the 100 yard dash and Keyser in the two mile looked especially good. Not enough fellows reported for the meet and a good many that were out running did not seem to be doing their best. Several track trials will be held this Fall, let every man who has any track ability come out and at least make some other man work harder!

Informal Dance at Sigma Chi.

The Sigma Chi Fraternity held an Informal Dance on Friday evening, October 7, in their Chapter house on the Campus, and the affair was most thoroughly enjoyed by all who attended.
