There are many points in favor of a movement of this kind. The benefits as we see them, would be of sufficient magnitude to warrant student control of this student fund.

In the past it has been very evident that the student body at large has been entirely too thoughtless with respect to its attitude towards the care of college property.

An investigation of the success of the honor system in American colleges, conducted by Professor H. E. Burton of Dartmouth College, reveals the startling fact that the system has generally proved unsatisfactory.

SHALL HONOR SYSTEM FAIL?

Now all this applies to Penn State in that there is in our honor system a clause which says that an offender shall first be quietly informed of his detection and on second offence shall be reported to the Honor Committee.

In connection with some of the more particular needs of the College, our attention was called recently to the lack of hat and coat racks in several of the college buildings.

The few words of advice coming from President Sparks with regard to the present national crisis are very timely and altogether commendable.

The town Civic Club is at work on plans for a "clean-up-wook" to be held in the near future and the cooperation of the students is essential for its success.

THE PRACTICAL APPLICATION OF LIME TO THE SOIL OF PENNSYLVANIA was the subject of a talk given by Dr. Frazar before the Junior and Senior Agricultural Societies last Wednesday evening.

Mr. Hollenbach is not signed up as yet for any football work this coming fall and at present is confining himself to the coal business in Syracuse in which he has an interest.

Dartmouth A Big Game

Dartmouth will be quite an acquisition for Penn State since it throws Coach Harlow's men into the eastern limelight. The Green and White team is always strong and will be a dangerous opponent for the Blue and White.
