EXPERIENCE TEACHES

That's why you should go to Spalding's when you want equipment for your favorite summer sport. Equipment that's just a bit better. Designed and made by experts who know how to use the goods themselves. Complete equipment for baseball, tennis, golf, track and field. Our 1915 spring and summer catalogue is now ready and will be mailed free on request.

Departmental Notes

Last week the dairy husbandry department broke all past records in supervision of tests for advance registry. Thirty-five supervisors were at work at one time in making official tests.

Golonel J. A. Woodward of Howard, who was a college trustee for many years, will lecture at the college on Friday, March 26.

Mr. Geise of the class of 1908 spoke on the subject of R. R. location and construction before the senior civil highway, and sanitary engineering students on Saturday, March 20th.

The engineering record for March 13 contains a two page article on the "Distribution of Vertical Soil Pressures" describing a series of tests which have been going on for the past two years in the engineering experiment station of the Pennsylvania State college. A complete report of these tests will be published as Bulletin No. 13 of the engineering experiment station. A previous article on this subject aroused world wide interest as evidenced by the large number of requests for copies of Bulletin No. 13 from all parts of the United States and various foreign countries.

There will be no rehearsal of the chapel choir on Saturday evening, but the men will report as usual for chapel on Sunday.
