PRICE FIVE CENTS

THE GETTYSBURG GAME

Football Team Wins by Score of 31-0 Against Gettysburg—Captain Very, Harlow, Miller, Clarke and Berryman Star—Mauthe Kicks Field Goal.

In last Saturday's game Penn State defeated the strong Gettysburg eleven by the overwhelming score of 31 to 0. The whole State team played much better football than in the Geneva game, and displayed to 3,000 loyal supporters almost midseason form. The first touchdown was made in just three minutes of play. Barrett kicked off. Captain Very, by his speed, secured the ball on Gettysburg's 47 yard line and ran for 31 yards. Mauthe gained 5 yards through center, Berryman added 3 yards more by a line plunge and Mauthe scored the first touchdown. "Shorty" Miller neatly handled the kick out, after which Mauthe kicked goal.

The fact that in three minutes Penn State had scored one point more than the University of Pennsylvania did in the whole game on the previous Saturday, seemed to paralyze the offense of the visitors. After Berryman had run the second kickoff of Gettysburg back 30 yards, and Very had recovered an onside kick of Barrett's, and after failures to make a first down on two attempts, State kicked. On the next play Harlow got through the line and threw Leathers for a loss of four yards. Mauthe tried for a field goal from the thirty-five yard line but failed; Lawyer who caught the ball was thrown by a hard tackle of Page. The second touchdown was made by end runs by Miller, and Berryman of respectively 12 and 15 yards, Berryman making the score.

Throughout the game Gettysburg did not show the form that our coaches had anticipated. Although the defense was pretty good in the second quarter, State losing the ball on downs on Gettysburg's third yard line, the offense was powerless before our line. Harlow, Bebout, Clarke, and Hansen, each secured a blocked kick and Gettysburg was unable to use the forward pass to advantage.

The attack of the Blue and White eleven varied somewhat from the Geneva Game. In the previous game long and close end runs by Barrett and Miller were the best ground gainers, while the forward pass was used to good advantage in the latter game. In the second period Very got away with a pass from Mauthe for twenty-five yards and a touchdown, and again Weston and Miller made gains on forward passes thrown by Barrett.

Lesh and McVean were substituted as guards in place of Bebout and Hansen. Both new men in the game stopped plays that were started through the line. Miller who took Beidelman's place at left half for Gettysburg made some brilliant tackles and ran back punts in fine style. The big surprise of the game was the manner in which, Page '13, played left end. Page played on both freshman and sophomore teams in the inter-class games, but did not come out for Varsity until three days before the Gettysburg game. In the last quarter Mauthe, who had retired in favor of Weston on account of a slight injury, returned to the game

and kicked a splendid goal from placement on State's 38 yard line.

The line up:
Very (Capt.) R. E. Kapp, Heim
Engle R. T. Beck
Hansen, McVean R. G. Beyle, Keller
Clarke C. McCullough
Bebout, Lesh L. G. Diehl
Harlow L. T. Dulbehn
Page, Rutstein, L. E. Black
Hirshman
Miller Q. Dayhoff, Vail
Barrett R. H. Leathers
Berryman L. H. Biedelman,
Miller

Mauthe, Weston F. B. Lawyer, Liebegott
Referee—Bush, Swatthmore. Umpire—Robinson, U of P. Field judge—Bower, Franklin and Marshall. Time of quarters—twelve minutes. Touchdowns—Mauthe, Berryman, Very and Miller. Goals from touchdowns—Mauthe 2, Barrett. Goal from placement—Mauthe.

Foresters' Feed.

The opening meeting of the Forestry Society was held on Tuesday evening in the woodlot at the rear of the Forestry Building. Seated around a blazing campfire, the foresters were in their element, and the usual good fellowship prevailed. The meeting was in the nature of a welcome and a reception to the new men in the course, and speeches with that end in view were made by Dr. Baker, Prof. Clark, Mr. Berry, and Mr. Chaffee. After several hours spent in recounting experiences of the wilds of the Rockies, the cypress swamps of the South, the rugged hills of New England, and the dense forests of the Sierras, all the time consuming liberal quantities of cider and "hot dogs," the men around the camp fire concluded the evening's enjoyment with the singing of the Biltmore Forestry Song.

Penn State Eager to Beat Cornell.

Next Saturday comes what is considered as one of the most important games of Penn State's football schedule. Cornell will be met at Ithaca. Not only have Cornell and Penn State come into very close athletic relations during the last few years, but their meetings on both gridiron and diamond have been so close and hard fought that every struggle between the two is closely watched throughout college circles. Our team is fortunate in having such a star as Earl Hewitt, '03, quarterback and captain of his team to return to help whip the eleven into shape for the coming big games. Alec Gray, last year's captain, was also in town for a few days.

Changes in Faculty.

The following are new instructors in the school of Natural Science:—F. W. Varrelman, of the University of Wisconsin, instructor in zoology; R. D. Spencer, State, 1911, instructor in Zoology; T. S. Sligh, of the University of Louisiana, teaching fellow in Physics, O. F. Smith, Penn State, 1911, instructor in physics; P. I. Pierson, of Western Reserve, instructor in Physics. The following instructors of last year have been replaced by those mentioned above:—F. C. Miller, W. P. Davey, L. J. Lassalle, M. W. Eddy, J. L. Appleton, O. M. Bishop.

Class Wrestling.

The date of the sophomore-freshman wrestling meet remains to be selected. The student sentiment favors holding this meet under Intercollegiate rules, which call for seven weights and allow three points for a fall and two points for a decision. The team managers, however, have not definitely decided upon this point.

Track Trials.

On Saturday, Oct. 14, track trials will be held for all old and new men, not including "S" men. 1:30 has been set for the hour and the meet will start promptly on time, and be over in plenty of time to hear the returns of the Cornell game.

The object of the meet is to find out just what men are to be carried on the squad which is now very large. State has never in the past few years had such encouraging material as has been seen here this fall and there is no reason why our track team should not uphold the high standard of our other athletic teams.

Every man in college is encouraged to come out on Saturday and try, whether he has been out before or not. The squad is working hard every day and on Saturday some very hotly contested races may be expected.

The hearty support of the student body is asked and it would be of great encouragement to the contestants to see a large crowd in attendance at the meet.—"Remember the hour. 1:30 sharp."

Inter-Department Tennis.

Arrangements are being made for a tennis tournament between players of the various departments in the college. Any one who wishes to try for the prizes should hand in his entry at the Co-op before Friday, October 13. A valuable gold medal will be given to the winner of the tournament and a silver medal of attractive design will be presented to the runner-up. The large number of men who have heretofore shown great skill at this form of sport gives promise of making the last tournament of the year a lively struggle for first honors.

Dr. Robt. N. Wilson Here.

Dr. Robt. N. Wilson, advisory physician at the University of Pennsylvania, will speak to the freshmen at 10 o'clock in the Old Chapel. At 11:00 a. m. he will hold the regular preaching services and at 1:30 p. m. will talk to the members of the Beaver Club. Group and individual conferences are to be arranged later.

Every freshman, regardless of his religious belief, should avail himself of this opportunity to hear Dr. Wilson who will speak on essential problems which every college man should know about.

Philadelphia Trip.

Manager Orr has secured very favorable rates for a special train to carry students to the Penn game, provided there are 150 men taking the trip. Last year the train left Lehigh in the early afternoon on Friday, arriving in the city at 7 p. m.; and made the return trip on Sunday night. The arrangement was very convenient, and was successful in every way. If 300 men took the trip last year, there seems to be no valid reason against the presence of 500 Penn State men at the game this year. If every man realized the value to the team of strong cheering from the grandstand, he would make a great effort to take the trip. Let our slogan be "Five Hundred to Penn!"

Pennsylvania Day.

The date for Pennsylvania Day has been definitely set for Friday, November 17. Governor Tener will be honor guest. Other prominent speakers will take part in the exercises of the day.

A NEW ENGINEERING BUILDING

To be Used for Housing Shop Apparatus.

The Executive Committee of the Board of Trustees have authorized the erection of a new unit to the Engineering Building. This building will probably be about a hundred feet in length and sixty feet in width. It is proposed to erect it directly in front of the Thermal Laboratories and to the south of the Electrical Extension. The building will be of a type which can be extended readily and duplicated, and will be so placed and so designed that it will work into a proper general scheme for the permanent enlargement of the Engineering group.

Within this new building will be placed a large part of the apparatus for the study of iron and steel; the high tension apparatus of the electrical laboratory; probably the cement laboratories; and other parts of the engineering equipment which are now seriously handicapped for lack of space. The experimental mill will then be erected in the south end of the Electrical Extension, such parts of the electrical equipment as are thereby displaced being put in the new building.

This building will add greatly to the efficiency of the engineering work.

The New Horticulture Building.

The excavation work on the site of the new Horticultural Building, for the erection of which the Board of Trustees has so far appropriated \$40,000, has been under way for the past two weeks. The building which will be located in the wood lot at the west end of the Agricultural Building will be of the most modern structure and equipment.

The plans call for a two story fire proof building, 60 feet wide and 120 feet long. For the present, only the basement will be completed. Until more money can be secured, a temporary roof will cover this portion. The building materials to be used on the exterior will harmonize with those of the Agricultural Building and the style of architecture of the two will be practically the same. In addition to recitation rooms and offices, sufficient space will be given over for laboratory purposes. When completed, the structure will meet the growing needs of the department and at the same time relieve the congested condition of the main agricultural building.

German Examinations.

German examinations for credit in German 1, 2, and 3, to be applied to the college course, will be held Saturday, Oct. 14, at 2 o'clock in rooms 339 and 340 Main.

Only those students are eligible who have not used German 1, 2, or 3 for entrance, and who have certificates covering at least two years' work in some secondary school.

The section of senior Mechanical Engineering students visited the hops of the Pennsylvania Railroad at Altoona on October 6 and 7. The trip was taken in order that the men might make tests on one of the new large passenger locomotives that the company has recently installed. In doing this work they made use of the great \$200,000,000 testing plant of the Pennsylvania Railroad, the finest plant of its kind in the world.

CONFERENCE PROGRAM

Superintendents and Principals Will Meet at the College Oct. 20 and 21.

The Round Table Conference of Superintendents and Principals of Central Pennsylvania will take place, as previously announced, on Friday and Saturday, October 20 and 21, 1911, in the Auditorium. The program which takes up the various phases of the general topic "Industrial Training in Public Schools", will cover both days. A large part of Saturday will be given over to a business meeting. The subjects under the topic for discussion and the complete program follow:—

Friday, October 20, 3.30 p. m.

Report of the committee of fifteen appointed to recommend forms of school records and reports. Superintendent Charles Lose, of Williamsport, is chairman of this committee.

7 to 8 p. m.

Informal reception by the faculty. Club rooms, Engineering building.

Friday, October 20, 8 p. m.

1. Is the present demand for industrial training justifiable?
2. What shall be the nature of the industrial work for the Primary grades? For the Grammar grades? Time allotment for each?
3. What can be accomplished by giving trade instruction in evening schools?
4. The scope and function of manual training in the high school: (a) for boys? (b) for girls?

The chairman suggests that every member of the conference familiarize himself with the Report of the Committee on The Place of Industries in Public Education to the National Council of Education, July, 1910. Copies of the Report may be obtained of Irwin Shepard, Secretary N. E. A., Winona, Minnesota, for 15 cents per copy.

Saturday, October 21, 9 a. m.

Report of committee on schedule of time allotment for the various elementary grade subjects in each of the elementary grades. C. D. Koch, Harrisburg, Pa., chairman.

1. Shall agriculture be taught in the elementary grades? What? By whom?
2. A rational course in agriculture for rural high schools. How should such a course be inaugurated?

These topics are of special interest to county superintendents.

Saturday, October 21, 11:30 a. m.

Business Meeting. Selecting place of meeting. Electing officers.

The New School Code makes provision for the establishment of industrial training, manual training, and agricultural schools; a supervisor of industrial education is soon to be appointed; consequently, the industrial education movement is one of general interest and import. The Round Table Conference extends to you an urgent invitation to attend and take part in its informal discussions at the State College meeting. The Pennsylvania State College cordially seconds the invitation.

To the members of the Faculty:

Until further notice, faculty families and visitors will find seats at Sunday services on the north side of the gallery in the Auditorium.
