THE HONEYMOON

Second Appearance of Play Takes Well—Attendance Small.

The commencement festivities began last Friday evening when the new comedy, *The Honeymoon*, was presented before a fair sized audience in the Auditorium. This is the second appearance of the play at the college this year.

The *Honeymoon* is a comedy in four acts with the following cast of characters: Mr. David Carden, the bridegroom, Arthur Deering; Mrs. Victoria Carden, the bride, Miss Margherite C. Wilson; Celeste, a French waitress, Mrs. Arthur W. Cowell; the cook, a Bellefonte product, John Paul Downs; Mrs. James Gossley, a suffragist, Mrs. Edward M. Frear; Squire Gossley, her patient husband, Frank J. Mulvihill; Rev. Mr. Pott, a conscientious rector, Earl J. Hall; Mr. Jimmie Sanders, a cynical artist, Donald R. Fiske; Miss Sallie Radford, inclined to flirtation, Miss Ethel C. Sparks; Mrs. Wade, Victoria's mother, a widow, Mrs. Henry S. Cocklin; Prince Alexis Salzekoff, a Russian aviator, John Stanley Crandell.

The scene is laid in State College, on the terrace of a nearby cottage. The first act opens with Mr. and Mrs. Carden in their happy retreat on their honeymoon, where they hope to be free from the interruptions of other people. Their contentment is short-lived, for very soon they receive notices of the coming visits of a number of friends. Their vexation is increased when they recollect that they have only one extra room in the house. The second act opens with "Raise up, old man, Aunt Clara is coming," from Mrs. Carden. Then begins a grand onrush of visitors; Sallie and Jimmie are soon on the scene; the old squire comes along with both arms full of packages; Rev. Pott is ceremoniously ushered in, and finally the Prince and the bride's mother arrive in an airship.

In the third act after a heated discussion on the "divine rights of women", as Jimmie words it, the company decides to retire for the night. After some difficulty they are all given various rooms in the house, occupying even the servant's and cook's quarters, while Jimmie goes to the garden house, and the bride and groom decide to sleep on a bench on the terrace. There is much disturbance through the night, and finally the old squire is compelled to place the men at different points to guard the house against robbery and the guests against personal injury. The final act ends with the guests all taking a very sudden departure, and thus the newly-weds are again in seclusion.

Every player lived his or her part in the play and much credit is due them for their untiring efforts, especially to our popular player-coach, Mr. Arthur Deering who staged and directed the play. The performance was given for the benefit of the Young Men's Christian Association and was one of the very best productions of its kind.

Punting Contest

The punting contest held on Old Beaver Field on Friday afternoon, was won by Underhill with a kick of 51 yards. Medals were awarded to the three highest men, the other

winners being Lamb and Clark. The individual scores follow: Underhill, 51 yards; Lamb, 50 3-5 yards; H. Clark, 47 3-5 yards; Wood, 44 yards; Welty, 42 2-5 yards.

In forward passing, Wood and Clark tied for first place. The scores: Clark, 37 2-5 yards; Wood, 37 2-5 yards; Underhill, 36 2 5 yards; Yerger, 36 2-5 yards; Lamb, 34 2-5 yards.

The field goal contest was next in order and was won by Lamb with two goals, the other scorers being Wood, Welty and Herr, with one goal each.

Five men entered in the contest for goals from touchdown and the results were: Underhill, 5 out of 5; Thomas, 5 out of 5; Lamb, 5 out of 5; Yerger, 4 out of 5; Wood, 3 out of 5.

These four contests completed the spring football practice. The value of men with ability as drop kickers or punters is well known and it was with the idea of developing such men that Coach Harlow inaugurated such contests. Ordinarily there are plenty of men on a football team capable of kicking goals from touchdowns, but the need for practice in this work was shown last year when the Pitt game was lost by the difference of one point.

New Engineering Unit.

The addition of another unit to the engineering group will make it possible to partly relieve the crowded condition of shops, laboratories, and class rooms in this school. This unit, the construction of which is well under way, will be ready for occupancy at the beginning of the next school year and will be used by the department of Electrical Engineering and the Department of Architectural Engineering. The space thus vacated in the Engineering Building will be used principally by the department of Industrial Engineering and will also afford some relief for the other departments.

On account of the new buildings on the campus, it will be necessary to enlarge the power plant and steam heating system. This work will be done this summer.

The Pipe of Peace

Continued from page 1

the good name and reputation of the college. It means that the college traditions and customs of the past must be carefully guarded by the receivers of the pipe during the next year, when they in turn pass this great responsibility on to the next class.

Penn State is young in comparison with Harvard and Yale, but no tradition or custom of the older institutions is more revered by the Harvard and Yale men, than is the custom of smoking the Pipe of Peace by the passing class.

To Undergraduates of Penn State.

This year the Christian Association will be able to close its year without a deficit if each man promptly pays his Y. M. C. A. dues as well as his Sunday and Eddy subscriptions. Will you not kindly mail check for the indebtedness. It will mean that a very distinct advance will be made in the Association work next year if every man will cooperate with us in this matter.
