and Iron & Railway Co.

Professor A. D. Selvey, Botanist at the Ohio Agriculture Experiment Station, visited college last week. He spent some time looking over the botany work and the apparatus.

Professor George K. Pattee of the English department has a contribution entitled, "Some Neglected Models," in the October issue of the English Journal. The article deals with the desirability of teaching, to undergraduate classes in composition, the various forms of journalistic writing.

COLLEGE CUSTOMS.

As provided for by Student Council action the college tribunal has compiled for publication a list of authentic college customs which are to be definitely interpreted by them should any dispute arise:

GENERAL CUSTOMS.

- 1.—Every student shall salute the President.
- 2.—Each student shall give the right of way to those in the class above him and to the faculty.
- 3.—All students shall stand with uncovered head during the singing of the Alma Mater.

CLASS CUSTOMS.

Seniors only are permitted to go bareheaded.

Seniors and alumni only are permitted to use the Senior benches.

At athletic contests, the grandstand privileges are for visitors and Seniors, and in case of any unoccupied seats Juniors are at liberty to occupy them. Juniors occupy the bleachers on the west side of the grandstand, sophomores on the east side. Freshmen take the bleachers across the field from the grandstand.

The privilege of walking across the front campus is limited to juniors and seniors.

On leaving chapel, the faculty pass out first, followed by the seniors, juniors, sophomores and freshmen in the order named.

Upper classmen, only, are allow-

ed to kick the football between halves of a varsity game.

Sophomores are allowed to parade around the athletic field between halves of a varsity football game.

No class shall be allowed to wear hats or caps bearing their class insignia until after Easter vacation of their sophomore year.

Sophomores shall issue but one proclamation each year. Proclamations shall not be posted on college buildings.

Sophomores are not allowed to go without coats except on poster and bonfire nights.

FRESHMEN DONTs.

- 1.—Don't talk back to those in the classes above you.
 - 2.—Don't issue any proclamations.
 - 3.—Don't go without your cot, except on poster night and bonfire nights.
 - 4.—Don't go without your green cap, except on Sundays, holidays, trips and when entertaining visitors.
 - 5.—Don't smoke in public.
 - 6.—Don't wear college or class colors or insignia during the first term.
 - 7.—Don't get on the grass.
 - 8.—Don't wear cuffs on your trousers.
 - 9.—Don't put your hands in your pockets.
 - 10.—Don't fail to attend class meetings, athletic and mass meetings.
 - 11.—Don't enter Main Building by the front door.
 - 12.—Don't paint your numerals except on the Armory roof on the Saturday night preceding Baccalaureate Sunday.
 - 13.—Don't entertain or be entertained by young ladies except at time of house parties or at times when you have lady visitors.
 - 14.—Don't leave any athletic contest before the finish.
- Upper classmen and sophomores have not the privilege of granting immunity to freshmen.

ENGINEERING EXHIBITS.

The exhibits of the School of Engineering will be in the new engineering unit and will serve as a dedication of this building although there will be no formal dedicatory exercises.

The whole ground floor of this building will be given up for these exhibits. In addition to this, all the laboratories of the school will be open for inspection and where possible samples of the work done will be on exhibition.

Some of the most interesting features are mentioned below:

A small work shop with work bench, turning lathe and forge. Students will be at work in this shop which will be on the second floor of Unit No. 4

Revolving table covered with samples of work done in shops.

A railroad with trains in operation.

A highway with bridge over the railroad and a tunnel under the railroad.

A reinforced concrete building in process of construction.

A domestic water filter
An electro plating apparatus, where any small article may be nickel plated.

Mechanism for operating an electric sign made by the students in machine shop work. This will be in operation.

An electric fountain.

A wireless lamp, lighted.

The process of melting iron under water.

Besides these exhibits by the students there will be many interesting exhibits by various manufacturing concerns, of machinery and electrical devices.

Moving pictures will be shown illustrating the work in the furnaces and mills of the National Tube Company; the manufacture of electrical machinery in the plant of the General Electric Company; and the application of modern safety devices to various kinds of manufacturing work. The first two sets of pictures will be sent by the companies named and the last set by the Department of Labor and Industry at Harrisburg.

No admission will be charged for any part of the exhibit.

Demonstrating of aero-plane engine.

Use of the automobile for furnishing power for the farm.

Spectacular uses of blowers.
Electric welding of steel.

An automobile show. This will be held if the weather is favorable and will be just outside the new unit.
