FRESHMEN LOSE.

Bellefonte Academy Defeats 1917 Eleven—Score 19 6.

Last Saturday Coach Hansen and a squad of twenty-five freshmen journeyed to Bellefonte together with a band and a special train carrying over three hundred rooters to the game with Bellefonte Academy.

The day was all but ideal, as a steady drizzle of rain fell during the entire game. The two teams lined up and fought evenly in the first quarter, neither side having a chance to score owing to the soggy condition of the field. In the second quarter on an exchange of kicks the freshmen were driven back to their twenty-yard line and on a fake kick were thrown for a loss. Here on an attempted kick the ball was blocked and Beer, of Bellefonte, fell on it for the first touchdown. The freshmen kicked to Houlium and he made the sensational run of the day, going sixty yards through a broken field before being downed. The half closed just as he went over for the second touchdown but they were unable to kick the goal.

During the second half the freshmen outplayed their rivals but a fumble in the third quarter was scooped up by Beer their speedy end and with a clear field he ran for the third touchdown. The first year men braced and advanced the ball into the Academy lads' territory. By straight line plunges Humble went over for their only touchdown. The game ended in darkness without any further score.

The freshmen at times out-played Bellefonte but the team taken as a whole played poor football. Thomas was easily the star of the game and together with Humble, Edgerton and Fair played the best ball for the freshmen while Beer and Houlium were the shining lights for the Academy. Lineup:

Five hundred and four freshmen were wholly prepared in public high schools; 110 were wholly prepared in private preparatory schools; and 46 were partly prepared in public high schools and partly in private schools.

If the yield and quality are bad you must do better. If they are good it will pay you to make them better. A better fertilizer will do it. The usual wheat fertilizers do not contain enough
