News From Other Colleges

KENTUCKY—There are nine-two students of the University of Kentucky who are candidates for graduation in June of this number, one is from Warsaw, Russia, and two are from Bulgaria. The class at the close of last year had almost 100 members, but the ranks have been greatly depleted by the war.

MICHIGAN AGRICULTURAL COLLEGE—A number of M. A. C. graduates and former students—farmers, students, and extension agents—visited the college recently to attend the annual Farmers' Week and Housewives' Conference.

DELAWARE—In a recent theft campaign at Delaware College, contributions aggregating \$100 were received. Of this amount, the student body gave \$85, and the remainder was contributed by the faculty.

PRINCETON—The training of 150 American men of the National War Work Council of the Y. M. C. A., who are to take charge of the "Boys' Scouts" to be opened along the French front has just been completed at Princeton University. The men have received training in French ideals, insatiable language, and all the other things that are essential to a sympathetic understanding of the French race.

SYRACUSE—The Senate of Syracuse University has decided in favor of doing away with the Easter vacation this year. In this action, commencement exercises will be held two weeks earlier than scheduled.

Owing to the number of Syracuse men who have entered the government service, the leading musical society will admit women to both the chorus and the cast of the annual production for the first time in the history of the organization.

PITTSBURGH—Under the command of colonial officers of the United States army, 200 enlisted men will be stationed at the University of Pittsburgh, April 1 for two months' training for the airplane service. A total of 600 soldiers will be trained there this summer.

W. & J.—The student body of Washington and Jefferson college has accepted a plan whereby every student salutes every other student and all members of the faculty whenever they meet. The salute is not a sign of superiority but a mark of respect for the rank represented, and has been substituted for the informal wave of the hand.

DR. SPARKS TELLS OF GREAT EDITOR

The President Gives An Insight Into The Real Nature Of Horace Greeley

The last of the regular scheduled Tuesday evening lectures was given last evening in the Old Chapel by President E. D. Sparks, the speaker talking for his subject, "Horace Greeley." In his talk, he presented only one phase of his interest in reform movements—Greeley began his work in the reform movement and made so many sacrifices for his education and advancement that his heart was always open to any enterprise which promised betterment for mankind.
As a result, he entered heartily into the many reform movements which spread over the country just previous to the Civil War, and among these, the speaker described the Fourier socialist, community reform, Dr. Graham's successful attempt to make a new kind of wheat flour, the Woman's Suffrage movement, the vegetarian reform and others of a similar nature. Greeley took an active interest in these movements so far as his editorial space in the Tribune was concerned, and he also took a personal part in some of them.
Greeley's candidacy for the Presidency in 1872 was described as a fiasco, ending in Greeley's death shortly afterward. No editorial writer ever had a larger number of readers than Greeley enjoyed in the Tribune, but few took him seriously as a possibility for the presidency, according to Dr. Sparks.

COMPARIING GERMAN AND AMERICAN EFFICIENCY

The scorching of war has brought out many interesting facts, and one of these is that the vaunted German efficiency will not always stand the test of comparison with American efficiency. The Germans boasted of being the greatest farmers on earth. Investigation shows that in efficiency in agriculture, measured by the produce per acre, America being graded 100, Belgium leads the world, at 205; Great Britain comes second, at 144, and Germany third, at 155; America comes fourth.
But the better test is the man test rather than the acre test, and here America leads the world over by 2 to 1. Again, grading America at 100 per farm worker, Great Britain produces 43 and Germany 41. The American farmer cultivates 27 acres, the German farmer but 7. With the aid of vast quantities of fertilizer the German produces more per acre, but he produces at a much greater cost per bushel and he produces much less than half as much per man.

PENN STATE WRESTLERS WIN CHAMPIONSHIPS

(Continued From First Page)
had both resulted in a draw. But in the second extra bout, the Penn State midget came out on top.
Captain Long had little trouble in throwing Loma of Columbia, in the preliminaries. He drew Bullard of Cornell, in the finals and gained a clear-cut decision over the Ithacan. These two men met at Ithaca last week and "Shorty" also obtained a decision at that time.
Shultz Gets Fall
Shultz, in the 145-pound class, did great work and defeated Hyman, of Pennsylvania, and Tuttle, of Cornell, in the preliminaries. Lessor, of Lehigh, opposed him in the finals and the Lo-

high man was thrown by him in six minutes with a bar hold. Parish, Columbia, was considered the logical opponent for the Penn State man, but he failed to reach the finals.
Brown, in the 158-pound class, met three men and disposed of two of them on falls. Kenyon, of Columbia, and Strauch, of Pennsylvania, were nailed to the mat by the Penn State grappler in the preliminaries, while Latimer, of Lehigh, lost to Brown on a decision in the finals.
Czarnecki easily vanquished the three men who faced him. Porter, of Cornell, managed to keep from being thrown, but Mortimer, of Pennsylvania, was less fortunate. Manley, of Lehigh, was thrown by "Czar" in the finals.
Every man on the wrestling team has earned his straight "S", six of them by winning championships, while Detar had already won his by being the victor in every bout in which he had competed. This is the first time in the history of the institution that a Penn State wrestling team has unanimously won the

varsity letter. The summaries: -
Summaries

DR. SPARKS APPOINTED ON JUNIOR PLATTSBURG BOARD

Dr. Sparks has been placed upon an advisory board, consisting of the presidents of the leading colleges and universities of the county, which has been appointed to further a program for a Junior Plattsburg military camp this summer. Although the government summer training camps have all been abandoned, private initiative, acting upon the suggestion of Major-General Leonard Wood, led to the establishment last year of the Junior Plattsburg movement. This has now assumed national proportions and has definitely aligned itself in its program with the military efforts of the American colleges and universities.
Since the Junior Plattsburg has been established for young men under the draft age, the training will not be intensive, but will be similar to that of the U. S. Military and Naval camps. With its combined special practical features which have come into prominence in connection with modern warfare, such as airplane ground work, hydroplanes, motor boats, topography, military applications of civil, mechanical and sanitary engineering.

ENTERTAINMENTS FOR BENEFIT OF WAR RELIEF

In the interest of the Fund for War Relief, the Drama Section of the Women's Club of State College plans to produce a series of entertainments during the next few weeks, and during the summer session. These entertainments will be held in Odd Fellows Hall. As yet is not complete, and those wishing to volunteer for the work are invited to communicate with Miss Pond who has charge of the work. The first play, "A Colonial Dream," will be given on April 1st under the direction of Mrs. Jesseman.

MOUNTAIN ART ASSOCIATION TO HOLD CONFERENCE HERE

The fifth annual conference of the Mountain Arts Association of Central Pennsylvania will be held here on April 12 and 13. The object of this association is to encourage cooperation between the teachers of industrial arts, music, drawing, and kindred subjects in the central parts of Pennsylvania.

REGISTRAR GIVES NOTICE OF SCHOLARSHIP LISTS

In order to avoid possible misunderstanding, the Registrar wishes students of the college to know that in accordance with the college regulations the lists of candidates who are eligible for "The Louise Carnegie" and "The John W. White" Scholarships in the three lower classes are made out during the summer, on the basis of college work already completed, but that no one can be considered as eligible who, at the time of making up these lists, has any deficiencies standing against him. It is therefore evident that freshmen who were admitted to the college with an entrance condition should remove this deficiency at the end of their first year in college, if they wish to be considered eligible for the scholarship list.
