

DR. FOSTER DESCRIBES LIFE AT CAMP HANCOCK

A large and interested audience was present in the Old Chapel last Friday evening to hear Dr. L. Foster, of the Romance Language Department, relate his experiences at Camp Hancock, where he has been for the last ten weeks as instructor in French to the 28th Division. He has been located there since the middle of September and is thoroughly qualified to speak on such a subject as he presented in such an attractive manner on Friday evening.

When Dr. Foster arrived at Camp Hancock he was immediately placed in charge of the French instruction for the entire division. This camp is the concentration and training camp for the former Penneyland National Guard of twenty-eight thousand men and also two thousand drafted men of foreign birth were transferred to that point from Camp Meade, making the total number of men in camp thirty thousand. Dr. Foster found it necessary to engage the services of five assistants which he secured in the city of Augusta, and these were also fifty-five enlisted men who had charge of small classes. A French manual number of men could be instructed by this force. Only the important words and phrases of the French language were taught together with some little idea of pronunciation. A thorough study could not be made on account of the lack of time.

GAMES OF THE PAST BETWEEN OLD RIVALS

Table with 2 columns: Year, Games Won. Rows include 1893-1894, 1895-1896, 1897-1898, 1899-1900, 1901-1902, 1903-1904, 1905-1906, 1907-1908, 1909-1910, 1911-1912, 1913-1914.

COMMUNITY SINGING HELD LAST SUNDAY

A medium sized audience of faculty, students and town people attended the community song service which was held last Sunday afternoon at four o'clock in the Auditorium, this time having been set aside by the National Council of Women for a period of community singing throughout the nation.

Over 850 State Men In Service

A recent survey of the number of Penn State men in the service of the government in some military capacity shows that over eight hundred and fifty alumni, undergraduate and faculty members are credited to the Blue and White Aerial figures give it as 858, of which 520 are Alumni, 311 undergraduates, and 27 faculty members. More-over, it is estimated that almost 200 more are in service whose names are not known. The highest in 1916 was 341, while 1916 has the most of the Alumni with 123, 1917 and 1918 are tied at 116, and the classes are represented as far back as '85.

\$700,000 Pledged For the War Fund

The campaign for the Student Fieldship War Fund, which has been conducted all over the United States in the various colleges and universities during the past two months, has come to a close and the final reports from the various departments are now turned in to the central office. The campaign has been a success in every way and the leaders met with a good response in all colleges. The campaign for the War Fund was instigated by a number of leaders in college affairs in conference at Niagara Falls last September. They decided to wage a campaign among the universities and colleges of the country to raise at least \$1,000,000 for the relief of the prisoners of war in Europe.

Mining Notes

Dean Cline spent Wednesday and Thursday of last week in Pittsburgh where he attended the annual meeting of the Coal Mining Institute of America. Points of interest taken up in the meeting were the coal situation, discussed by Prof. Beardsley Fox, Administrator of Pennsylvania; and the income tax applied to coal mining corporations, discussed by members of the Internal Revenue Department, Pittsburgh.

FRENCH CLUB TO HAVE XMAS PROGRAM TONIGHT

A crowd that filled 226 Old Main attended the regular bi-weekly meeting of Le Cercle Français last Wednesday. An interesting program of readings and recitations was rendered by Miss Rose Bird '21, Miss Ruth Lauffer '18, Miss Mary W. Swain '20, and L. A. Maloney '21, whose paper on "Mont St Michel" was especially appreciated.

NEW RULING FOR ORDNANCE APPLICANTS

The following notice was received from the Chief of the Ordnance Department at Washington by J. O. Keller, who has charge of the Ordnance Course being conducted here, pertaining to the choice of applicants for the courses after December 15th.

1.—Applicants for the course will be received in the usual way by you, by this office and forwarded to you. There will be provided application blanks which all men who make application through this office will fill out, and a number of these blanks will be sent to you for you use in case you desire to utilize them.

2.—Applications for the course will close one week before the beginning of the course, and the number of applicants for any given course who will be accepted, will be decided upon between you and this office.

3.—Upon the completion of the roll of course, the list of names, addresses of the men, the local board at which each man has registered, and his serial number in the draft will be sent to this office. This office will then immediately address a letter to the Adjutant-General of the army containing the information just referred to and will request that these men be inducted into the military service and be transferred to the Ordnance Department on a given date which date will be that of the completion of the course.

4.—Men who finished the Ordnance Course and who fall physician's can generally be placed in civil positions in the Ordnance Department. Their attention should be called to take the course beginning December 15.

COLLEGE STUDENT SHOULD EXERCISE

Too Many Neglect Physical Side Of Their Education According To Dr. Ritenour

BY DR. J. P. RITENOUR

When a student enters college he has a pretty definite idea of the career he wishes to carve for himself in the sphere of human endeavor, be it in science, literature or art. He selects this or that college, because in his opinion it offers the best course in the line of that particular field in which he has chosen to work out his destiny.

Engineering News

At the meeting of the American Society of Mechanical Engineers held in New York last week, Professor Fessenden discussed the important paper by J. H. Fry on "The Transfer of Heat Between a Flowing Gas and a Containing Fluid." Mr. Fry shows that within the range of experimental data available a general formula adapted from that proposed by Fessenden and Hedrick gives satisfactory results.
