of the commercial funds This department held a show in Canton, with about 190 entries and over 2000 people visited the show Such favorable comment appeared in the papers of both Canton and Hongkong that other shows in the future will be almost a necessity

The work of Mr Levine in connection with the curing of meats for local and city markets has been very valuable Hams and bacon were the chief products cured and they found a ready and appreciated sale in the markets Mr Levine secured the services of a Chinese butcher for part of the work and valuable data on Chinese methods of meat curing were secured The great amount of experimental work done by this department left a small deficit.

Also A Dairy

The dairy has been conducted in the past in co-operation with the Sing Kee Dairy of Canton, which company owns the cattle and the college pays a royalty on the milk produced During the year the capacity of the barn has been doubled, its present capacity being thirty head Iron stanchions have also been installed The production at the end of the year averaged twenty pounds of cow's milk and seventy pounds of buffalo milk daily This has all been sold locally with the exception of a small amount delivered to the Canton Hospital Milk is in great demand and will prove very profitable in the future and this phase of the work should be pushed The best way should bring about great changes in the dairy industry due to the formation of the College Dairy, as mentioned in an early part of this article.

All products are sold through the College Store and thus far no system has been evolved whereby a large amount of detail work may be avoided A centralized agency for the purchase of all supplies is the only solution to the problem and as soon as that is organized the College Store will be discontinued

The herbarium of the college has grown by leaps and bounds and is only a matter of time until this will be the greatest scientific work of the College. A well arranged museum has been established and the elimination of many duplications in the names of plants has been brought about.

The financial report of the farm shows that the work for the last year has maintained itself and netted a profit of $193 This however does not include any improvements and despite this apparent profit there is use for more money than ever The work that this department is doing among Chinese farmers is wonderful and it's worth cannot be estimated in the results measurable only in the future generations

Since Penn State has several representatives at Canton Christian College—George W Groff '07 and Walter L Funkhauser '19, a few facts about this institution would be of interest It might be well to state that "Daddy" Groff is known as the Representative of the Penn State Mission to China, but the sad fact remains that he is such in name only If he had to depend on the amount received from the students of Penn State, his work would not be carried out. The campus of the Canton Christian College covers an area of one hundred and thirty acres at present and is growing rapidly. The total investment to date is $465 000 and were this same institution duplicated in America it would cost $1,000 000, due to the lower cost of building in China. The student body now numbers well over six hundred and had the college room and money for more students there would be little difficulty in obtaining them The budget of expenses for one year amounts to over $200 000 and of this amount the Chinese themselves give over half The possibilities for this institution in this face of awakening people are so numerous and wonderful that Penn State should stop and take account of her part in the Canton Christian College

WHAT man doesn't like his pipe? There's nothing whets your smoke desires like seeing a good pipe lying around. Because you know that in it is the only real smoke satisfaction. Your appetite will be doubly whetted if it is a W D C, because in W D C Pipes all the sweetness and mellowness of the genuine French briar is brought out by our own special seasoning process. Then, too, W D C Pipes are good to look at. The designs are pleasing and workmanship perfect. You'll agree with us that our craftsmen are accomplishing their purpose—to make pipes that are without peers in all the world. Ask any good dealer. Be sure and look for the Triangle trademark. It's a guarantee against cracking or burning through.
WM. DEMUTH & CO., NEW YORK
WORLD'S LARGEST MAKERS OF FINE PIPES

Our business during 1919 more than doubled over any preceding year. This was largely due to the fact that we are continually improving our SERVICE to the Students of Penn Staet. We have added another clerk to take care of our rapidly increasing business.
