

Continued from page 1

maintained a close lead during the entire game. Hay and Metzgar did effective work on the defense while our husky center was the mainstay in the point getting.

Line up:
 Penn State 29 Pitt 26
 Binder (Savery) f Lubic
 Park f Healy (Graham)
 Jester c Reese (Briggs)
 Hay g Ochsenhirt
 Savery (Metzgar) g Hughes
 Substitutions—Savery for Binder, Metzgar for Savery, Graham for Healy, Briggs for Reese. Field goals—Jester, 4; Ochsenhirt, 2; Park, Savery, Lubic, 1. Foul goals—Savery, 14 out of 17; Hughes, 16 out of 30. Referee—Davis of P. H. Timekeeper—Baird of Pitt.

Westinghouse vs Penn State.
 During the early stages of the game the Westinghouse boys had the jump on our men and held the lead by several points during the first part of the contest. As the game progressed, our men steadily improved and by the end of the first half were in the lead by a comfortable margin.

The second half was better played than the former. Neither team showed any distinct advantage although our men held and increased their lead four points. Jester and Park shone in the offense.

Line up:
 Penn State 41 Westinghouse 27
 Binder f Irvin
 Park f Harvey
 Jester (Wilson) c (Sower) Keeler
 Hay (Metzgar) g Brown
 Savery g Basset
 Substitutions for Penn State—Wilson for Jester, Metzgar for Hay; for Westinghouse—Sower for Keeler. Field goals—Jester, Park 5; Binder, 4 Savery, 2; Hay 11. Foul goals—Binder 7 out of 10; Sower, 13 out of 17. Referee—Housekeeper of Syracuse. Timekeeper—Karr.

Bellefonte Academy Wins.
 In a fast game last Monday night Bellefonte Academy defeated the Freshman Basketball team in the armory by the score of 39-14. A special train brought a crowd of enthusiastic rooters from Bellefonte. Carlson, Jones and Elliot starred for Bellefonte while Craig and Dufford played well for 1917.

The line up was as follows:
 1917 Bellefonte
 Burns f Mangan
 Miller f Jones
 Dufford c Carlson
 Nissley g Pott
 Hoffman g Elliott
 Substitutions—Phillips for Hoffman; Curley for Dufford; Heim for Morgan. Referee—Haddow. Time of halves 20 min.

Baseball Candidates Out
 All battery candidates for the varsity baseball team will report in the Armory, Saturday, at 2 p. m. There is an excellent opportunity for a good pitcher and catcher because of the graduation last year of Captain Whitney and Henderson. Freshmen are especially requested to turn out.

On Friday evening, the time and place to be announced later, all men interested in baseball are requested to report. At this meeting the plans for the season will be discussed. The coaches for the season will be Walter Manning, whose past work speaks for itself, and Haverstick, one of the brainiest and gamest men who has ever represented State on the diamond.

Of last year's team Henderson, catcher; Whitney, pitcher; Mason, first base; Keller, third base, and MaKibben, short-stop, have graduated. This leaves a number of vacancies to be filled; however, Captain Wardwell, by tireless work

Each bite tastes better than the others. This is what you will hear at the Baked Ham and Baked Bean Supper given by the ladies of the Lutheran Church on Thursday evening, February 12, 1914, and this is what you always hear of our Samoset Chocolates.

Graham on the Corner.

in the fall found much promising material in the freshman class.

The schedule, which is nearly complete, promises to be the hardest in ten years. The help of every ball player is needed to make the season a success. No man is sure of his position. Everyone will have an equal chance. All out.

Engineering Notes.
 Prof. Calderwood spent the week beginning Jan. 19th in Philadelphia in connection with the Engineering Extension work in that city. He interviewed representatives of various manufacturing concerns and trade unions. Classes have been established in cooperation with the Tabor Manufacturing company and Midvale Steel company and other companies will take up the work in the near future. The unions which already have classes of their own will arrange to have lectures given by representatives of the Division of Engineering Extension.

The January issue of "Greater Efficiency", the journal of the Greater Efficiency Society, contains a two page article on College Courses in Industrial Engineering, in which is given a summary of the course in Industrial Engineering at the Pennsylvania State College. Mention is also made of Prof. Diemer's book on Factory Organization and Administration, and of the work now being done by graduates from Prof. Diemer's department.

Dr. Wood's Lecture
 Last Saturday night, Mr. Montreville Wood, with the aid of his daughter delivered a highly interesting and instructive lecture on the "Ultra Violet Ray and the Gyroscope" before a large audience in the Auditorium. Mr. Wood is a pleasing speaker and although the entertainment was a comparatively long one, he held the entire attention of his hearers throughout. Both the topics of his discussion were treated in a popular way, and wherever possible he confirmed his statements as to the properties of each subject with experiments, which, to say the least, were remarkable. All who heard it agree that the lecture had none of the cut-and-dried characteristics so often found in such cases, and that it was fully as entertaining as any number in the course has been.

Interclass Basketball.
 The Seniors easily defeated the Freshman in a loosely played game Thursday night. The freshman team showed some improvement over their previous game but were no match for the experienced line up that the Seniors presented. Nissley '17 played well for the first year men while Quirk and Peters did good work for the Seniors. The final score was 32 to 11.

A movement is on to abolish student drinking at Princeton University. The Senior Council seems to be back of it. The senior class has decided to rule out beer from the class dinner.

YOUR HAT

is the final touch to your dress—the most important note. It should be as carefully selected from the several that you should own as your cravat. We can supply the proper variety of Headwear.

New Spring Shapes

and coloring now here in soft and stiff hats.

Just crept into vogue the Belgrade pictured above—the most daring innovation in a stiff hat Crofut & Knapp have issued in years. A low bell crown to be worn well down and back on the head. We predict great popularity for it.

But we've plenty of other styles in extreme and conservative shapes in soft felt and derbies.

All the Standard Makes

Do Fertilizers Pay?

The Government and Educational "Authorities" spend considerable public money in printing contradictory statements on this point.

Great fortunes have been made in manufacturing fertilizers. They evidently pay the makers.

Farmers continue to increase their fertilizer purchases, indicating that they are profitable to the farmer.

But are the kinds which the manufacturers prefer to sell the most profitable to the farmer? Do they give the greatest profit consistent with maintaining the productiveness of the soil? Or do they merely supply the element most needed at the moment and reduce the available supply of the other elements?

The average fertilizer contains 4 times as much phosphoric acid as Potash. The average crop takes from the soil 3 times as much Potash as phosphoric acid. You can guess the answer. Use more Potash, for

Potash Pays

Send for FREE pamphlet on Profitable Farming, containing system of rational fertilizing and soil testing.
