

PENN STATE A. A. FINANCIAL REPORT

Conservative Policy of Athletic Committee and Efficient Management by Graduate Manager Bringing Excellent Results. Plans for Future Announced.

Pursuant to the policy of the alumni advisory committee that athletics "live within their means" the financial affairs of the Athletic Association have been so conducted that each year has shown a small surplus. When the first graduate manager took over the supervision of financial matters in 1908, he found the association in debt to the extent of several thousand dollars. The last of these obligations were cleared off in the fall of 1911 and the close of the year 1911-12 showed a credit balance in the association treasury for the first time. Since then no year has been conducted at a loss, and as may be seen, in the following statement of the Athletic Association, now has a surplus of practically \$3500.00. It is the plan of the committee to divide the surplus into a small contingency fund to provide for extraordinary needs of the association, and to divert the balance into an athletic improvement fund. A possible use for such an improvement fund will come in the near future when it will be necessary to remove the present track house and provide new quarters on the site reserved for that purpose on New Beaver Field.

This policy of the committee has worked great benefit to Penn State's athletics. Systematic methods of conserving resources of the association and of developing new sources of income have been instituted with the result that the rapidly growing needs of all the departments of athletics have been liberally and safely met. With a view to acquainting the alumni more fully with present day conditions, a detailed statement of this phase of the Athletic Association activities will be published in a later issue of the Quarterly.
