VOLUME 7 NUMBER 23

STATE COLLEGE, PA, MARCH 30, 1911

# A WONDERFUL **DISCOVERY**

Phenomena Unearthed Is Miracle to **Baffled Scientists** 

#### EARTHLY ELEMENTS CONQUERED

Original Research Work by Penn State Men Attracts Universal Attention. New Discovery Will Undoubtedly Revolutionize all Scientific Theory.

Are you a believer? What was impossible yesterday is the common practice of today. Truly this is the age of marvelous progress and inexhaustible achievments. The recent discoveries of the Penn State men who have been consistently working on the practically unknown subjects of "Climatic Disturbances and Their Causes and Effects" have contributed to science actual facts which undoubtedly will replace all of the former theories which have seemingly appeared to have been well-founded. The terrible eruptions of Vesuvius, Mt. Pelee and many others famous volcanoes have been beyond mortal control, mainly through the lack of science to provide feasible schemes combat the combustible elements, reposing in their craters, but now, there can no longer be any fear for a repetition of these unwelcome shocks.

underlying . these shocks in the earth's formation, and he further the conditions of the competition states that with proper application ments in the climate, results may the plays submitted. be accomplished that will keep the

Unquestionably, the State College public will have ample oppor- manuscript tunity to verify the validity of the new scientific discoveries, as phytain burst forth, its fury would be the college. evidently little less than totally destructive, and the situation therefore the Thespians. is such that the eruption must be quelled. . .

Everything depends on Dr. Knowlittle and his "Climatologers". What his methods are, no one knows, but he states positively that he will successfully ward off the catastrophe and give the secret of the science to the world. The whole action of his experiment will take place in the Auditorium at 8 o'clock on Friday night, April 7.

European scientists and physicists have cabled ahead for room to witness this remarkable performance and the seats in the massive Auditorium are fast being engaged. Have you got yours? Get it now!

# Notice.

During Holy week, April 10 to 15 inclusive, there will be a short Lenten services, lead by the Brotherhood of these meetings of St. Andrew, from 12 noon to 12:20, daily, in the Foyer of the Auditorium. All are cordially invited to be present.

Auditorium, April 7, at 8 p. m.

#### Mr. Kent Lectures Here.

The lecture on "Engineering and Common Sense" delivered by Mr. William Kent on Monday evening March 27th was greatly appreciated by the unusally large audience which filled the Old Chapel Mr. Kent is man of very wide experience. He is a graduate of Stevens Institute of Technology, Hoboken, N J. and upon graduation was made assistant to Prof. R. H Thurston, on the U S. Board appointed to test metals 11 10 a. m Auditorium Musical For a number of years he was engaged in blast furnace construction! and operation.

On the subject of of boiler Economy and testing, heisan acknowledged authority. Mr Kent has written' papers concerning practically every branch of engineering work and has held many important positions in the different engineering societies He is the author of one of the best Mechanical Engineer's "Pocketbooks" At present, he is engaged in Consulting Engineering work in New York City.

It was a pleasure to listen to his broad—minded views so forcibly and entertainingly presented The local branch of the A S M. E. is to be congratulated upon securing such an able man as Mr Kent.

He made a second address to the Mechanical Engineers Society on Tuesday morning on the subject of 'Engineering Possiblities'

#### The Thespians Prize.

In order to secure for the use of the organization, a play which shall be the product of State men, the Dr. Knowlittle, who has had Thespians have decided to offer a charge of the students that are work- prize of fifty dollars for the best ing up the data on the subject original musical comedy, suitable claims that the climatic reversals for the use of the Thespians, which and eccentricities are the sources shall be submitted on or before October 1, 1911. The following are

#### CALENDAR.

THURSDAY, MARCH 0.

4.20 p m Old Chapet. Lecture on Thomas Harry by Plot Pattee

1913 vs 1914,

800 p. m Auditorum The The College Widow, by the Y. M. C A and Y W C. A PRIDAY, MARCH SI.

SATURDAY, APRIL 1

Baseball Penn State vs. Bellefonte Academy.

8.00 p. m Aimory Freshman' Gymnasium Dull. SUNDAY APRIL 2

1000 a m, Foyer of Auditorium. Catholic services.

1000 a. m. Old Chapel: Freshman Bible class.

11.00 a. m Auditorium. Charel service. Dr. W. T Grenfell will preach.

7.00 p. m. Auditorium, Lecture by Dr. Grenfell. MONDAY, APRIL 3.

7.30 p.m. Old Chapel. Meeting Liberal Arts society. TUESDAY, APRIL 1

6:30 p. m. Old Chapel. Y. M. C. A. prayer meeting. WEDNESDAY, APRIL 5

6.30 p. m. Room 106 Main. Press Club Meeting. Election of officers.

# The Penn State Dinner.

Next Saturday evening, April first, at seven o'clock, the big Penn State dinner will begin at the University Club, Pittsburg. This promises to be one of the largest dinners of its kind ever attempted by our western alumni and indications point toward a large attendance and a royal time. There will be something doing every minute. There will be music for the musical, "eats" for the hungry and food for thought for the intellectual. No Pcnn State man can afford to miss the the big time, That good old Penn State spirit that has been smouldering will again buist forth into flames. Fall in thine and send your acceptance now to A. K. Little, 1012 Park Building, Manuscripts are to be submitted Pittsburg. It is necessary that you to the treasurer of the Thespians, secure your place not later than March 30. Do not forget the date

# Beizelius Society.

On Wednesday evening the 21st of March the Berzelius Chemical Society held the first meeting of the year in room ten of the amphitheatre.

the annual chemistry tup which this the chairman, D. B. Le Pevic, or to year will include the important manutacturing plants in the vicinity of as possible. New York and Philadelphia. Later, Di. Pond gave some advice regardand senior Chemists to take dimer fishing people of Tahrador and a spenior the torner team cleaned

# A Reception at the Blue Goose.

Dr. Wilfred T. Grenfell, the well night. March 25; the Y. M. C. A. is a greatness where one is a on Sunday
