

# Are You Particular how Your Linens are Laundered?

Most people are. In sending your work to the High Standard Laundry of Philipsburg, you get all that is good in laundry work. With a complete, sanitary plant, equipped with the most modern, motor driven, electric, and steam heated machinery; combined with years of careful study of the laundry business in every detail and with skilled labor in every department of our laundry, we are in a position to give you absolutely high grade work.

## Are You Satisfied With your Collars?

One great trouble of the laundry patrons is to get his collars ironed correctly. We turn, or fold all collars by hand, thus insuring you perfect work. This method eliminates the breaking of collars, which is more liable to happen where collars are turned or folded with power machinery. After the collars are folded they are carefully ironed on the edge, which leaves a smooth surface. You will not be bothered by collars chafing the neck that are folded by hand. This method of folding also leaves a tie space. If you have trouble with your tie sticking when trying to tie it you will know what it means to get away from that nuisance. Remember next week we will tell you about our method of ironing shirts.

**We Guarantee all Work to be Strictly High Grade.**

130 East College Avenue

A full line of men's furnishings  
Custom made clothing by the  
Royal tailors & Pennants and  
cushion tops—a fine assortment

Cleaning and pressing

### The Deutscher Verein.

Mr. Heinrich Starcke gave a most excellent talk before the Deutscher Verein last Friday evening, on the German school system. The descriptions of all the different grades of education, and of the subjects treated at each period of instruction were very interesting. Mr. Starcke laid special emphasis upon the higher schools, the Gymnasium, the Realgymnasium, and the Oberrealschule, and made his descriptions accurate and attractive throughout.

At the business meeting following Mr. Starcke's talk, a number of important matters were brought up in regard to methods of governing the organization during the coming year, and respecting the annual play. A large number of new men, principally from the freshman class, have been admitted to membership, and they are most cordially welcomed to the society. At the meetings in the near future, a great deal of important business is to be transacted, and it is essential that all members make an effort to be present.

The State men connected with the Bureau of Mines of the U. S. Geol. Survey at Pittsburg are W. C. Cope '06, who is a chemist in the exposure laboratory and has had considerable to do with the powders used by the government on the Panama Canal, H. I. Smith '07 and Gallenger '10 who are in the Mine accident department as J. Mining engineers.

A rule at Amherst preventing freshmen from playing on the varsity teams until after their mid-year examinations went into effect this fall.

For the first time in five years the Wisconsin football squad is holding secret practice.

The students of the University of Michigan presented the battleship Michigan with a silver bugle in acknowledgment of the support given Michigan's eleven at the Pennsylvania game last year.

Yale celebrated its 209th birthday last week

### AMONG THE ALUMNI

G. E. (Danny) Urbster, '05, who was married last Sept. to Miss Lillian Cemor a charming young lady of Newark, N. J. is located with the Bureau of Standards of the U. S. Geol. Survey, Pittsburg as Jr. Chemist in the department of Ceramics

W. R. Landes '10 and C. A. Schnerr '10 are with the People's Light, Gas and Coke company of Chicago, Ill. as chemists. Kriner, Speer, Doud, P. Jones and Faber '10, are also in that city

Informal at Beta Theta Pi.

An informal dance and reception was given by the members of the Beta Theta Pi fraternity last Saturday evening in their chapter house on the campus. The affair was thoroughly enjoyed by all present.

### Varsity Basketball.

Candidates for the varsity basketball team have been practicing every afternoon for the past ten days in preparation for the hard games scheduled for this winter. Captain Blythe '12, McEntire '11, Haddow '13, and Shore '13 are the members of last year's team who have returned to college. About twenty-five candidates have reported for practice and several of the new men look like promising varsity material.

The services of Dutch Herrmann and Reed will be very much missed, as they both were good, hard players in the game from beginning to end.

Since it has been decided to continue basketball, it is up to the student body to turn out to the games, support the team, and by so doing make this season one of the best in the history of Penn State.

### Interclass Wrestling Meet.

This Friday night on new Beaver field, the annual wrestling meet between the sophomores and freshmen will be held. The men representing the two classes have been practicing faithfully for the past month and the meet should be very interesting for the participants as well as to the spectators. The arrangements that were made last year were very satisfactory and the same have been made for this year's meet. The freshmen are of unknown quality, while the sophomores will have practically the same men as last year; namely, Shollenberger, Karcher, Jarret, Warner, Elliot, Stonerod, and Rogers.

### State Smoker at Pittsburg.

Quite a large number of State men have already signified their intention of going to the Penn State smoker at the Fort Pitt hotel, Pittsburg on Saturday evening Nov. 5. For the benefit of those who did not receive cards it is desirable that all State men in the vicinity of Pittsburg at that time should be on hand for the big time that surely awaits them. The affair is in charge of a committee of alumni so it will no doubt prove to be interesting.

### The Pennsylvania Day Dance.

The senior class will give its annual Pennsylvania day dance on Friday evening Nov. 11, 1910. All members of the faculty, students of the college and guests are cordially invited to attend.

Anyone desiring invitations can secure them from J. F. Forsythe, chairman.

The drawing for places will take place on Tuesday evening Nov. 8. All fraternities, clubs or other organizations desiring a corner should see the chairman before that time.

A. S. Amer '09 and R. J. Patterson '10, who are in the engineering department of the Westinghouse Lamp company, J. K. Barnes '09, who is on the staff of the Wall Street Journal in New York City, and C. N. Fleming '09, who is in the engineering department of the Sprague Electric company, are living together at 60 Ella St., Bloomfield, N. J.

C. S. Buller '08 and J. B. Wyckoff '08 are connected with the Westinghouse Lamp company of Bloomfield N. J., and are living together at 37 Park avenue, East Orange, N. J.

H. C. Meredith, '10 and S. J. McNary, '10 are with the National Electric sample association, in the engineering department. Their address is 5902 Quimby avenue, N. E. Cleveland, Ohio. A. E. Harrold '07 is with some company. Shank '08, is with Lake shore railroad.
