Mr．Sofianso，a native of Greece， very vividly related the part Greec is taking in the present Balkan War He blamed the Turk for the back wardness of these small nations and prophesied a period of regenera tion at hand．
Mr．Pavlides，after translating several verses of the Greek national song rendered the patriotic hymn which was very much appreciated by all those present．
Mrs．Gardner very ably presented the last number of the program She told the story of Homer＇s cele－ brated poem，The Odyssey．The wanderings of Ulysses，after the seige of Troy，were clearly and forcefully depicted．This is the second time that Mrs．Gardner has taken part in a Cosmopolitan Club program，and the interest shown on these occasions is clearly demon－ present at these meetings．
Mr．Schwartz，Vice－President the club presided at this affair．
This entertainment was one of series of national nights，which the Cosmopolitan Club has been pre senting to the public．The main purpose of these meetings is to purpose of these meetings is to face with the foreign student and to give each a chance to study the other at first hand Mr Edwin Mead the rreat American peace Mead，the great American peace advocate，in a recent address in Powe．＂referred to the Cosmo Powe．＂referred to＂the Cosmo politan Clubs as the greates hopes in modern education．This fact can only be realized when one knows the extent of these organi tions．There are chapters existing in all the righer institutions of learning of the world．embracing all nationalities and all spoken lan guages．It is a movement for de－ mocracy and toleration．
It is to be hoped that the student body will take advantage of the op－ portunity which these meetings af ford，to learn the point of view of men who come from other lands．
Mr．Kelsey＇s Lecture Pleases Large Audience．
Mr．Albert Kelsey，F．A．I．A． delivered an illustrated lecture on the architecture of Yucatan and Mexico，in the Auditorium，Satur day evening，April 5th．Mr．Kelsey is well－known to those interested in architecture at Penn State，as he has delivered two previous lectures before the students of architectur here．He himself is an architect of national reputation，and in collab－ oration with Professor Craig，a well－ known New York engineer，recently drew up the winning plans for the construction of the Pan－American Union building at Washington，D．C

In his talk Saturday evening．Mr Kelsey told of his journey to Yucatan，Vera Cruz and Mexico City，touching swiftly on the ap－
pearance，customs and points of interest in each section．He then drew a contrast between the older architecture of Mexico，and our own．
The latter part of the lecture was taken up by views and explantations of the Pan－American Union build－ ing，which embodies many of the impressions，of the industrial con－ ditions，as well as the artistic tendencies，of the Latin－American countries，gained by Mr．Kelsey during his trip．From his inter pretation of the statuary and frieze shotation of the statuary and friezes a true work of art and admirably adapted to its purpose of represent adapted to its purpose of represent urer ended with an appeal to the American people to think more merican people to think more of representing themselves in thei
architecture．Coming from such architecture．Coming from such source，this should prove
valuable hint to some of our future architects who heard it． The lecture was well attended he students of architecture and andscape－gardening being espe cially numerous and attentive．1he antern slides were very clear，and erved to make the speaker＇s ex planations and descriptious doubly ivid．Anecdotes and tales of ad enture added to the enjoyment of the audience．And it is therefore with pleasure that we learn that a least one other lecture of this series will be represented here by Mr Kelsey during the course of the spring．
