

## GENEVA CRUSHED

**Penn State Football Team Wins Opening Game by Score of 57-0. Varsity Displays Fast Form on New Beaver Field.**

With New Beaver Field in a slightly muddy condition Saturday afternoon Penn State began her football season of 1911 with Geneva College. On the opening play Geneva kicked off to Barrett and the ball was returned to the twenty-five yard line. Hermann made seven yards around right end, but Geneva secured the ball on an attempted onside kick by State on our fifty yard line. Engle intercepted Geneva's first forward pass at the center of the field. From here end runs by Berryman and Barrett gained forty-five yards, and Barrett crossed the line with our first score, just seven minutes after the ball was put in play. On the punt out, after the touchdown, Hermann failed to heel the ball. When Geneva kicked off again, Captain Very ran the ball back twenty-five yards. Barrett and Berryman sprinted around the ends for twenty yards, where we lost the ball by a fumble. Geneva gained five yards on two attempts and then kicked to Barrett. In giving interference for Barrett, "Dutch" Hermann had the misfortune to tear the muscle of his hip. After gamely sending Very around the end for a beautiful thirty yard run, Hermann gave way to Miller. Miller scored the second goal after a spectacular end run, evading, by zig-zagging tactics, the whole Geneva team. Mauthe kicked the goal. State scored the third goal in the first quarter by fast work on the part of Barrett and Berryman, aided by fine interference given by Mauthe and Very. Mauthe kicked a neat goal. The score of the first quarter ended seventeen to nothing in favor of Penn State with the ball on Geneva's forty-eight yard line.

Barrett ran sixty yards in the second quarter after two plays, for a touchdown. Very recovered an onside kick and after "Shorty" Miller added eighteen yards, Engle was shoved over the line. Mauthe and Harlow made several brilliant tackles in this period. Clarke showed his ability to follow the ball by recovering two fumbles made by Geneva. Geneva made a first down in this period. The second quarter ended by a score of thirty-five to nothing.

The third and fourth quarters were the product of brilliant interference on the part of the backs and ends. Barrett received Geneva's sixth kickoff and ran the length of the field for a touchdown. Mauthe kicked a goal from the field from the thirty-five yard line. "Shorty" Miller also scored another touchdown by fast work around the end. During the last period Geneva made a determined stand, and, for a few minutes, played the team to a standstill.

Penn State gained much ground by wide and close end runs by fullback and quarter back, aided by good interference. One fact noticeable in the game was the comparative absence of fumbling considering the earliness of the season. The forward pass needs perfecting. While Geneva's line did not prove a test for our own line, however, at no time did men break through our line in time to block kicks or smash plays in the begin-

ning. Captain Very, by his dash and leadership, showed the ability of an ideal captain. It would have taken a detective to discover that Mauthe had had his ankle broken last season, inasmuch as the same reliable end kicked two field goals out of three tries and six out of nine goals from touchdown.

Summing up the result of the Geneva game it can easily be seen that the Penn State football eleven for the season of 1911 will be much better than was anticipated at first. Every person is convinced that by the efficient staff of coaches, including Head Coach McCleary and Advisory Coach Hollenback, the Varsity will be in such shape that on the 14th of October, Penn State will give Cornell a hard tussle for victory.

Owing to the fact that King and Barry were unable to matriculate with the Registrar before Saturday's game, they could not be used in the game. However, since credits have been forwarded since then, these two men will undoubtedly help make one of the fastest backfields that Penn State ever had.

Line up of Geneva Game.

Very (capt)	R. E.	Stauffer
Rutstein		
Engle	Welling R. T.	Martin
Bebout-Lesh	R. G.	Kussel
Clarke-Lamb	C.	Fee
Vogel-Hansen	L. G.	Carter
Harlow	L. T.	
Mauthe	L. E.	Mautland
Hirshman		
Berryman	R. H.	Nelson
Tobin		
Johnson-Welty	L. H.	Clyde
Barrett-Smith	F. B.	Stepart (cap)
Hermann-Miller	Q. B.	Wyle
and Fleming.		Dodds

Touchdowns—Barrett 4, Miller 2, Berryman 2, Engle 1.  
Field Goals—Mauthe 2  
Field Judge—Rodgers.  
Referee—Bush.  
Head linesman—Goedecker.

### Complimentary Dinner.

At the Spruce Creek Rod and Gun Club on Monday, September 25th, there was given by the members of the Board of Trustees and Faculty of The Pennsylvania State College, a complimentary dinner to Colonel John A. Woodward, of Howard, Pa., who for twenty-seven years has been a trustee of The Pennsylvania State College.

President Sparks was toastmaster and toasts were responded to by Gen. Beaver, Mr. Chester J. Tyson, Dr. Armsby, Deans Jackson and Hunt and the honored guest.

The trustees present were General Beaver, Judge Orvis, Messrs. Bayard, Lowry, Mitchell, McCormick, and White. The faculty members were President Sparks and Messrs. Agee, Armsby, Breneman, Barby, Braman, Crane, Cochel, Fiear, Fries, Gardner, Given, Goodling, Hunt, Jackson, Mairs, McDowell, Pond, Shaw, Torrence, Thomas, Van Norman, Watts, Walker, S. E. Weber, Whitmore, Colonel Reynolds, of Bellefonte, and Mr. C. J. Lyson, of Florida.

For forty years Colonel Woodward has taken a deep interest in the college, having in this period missed but two commencements. He was elected a member of the Board of Trustees in 1884. In 1891 he was appointed a member of the Executive Committee of the Board of Trustees, and in the same year was appointed chairman of the Advisory Committee of the Experiment Station. In these capacities he served continuously until June 30th, 1911. His intense devotion, his good judgment, and wide

knowledge of men and affairs combine to make him an important factor in the development of the college in the last quarter century.

### Faculty of the Agricultural Department.

Losses:—Professor J. A. Ferguson has accepted a position as professor of forestry at the University of Missouri.

Mr. J. B. Hill has been granted a leave of absence for a year for study at the University of Chicago.

Mr. A. A. Borland left for the University of Vermont where he will become a professor of dairy husbandry.

M. J. W. White while on leave of absence for a year, will study at the University of Illinois at Urbana, Illinois.

Professor J. P. Pillsbury leaves to accept a position as professor of horticulture in the North Carolina college of Agriculture and Mechanical Arts.

Professor R. S. Mackintosh will take a position in a high school at Caledonia, Minnesota.

Doctor Margaret B. MacDonald is spending her six months leave of absence in Germany.

Mr. J. M. McKee has become the farm manager for Mr. Bassett at Summit, N. J.

Additions: J. F. Adams, B. S., Massachusetts Agricultural College, (Ass't in Botany).

Frank App, B. S., The Pennsylvania State College, (Ass't in Agronomy).

J. B. Berry, B. S., The University of Minnesota, (Instructor in Forestry).

R. R. Chaffee, A. B., M. F., Clark University. Also Harvard, (Instructor in Forestry).

J. F. Clevenger, B. Sc., M. A., Ohio State University. (Substitute in Botany).

J. W. Duckett, B. S., Maryland Agricultural College, (Sub. Agr. Chemistry).

H. H. Havner, D. V. M., Iowa State college, (Assistant in Sanitation and Hygiene).

H. F. HERSHEY, B. S., The Pennsylvania State college, (Assistant in Experimental Pathology).

R. V. Mitchell, Cornell University, Assistant in Poultry.

W. W. Reitz, B. S., The Pennsylvania State college, (Ass't in Agronomy).

A. B. Werby, Massachusetts Institute of Technology, (Ass't in Agr. Chem.)

W. R. White, B. S., The Pennsylvania State college, (Instructor in Agricultural Education).

J. R. Winston, B. S., The Virginia Polytechnic Institute, (Ass't in Botany).

C. A. Smith, B. S., Massachusetts Agricultural college, (Substitute in Agricultural Chemistry).

### Liberal Arts Play.

The School of Liberal Arts is planning to give a play during the winter, and a committee, under the direction of Mr. Dye, is already at work upon the project. A classical play will probably be selected. The committee is discussing the advisability of giving a fairly short play during the winter, and then, if it is successful, presenting a more extensive play at Commencement time.

### A Few La Vies Left

For those who did not secure a 1912 La Vie, a few are still on sale for \$2.00 at 333 McAllister Hall. Do not fail to have this valuable book in your collection.

### Gettysburg on Saturday.

Gettysburg College will be played on New Beaver Field next Saturday. Since Gettysburg held Penn State to a 5-3 score last Saturday, the game of this week will be one of the most important early season games played. A summary of football scores between Gettysburg and Penn State is as follows:

Year	Penn State	Gettysburg
1900	44	0
1902	39	0
1905	18	0
1906	0	0

### New Course in Highway Engineering.

The success that attended the Good Roads Train sent out last spring from the college under the direction of the School of Engineering has led to the formation of a new course in Highway Engineering. This course differs from the Civil Engineering course beginning with the second semester of the junior year, and continuing through the senior year. Highway design, and tests of highway materials are taken in place of railroad engineering. For the tests of highway materials adequate apparatus is being installed, and the numerous new testing machines are all of the most recent and approved designs.

### Baseball Practice.

On Saturday afternoon from one to three o'clock there will be baseball practice on New Beaver Field. Although the work will be mainly for new candidates, Captain Eberlein also wishes all old men to be present in uniform. This fall practice is very important as it will enable the captain and coaches to try out all the new men, and thus make the work of eliminating candidates in February much easier.

Owing to the very crowded condition of the Armory at the first spring practices, it is very difficult to give every man a chance, and the best thing for new men to do therefore, is to get into the fall practice for all that they are worth.

### New Equipment for School of Mines.

Some of the important new equipment placed in the School of Mines recently is as follows.

A large air compressor, direct connected with motor, and mounted on car, such that the compressor could be used in mines, has been installed, and will furnish air for running drills and other pneumatic machinery.

A complete equipment of safety lamps, two types of lighting machines for safety lamps, and a safety lamp cleaning machine have been received from the Ackroyd and Best company.

A large Oil fired Muffle Furnace, and an Oil fired Malting furnace have been set up in the furnace room for the use of the department of Metallurgical Engineering. These were built by the Rockwell Furnace company and will be used for work in the preparation and heat treatment of iron and steel, and for other metallurgical experiments.

### Track Trials.

On Saturday, October 14, a track meet will be held on the Beaver track, for all excepting "S" men. It is the desire of the track manager that all men in college, whether of last year's squad, of the number already picked from 1915, or of men who have not run before, but desire to do so, should come out on Saturday.

### In Other Colleges.

"University Missourian," an up-to-date city newspaper is the daily production of the students and faculty of the college of Journalism, at the University of Missouri. It is issued in connection with a practical course in newspaper work which is given by real newspaper men. Both local and telegraphic news are included, and the whole field from college activities to Paris fashions, from police news to social events is covered.

The students of Miami University have voted to adopt the honor system by a very positive majority. The adoption was at issue for several months.

Ground is being broken for the new horticultural building of the Oregon Agricultural College, which will contain elaborate facilities for horticultural work.

The annual struggle for all-around athletic supremacy between the two English Universities, Oxford and Cambridge, resulted in twelve victories for Oxford and eleven for Cambridge.

The Yale-Harvard combination of track athletes was defeated by the Oxford-Cambridge team in London last July. Each nation had won two meets of similar character and this was in the nature of a rubber contest. No records were broken.

The Glee Club of Dartmouth is taking a five weeks' trip through the New England States.

Since 1882 the University of Chicago has granted 5,895 degrees.

Pennsylvania is raising \$100,000 for a new Deutsches Haus for German activities.

### Faculty Dinner.

The annual Faculty dinner to welcome new members of the faculty will be held at the College Commons on Friday evening at 7.30. The meeting will afford excellent opportunities for the new members of the "faculty family" to meet the president and the older members.

Dr. Sparks will be the presiding officer. Prof. A. H. Espenshade will welcome the initiates, and E. R. Smith will respond on the behalf of the novitiates. Immediately following the dinner, the Cotillion Club will hold its first assembly. The general committee in charge of the evening's affairs are W. A. Cochel, Mrs. C. D. Fehr, S. K. Hostetter.

### Gift of Uehling Pyrometer.

The department of Metallurgical Engineering has just received, through the generosity of the Bethlehem Steel company, a gift of a complete double Uehling Pyrometer outfit, such as is used in measuring and recording the blast temperature, and downcomer gas temperature, at blast furnaces. The outfit includes the pyrometers proper, and two recorders, one a Stinebart recorder and the other a Uehling recorder.

### Push Ball Scrap Saturday.

It was deemed advisable by the Student Council to hold the push ball contest on the third Saturday after the opening of college instead of the second Saturday. This was done so that the freshmen may have more time in which to get acquainted one with the other and so that they may be able to recognize men of their own class when in the scrap. The contest will take place about 1:15 on Old Beaver Field.
