What Profession are You Choosing?

If it is either **MEDICINE, DENTISTRY, PHARMACY** or **CHEMISTRY**, do not fail to learn the advantages of

The Medico-Chirurgical College OF PHILADELPHIA

It is in the City which has been and still is the American Center of Education in these Sciences. It has Departments of and grants Degrees in all four of them. It has its own Buildings comprising well-planned and well-equipped Laboratories, a large modern Hospital, and the finest clinical Amphitheatre extant. Its Courses in each Department are carefully graded. It has abundant and varied Clinical Material. Its Faculties are renowned and of high Pedagogic ability. Its Training is essentially and thoroughly practical. Special Features are Personal Instruction and Individual Work; Free Quizzes; Ward Classes limited in size; Practical Clinical Conferences; Modern and Modified Seminar Methods; Special Lectures by eminent Authorities; Practice and Training in Technique etc., etc. Write to-day to the Dean of the Department in which you are interested for an announcement describing the course and containing full information as to fees. Compare the advantages this college offers with any other before making a final decision. Seventeenth and Cherry Streets, Philadelphia, Pa.

EXCHANGES.

Johns Hopkins University will inaugurate a push-ball scap for the first time between the freshmen and sophomore classes. It is hoped that greater class spirit will be secured by this means.

A large number of students of both sexes at Swarthmore are up in arms against the stringent social rules in force at that college. More social functions and less restrictions are the demands.

The honor system is meeting with both successes and reverses. At F. & M. it has been adopted at Yale it has met with defeat. That it can be enforced has been shown by the fact that the University of Chicago recently punished 14 students for cheating in examinations.

Athletic authorities at Lafayette are considering a rule by which scholarship will be made a very important factor in the selection of assistant managers for athletic teams.

The Swarthmore Co-Eds have decided that they will hold a track meet this year instead of the customary May Day Dance.

The students at W. & J. have decided that no smoking will be permitted on the campus during school hours.

Lafayette College has honored Mayor Blankenburg of Philadelphia by conferring upon him the degree of Doctor of Laws.

A New Chemistry Society.

The sophomore straight chemists have recently organized into an association which is to be known hereafter as the T. T. Society and whose purpose is to stimulate and cultivate an interest in scientific matters. Meetings are held on every second Wednesday evening, subjects interesting and profitable to those studying chemistry are brought up and discussed, papers on scientific subjects are prepared and read, and the good time element is encouraged along with the more serious side of affairs. The society, though small, is an ambitious one, and once on its feet, it expects to do big things.

Sphinx Elections.

The following members of the sophomore class have been elected into the honorary society of the Sphinx; W. W. Wood, G. E. Hesselbacher, R. E. Geary, H. C. Yerger, Jr., C. C. McDowell, L. R. Austin, B. C. Jones, W. C. Schroeder, J. A. Watson.

Drill Exercise.

The entrants in the handicap cross country run held before Easter were excused from Gymnasium drill only, not military drill as might be inferred from the last issue of the Collegian.

AGRICULTURAL NOTES.

It is expected that the Horticultural Building will be completed within six weeks. This will be the largest and best equipped building for the teaching of Horticulture in the United States. The building will be dedicated during the coming Commencement. A committee of horticultural students, co-operating with the Department of Horticulture, are making plans for the dedicatory exercises.

The room in the Agricultural Building which has been used for stock judging purposes will be furnished for a Students' Club Room. The Agricultural Society is taking an active interest in this matter and it is hoped that all of the students taking courses in Agriculture will assist in furnishing the room.

Mr. F. N. Crawford, Assistant Chemist, has successfully passed the New York Civil Service examination and has resigned his position here to accept a position in the laboratory of the Geneva Experiment Station.

Mr. M. C. Kilpatrick, Instructor in Poultry Husbandry, has been granted leave of absence from May 15th until September 1st, to assist in conducting some investigations along the line of egg marketing and demonstration work in poultry husbandry for the United States Bureau of Chemistry.

Mr. Chas. S. Adams, Class of 1914, Agronomy, has been appointed County Agricultural Agent for Berks county and took up his work about April 1st.

Spring Football.

More intensive practice will be inaugurated this week by Coach Harlow. The dummy will be used for the first time this year both for tackling and for taking men out. Teams will be picked and team play will be tried out. Locke, Fleck, Gardner, and Herr continue to show improvement.

On Thursday, April 2, the college was honored by the presence of Vance C. McCormick, Democratic Candidate for Governor, William H. Berry, former State Treasurer, and the Honorable William T. Creasy. These gentlemen were touring the northern part of the State in order to further Mr. McCormick's candidacy. At 6.30 a mass meeting was held in the Auditorium and instructive and entertaining addresses were given. The students were aroused to a realization of their civic duties and responsibilities and were told that the future of the state depended upon their active citizenship. A large number of people attended the mass meeting and also a reception tendered to Mr. McCormick at the Nittany Inn.
