

NEW APPOINTMENTS IN FACULTY

New Men For New Positions. Changes and Additions in Every Department.

Fifty additions have been made to the faculty of the Pennsylvania State College in order to supply the constantly growing demand for instruction at that institution. All of the new professors and instructors will take up their duties in the various departments at the opening of the college year. Many of those who came from the far west have reached the town already. The remainder of the new faculty members will arrive within the next few days.

Twenty different educational institutions are represented in the recent faculty appointments, the new teachers having been trained in all parts of the country. They come from the University of California and other colleges and universities stretching across the continent to the University of Maine. The United States Army also is represented in a position just created.

Three new positions that have not previously existed at Penn State are filled by the following: Miss Peal McDonald, Extension Instructor in Home Economics; W. O. Thompson, U. S. A., Bandmaster; and Albert O. Vorse, College News Editor.

Following is the complete list of appointments:

A. D. Chaffin, U. S. A., Washington, D. C., Professor of Military Science and Tactics.

M. G. Kains, Michigan Agricultural College, Lansing, Michigan, Professor of Horticulture.

L. M. Rapeer, Columbia University, New York, N. Y., Professor of Education.

Richard Ernesti, State Teachers' College, Greeley, Colorado, Associate Professor of Industrial Art.

J. T. Marshman, Ohio Wesleyan University, Delaware, Ohio, Associate Professor of Public Speaking.

Joseph E. Rowe, Johns Hopkins University, Baltimore, Maryland, Assistant Professor of Mathematics.

C. R. Anderson, Yale Forest School, New Haven, Connecticut, Instructor in Forestry.

H. M. Armstrong, State College, Pa., Instructor in Electrochemical Engineering.

J. H. Ashworth, Johns Hopkins University, Baltimore, Maryland, Instructor in Economics and Economic History.

Frank J. Blair, Rensselaer Polytechnic Institute, Troy, New York, Instructor in Mechanics and Materials of Construction.

G. S. Bulkley, University of Wisconsin, Madison, Wisconsin, Instructor in Dairy Husbandry.

F. B. Clark, Johns Hopkins University, Baltimore, Maryland, Instructor in Political Science.

A. B. Gilbert, Western Reserve University, Cleveland, Ohio, Instructor in Economics.

H. L. Harley, University of Pennsylvania, Philadelphia, Instructor in Psychology.

C. W. Hasek, Harvard University, Cambridge, Massachusetts, Instructor in German.

E. J. Hall, Allegheny College, Meadville, Pa., Instructor in English.

E. W. Hughes, State College, Pa., Instructor in Engineering.

A. S. Jones, State College, Pa., Instructor in Engineering.

James P. Kelly, Columbia University, New York, N. Y., Instructor in Botany.

Herbert K. Kendig, Franklin and Marshall College, Lancaster, Pa., Instructor in English.

Paul Kunschik, Indiana University, Bloomington, Indiana, Instructor in German.

Joseph P. Little, Yale University, New Haven, Connecticut, Instructor in French.

Miss Pearl MacDonald, Michigan Agricultural College, Lansing, Michigan, Extension Instructor in Home Economics.

John F. Mattern, State College, Pa., Instructor in Mechanical Engineering.

Frederick W. Pierce, Yale University, New Haven, Connecticut, Instructor in German.

J. M. Sherman, University of Wisconsin, Madison, Wisconsin, Instructor in Bacteriology.

C. B. Steel, State College, Instructor in Civil Engineering.

W. O. Thompson, U. S. A., Somerville, Massachusetts, Band Master.

Albert O. Vorse, Yale University, New Haven, Connecticut, Instructor in Journalistic Writing; College News Editor.

R. C. Bathgate, State College, Assistant Chemist.

D. H. Bredt, State College, Assistant Chemist.

B. L. Caldwell, North Carolina College, Raleigh, North Carolina, Assistant in Experimental Chemistry.

S. H. Cathcart, State College, Teaching Fellow in Geology.

H. N. Cobb, State College, Assistant in Experimental Agronomy.

F. B. Crooks, University of Missouri, Columbia, Missouri, Assistant in Poultry Husbandry.

Frederick C. Dose, State College, Assistant in Animal Nutrition.

W. C. Gillespie, State College, Assistant in Experimental Pomology.

P. P. Henshall, State College, Pa., Assistant in Machine Shop Practice.

J. C. Hess, Franklin and Marshall College, Lancaster, Pa., Teaching Fellow in French.

T. Lawrence Hills, University of Vermont, Burlington, Vermont, Assistant in Bacteriology.

Fred J. Lewis, University of Maine, Orono, Maine, Assistant in Civil Engineering.

George S. Long, State College, Pa., Assistant in Sanitary Engineering.

W. H. McKinney, Jr., State College, Pa., Assistant in Botany.

Robert H. McLean, Springfield College of Association Secretaries, Springfield, Mass., Assistant in Physical Education.

A. F. Mason, University of California, Teaching Fellow Berkeley, California in Agriculture.

G. R. Maxson, Rutgers College, New Brunswick, New Jersey, Teaching Fellow in Engineering.

R. B. Nesbitt, University of Pennsylvania, Philadelphia, Pa., Assistant in Civil Engineering.

L. J. Obold, State College, Pa., Assistant in Agronomy.

S. B. Smith, Pittsburgh, Pa., Professorial Lecturer in Mining Law.

V. W. Smith, State College, Pa., Teaching Fellow in Chemistry.

1916 Foresters.

The Junior foresters are in town and from the stories that they tell, their summer in the woods was a most pleasant one. During the first six weeks, they camped at the foot of Seven Mountains over back of Bear Meadows. Here regular eight-hour-a-day schedules were made out, and at the end of the term, final exams were held. There are innumerable snake stories and accounts of great trout catches that belong to this period. Thence the party took a trip, inspecting various mills and lumbering operations in Lock Haven, Emporium, Norwich, Colegrove, and Olean, N. Y. In the latter place, they went through Clark Brothers factory, the largest lumbering machinery factory in the country. Several days were spent in lumber camps. The whole stunt took the better part of our regularly allotted vacation, but each man vows that he had the time of his life.

Sophomore and freshmen candidates for Varsity football who are regularly scheduled for military drill must not absent themselves from the scheduled exercises in that department until they have been properly excused. The list of excused men will be posted each day on the military bulletin board at the Armory. Report any oversight to the football manager.

SUMMER SCHOOL WAS A SUCCESS

Teachers From Eight States Were Enrolled in the Summer Session. Enrollment Exceeds All Previous Records.

The Fifth Summer Session for Teachers, which was held at State College during the six weeks beginning June 29 and ending August 7, was in many respects the most successful which has been held. The total enrollment was 814 teachers and librarians of whom 161 were men and 653 women. Of this number 774 received credit for work satisfactorily completed. The increase in attendance was 250, which is 45 per cent of the registration of the previous year. Sixty-four of the 67 counties of Pennsylvania were represented. In addition to the students from the state there were 29 students from seven states and the Philippine Islands. Lackawanna county had the banner delegation, being represented by 90 teachers and students; Luzerne county was second with a representation of 72 persons.

One hundred and twenty-seven courses were offered giving an opportunity to take work in any of the five schools of the college and in the departments of Home Economics and of Physical Education. Students were enrolled in Agriculture, Botany, Chemistry, Domestic Science, Domestic Art, Education, English, Forestry, French, Geology, German, Greek, History, Industrial Art, Industrial Education, Latin, Library work, Mathematics, Music, Physical Education, Physics, Psychology, Public Speaking, Spanish and Zoology. In addition to these courses a training school including a kindergarten and the eight grades, was conducted, in which students were given an opportunity to do practice teaching as well as observe the teaching of experts in public school work. The enrollment in the training school was made up of 75 boys and girls from the town.

Remarkable increase was made in the registration for work in Domestic Art, Education, Industrial Art, Industrial Education and Physics. In each of these departments the enrollment was practically double that of the previous year, and in no case was there a decrease in the attendance in any single department.

In order to carry on the work to the best advantage it was necessary to supplement the regular faculty with more than 20 instructors from the various colleges of the country. Among these were principal Charles Lose, of the Lock Haven Normal School; Professor C. D. Koch, of the State Department of Education; Dr. G. R. Throop, of Washington University, St. Louis; Dr. Sechrist, of Clark University; Miss Katherine Moran, of the Cortland, N. Y. Normal School; Professor H. W. Jacobs, Director of Arts in Buffalo Public Schools; Miss Josephine Horner, of the Rochester Mechanics Institute; Miss Margaret MacDonald, of the State Library Commission; Miss Zella Bigelow, of Cleveland, Ohio; Miss Mary J. Cooper, of Johnstown; Miss Margaret Giesecke, of Buffalo; Miss Adelaide Illman, Assistant Director of Kindergartens, Philadelphia; Miss Gertrude Wheeler, of Owego; and Miss Laura Staley, director of music at Ardmore.

Special lectures and addresses were given by Dr. Arthur Holmes, Dean of the General Faculty; Dr. Williams, of Philadelphia; Rabbi Joseph, of Allentown; Dr. N. B. Forbush, President of the American Institute of Child Life; Dr. Davidson, Superintendent of the Pitts-

burg public schools; President E. E. Sparks; Rev. J. K. McClarkin, of Pittsburg; Rev. O'Haulaon, of Bellefonte, and a number of other prominent educators throughout the country. In addition to these addresses many delightful readings were given by members of the faculty. The Ben Greet Company gave open air performances of Shakespeare's Twelfth Night and of the Midsummer Night's Dream. The students of the session gave an up-to-date vaudeville show under the direction of Mr. Bowman, and a pageant of "The Seasons" under the direction of Miss Ethel Sparks. One of the most delightful of the recreation features was a picnic in the gap at Pine Grove Mills on a Saturday.

The success of the work of the past summer shows that the summer session is coming to be an important factor in the life of the Pennsylvania State College. Its marvelous growth from an enrollment of 147 to one of 814 in five years stands as a monument to the ability and energy of Dr. S. E. Weber, now City Superintendent of the Scranton schools, under whose direction the exceedingly rapid development was made. The session of 1914 was under the direction of Dr. Edwin R. Smith to whom much credit is due for the splendid success of the school.

MORE FRESHMEN THAN EVER

Enrollment of Young Women Surpasses any Previous Year.

On September 8th, the number of persons who have been granted entrance credit for four year courses at the Pennsylvania State College, reached 693. This is a very large enrollment for such an early date. Of this number, however, there will be a number drop out, as not every one who has been admitted ever really gets to college. Up to this time, 43 of the number admitted have informed the registrar that they will not enter college this year. In all probability, 650 of the number admitted will enter college this week. The registrar announced Tuesday evening, that he would admit about 30 more applicants, providing they show complete preparation for college. This number will be admitted by certificate, and does not include those who may be admitted by passing the entrance examinations given this fall.

Already 48 young women have been admitted to the freshman class. This is a remarkable growth in numbers, more than doubling the number admitted last year. The Ladies Cottage will not accommodate all the young women this year, and several other buildings have been provided for them.

Of the number of persons admitted, 58 have enrolled in the Liberal Arts School, seven of whom will take the Classical Course. The fine new Liberal Arts Building will prove a boon for the Arts school at State, and will doubtless be instrumental in drawing new students to the college for the Liberal Arts course.

The registrar has granted admission to the college to only 10 special students this year. The number admitted to the two-year course in Agriculture has reached 130.

With this large number of new students coming to State this year, the class of 1918 will be the largest in the institution at the present time. The registrar has been compelled to refuse admission to many eager persons, on account of insufficient preparation, and very likely this number will be greatly increased before the first college week has ended.

How many have their football schedules. Get them from: Claude Smith, Toggery Shop.

Y. M. C. A. ACTIVE

Prominent Speakers and Well Known Alumni Present at "Set-up"—Excellent Year Predicted.

One of the most inspiring "Set-ups" a Penn State Y. M. C. A. cabinet ever experienced was held Sunday, September 13, from 9:30 o'clock in the morning until 4:30 o'clock in the evening. At the hour appointed for the opening of the forenoon session the cabinet officers, numbering more than thirty, gathered in the Carnegie Library where the meeting was opened by President H. Vigor Cranston.

The chairman after a few introductory remarks introduced Mr. Hatfield of the International Committee. Mr. Hatfield is especially interested in the Country Life Movement and his message to the cabinet naturally fits the occasion in an agricultural college. It was not only the subject upon which he spoke, but also the personality of the speaker behind every word that made his message a burning one to all his listeners. Being an Ohio State man the speaker is familiar with the problems in a Y. M. C. A. such as flourishes at Penn State. He impressed upon the audience the great importance of having a purpose in life and fighting hard for the realization of that ideal. Y. M. C. A. work as it is carried on today is an appeal to the heroic for service, rather than to the selfish for privilege.

Following this address one of the most interesting parts of the day's program was announced. This was that every man present should give his summer's experience. Many interesting and worthy reports were made by the men, and while pleasure and jolly, good fellowship prevailed, there was not lacking that vein of seriousness in the report of every man, thereby showing a more than superficial purpose in life. Among the men who related happenings of the summer were: Buchanan, Cranston, Cuno, Hill, McDowell, Hutchinson, Lininger, McConnell, Dorwart, Weaver, Hoehler, Gold, Jones, Whetstone, Baker, Towsen, Pickett, Staiger, Welty, Osuna, Hatfield, Reed, Horst and Leyden.

The next hour from 12:30 to 1:30 was used as a period for lunch. A splendid meal was provided for all by Mr. Sellers an old Penn State man. In addition to this Prof. Willard and wife very generously supplied the men with cake, coffee and fruit.

In the afternoon the reports of the various committees were heard. Every committee chairman has definite plans for this year's work, and a great effort will be made to surpass any records of previous years. The cabinet men were given much excellent advice on business methods by Graduate Manager Smith. One of the greatest assets of a business man is reliability. By applying good, clean business principles to the Y. M. C. A. work will add a wonderful impetus to the association.

Mr. Osuna, a State man who is now a senior in the Princeton Theological Seminary, spoke a few minutes about Penn State and the reputation that the institution has in a few of the eastern schools. In his mind one of the best things the Y. M. C. A. can do is to correct an erroneous idea that State is only a school for "rowdies and rough-necks". Since he entered State in 1907 many changes have taken place in and about the college, but in spite of this fact it seems State is living under a reputation of ten or twelve years ago. Upon every true State man rests a duty to his college in assisting in this work.
