

CORNELL AND PITT FALL BEFORE PENN STATE TEAMS

Intercollegiate Champions Prove Easy For Blue and White Grapplers

LONG'S MEN TAKE FOUR FALLS AND ONE DECISION

The Penn State matmen easily defeated the Cornell University wrestling team, for many years the Intercollegiate Champions, on Saturday evening in the Armory by the one-sided score of 24 to 8.

Close Guarding of Captain Blakeslee's Five Keeps Pitt Score Down

HOME TEAM LOCATES BASKET MANY TIMES

In what proved to be one of the least interesting games ever played with Pitt, the Blue and White basketball team completely overwhelmed the Panthers in the Armory last Saturday night before the largest crowd of the year.

STATE GRAPPLERS CLASH WITH NAVY

Captain Long's Men In Prime Condition For This Meet—Strong Opposition Expected

The Penn State matmen will face their hardest meet of the wrestling season on Saturday when they journey to Annapolis to grapple with the Naval Academy team.

FIRST OF ENTERTAINMENTS FOR STUDENTS TOMORROW

"Musical Mass Meeting" In Auditorium Will Open Series In "Stick Together" Events--Others To Follow

HARD GAMES ON WESTERN TRIP

Return Games With Pitt And Carnegie Tech—West Virginia Other Opponent

The Blue and White Basketball team will play a return game with the University of Pittsburgh tomorrow evening, as the first on the western trip.

As a result of a widespread demand on the part of the student body in general, a series of weekly entertainments in which everyone can join in, are being arranged by a special committee headed by Student Council members.

PLAN EVENTS FOR COMMENCEMENT

Student Committee Is Arranging Program Of Athletic Contests For Tuesday Afternoon

While there has been considerable discussion during the past two weeks over the question of a suitable Commencement program, there has been no definite arrangement made as yet.

CONSIDER ADDITION TO HONOR SYSTEM

Rule For An Extra Form Of Punishment Approved By Student Council

An addition to one of the sections of the Honor System whereby an extra form of punishment might be inflicted upon violators, was to have been presented to the student body in a mass meeting this morning by the chairman of the Honor Committee.

Levine Misses Chances

Had Levine been able to shoot foul goals with any degree of success, the score would have been very much closer, for no less than 24 fouls were called on Penn State, several of them of a personal nature, however, the best that Pitt shooter could do was to drop nine of them through the basket.

AIRPLANE MEN MAY BE TAUGHT HERE

Many Soldiers May Be Sent To Get Engineering Training—Look Into Housing Conditions

The Federal Board of Vocational Education, represented by W. J. Hamilton and R. C. Lowell, visited the college Tuesday and Wednesday of last week.

Carnegie Tech Again

Carnegie Tech will be an opponent of the Blue and White five for the second time this year on the following evening. A good game is expected in this case, as despite the seeming one-sidedness of the game on the Armory floor a fortnight ago, a fine brand of ball was presented, and the State team was constantly kept on the alert.

Tomorrow's Program For the entertainment tomorrow night the program at present calls for the student singing of college songs to start with, followed by selections from the mandolin club, the Freshman and varsity quartets, and other similar features.

Result Pleasing

The result of the victory over Cornell raises the hopes of Penn State supporters for an excellent showing in the Intercollegiate meet in Brooklyn on March 23. However, Lehigh and Pennsylvania are to be reckoned with, especially the former, as the Brown and White last Saturday defeated Penn very decisively, 24 to 8.

STATE MEN RECEIVE LARGER COMMANDS

"Doc" Lewis Now In Charge Of Athletics At Camp Lee—A. G. Frick Captain In Artillery

Word has been received that Lieutenant W. E. Lewis, better known to State students as "Doc", has again received promotion. It will be remembered that he was formerly in command of the physical activities of one of the battalions in training at Camp Lee, Virginia.

DR. CRANE DISCUSSES THE CAUSES OF FUEL SHORTAGE

Shows That The Output Of Coal Has Not Kept Pace With The Demand Due To The Inefficient Application Of Available Labor—Conflicting Ideas Of Where The Blame For The "Heatless Mondays" Should Be Laid

THE COAL SITUATION By Dr. W. R. Crane (Dean of the School of Mines)

TAU BETA PI ELECTIONS

The following have been recently elected to membership in Tau Beta Pi, the honorary engineering fraternity.

Alpha Xi Sigma ELECTIONS The following have been elected to membership in Alpha Xi Sigma the honorary Forestry Fraternity.

SENIORS!

A very important meeting of the Senior class will be held in the Hall Room promptly at 6:15 on Thursday evening for the purpose of electing the class valedictorian for the commencement exercises.

TOQUES OFF ON FRIDAY

According to the Student Council ruling, before the holidays which the Freshmen to wear green toques during the cold weather, all such toques must be discarded after March 1. No Freshman will be permitted to appear in a green toque after tomorrow.

SENIOR DANCE SATURDAY

The second Senior dance will be held in the Armory next Saturday from eight to twelve. Programs will be on sale at the Co-op tonight, Thursday, and Friday evenings at a dollar plus the war tax.

NOTICE

Many subscribers have recently lodged complaint with members of the Collegian staff concerning the receipt of their papers. Investigation has shown that failure to inform us of a change of address has been the cause of many papers not reaching their destination.

LABOR SHORTAGE

Why has not the output of coal kept pace with the supply? The answer is not so simple, but primarily is lack of labor. However, it is not so much a scarcity of laborers as the inefficient application of the available laborers that is claimed by competent authority that there are enough men, if they could and would work. Some could work if they would, others would if they could—in other words, there are conditions existing over which no one has full and complete control.

ENLISTED MEN MAY JOIN ENGINEERING RESERVE

By Action Of The War Department Students May Now Return And Complete Course

By recent action of the War Department, arrangements have been made whereby enlisted men of the Army now in active service, who entered the service by voluntary enlistment or draft after September 1, 1917, and who were eligible at the time of enlistment or induction into military service, under the regulations governing enlistment by engineering students in the engineering branch of the enlisted reserve corps, may be transferred to the Engineers Enlisted Reserve Corps, upon approval of the Chief of Engineers, for the purpose of completing courses in approved technical schools.

COUNCIL CONSIDERS THE UNIFORM DISTINCTION

The matter of selecting a suitable mark in order that Freshmen in uniform may be distinguished from Sophomores was discussed in Student Council meeting last week, and resulted in the appointment of a Council committee to consult Major Baylies concerning the plan. It was pointed out that the change was very desirable, since Freshmen have been found to take advantage of the uniform to violate college customs. Major Baylies has agreed to consider Council action in the matter, and as soon as a satisfactory emblem, or mark has been settled upon, Council will take the necessary steps to make the distinction possible.

THE COAL SITUATION

The expression "coal situation" comprehends much or little, depending upon the view-point of the individual; to the operator it means mines, labor, market, and transportation; to the consumer it means opportunity to work, wages, and fair living; to the economist it means fuel for power and heat, and given that he asks little more; to the economist the coal situation means all of these factors and more—it means property rights, fair and equitable returns on invested capital both in production and handling, and due regard for the needs and requirements of the consumer. At the present time, under the stress of the world's war, it means much more to all concerned, for while the demand has greatly increased, the supply has not increased in proportion. There has been curtailment of necessary and legitimate enterprises, and distress, individual and public.

LABOR SHORTAGE

Why has not the output of coal kept pace with the supply? The answer is not so simple, but primarily is lack of labor. However, it is not so much a scarcity of laborers as the inefficient application of the available laborers that is claimed by competent authority that there are enough men, if they could and would work. Some could work if they would, others would if they could—in other words, there are conditions existing over which no one has full and complete control. For instance, the miners must have tools and powder to mine the coal with and cars to bring the coal out of the mine, and after that it is the railroad's job to move and distribute the coal, otherwise the miner cannot continue to work. But, on the other hand, there is often pronounced unwillingness on the part of the miner to keep
