The principal address on Monday evening was given by Doctor Sparks whose topic was "How to Grip the Boy". Doctor Raper read a paper on "The Standard Rural School Plant", and Mr. Bowman one on a topic relating to industrial education.

Dean W. R. Crane delivered a lecture on "Alaska" at Lock Haven on Friday evening, January 8. He, also, was one of our faculty representatives at the meeting of the Association for the Advancement of Science which was held during the Christmas holidays at the University of Pennsylvania.

The last session of the meeting was held at Houston Hall, University of Pennsylvania under the auspices of the Pennsylvania Society of the Archaeology Institute, in order to hear Prof. George H. Chase, of Harvard, report upon the progress of the American excavations on the site of ancient Sardis.

Dr. Edward Howard Griggs, the well known author and lecturer of New York, has been secured for a series of five lectures to be given during this year's summer session.

But while it lasts the opportunities for healthful outdoor sports are numerous. Why handicap yourself with a poor pair of skates or any other athletic implement of an inferior make—when a little forethought would have suggested buying an article with the SPALDING TRADE-MARK?
