

LIEUT. SHARMAN SPEAKS ON "NEW AGE JUNCTION"

Last Friday evening in the Auditorium, Lieutenant J. Dunton Sharmun delivered a lecture on "New Age Junction—All Change."

Lieutenant Sharmun was in Canada at the outbreak of the war. He tried to enlist, but was rejected for physical defects.

Mr Sharmun began his talk by a brief review of history reminding listeners of the brutality of man in the early ages.

A striking feature of the evening's talk was the answering of one of the criticisms to which America has been subjected, namely on her late entry into the war.

A discussion of the problems of today which mark the new age followed and the lecturer concluded his remarks by an appeal for every North American to do his duty toward mankind.

COMING ATHLETIC EVENTS

The University of Pennsylvania boxers will be here on February fourteenth.

A wrestling meet with Cornell will be held on Monday, February sixteenth at eight p. m.

The second issue of El Dorado is now in the printer's hands.

Mr. M. H. Knutson, of the Bacteriology Division, has returned after an absence of ten days.

The Pitt football and basketball schedules will be complete in a few days.

The Mining Department has just installed for inspection and testing by classes in Mining.

The installing has also just been completed of an electric-driven Sirocco ventilating fan.

The pleasure of wearing real made-to-measure clothing on account of the price.

4000 samples and 200 styles to pick from.

Smith's TAILOR SHOP

Cleaning, Pressing and Repairing neatly done.

The Pennsylvania State College

Established and maintained by the joint action of the United States Government and the Commonwealth of Pennsylvania.

FIVE GREAT SCHOOLS—Agriculture, Engineering, Liberal Arts, Mining and Natural Science, offering thirty-eight courses of four years each.

LARGE AUDIENCE PLEASSED BY RUSSIAN SYMPHONY

The concert given last Wednesday night by the Russian Symphony Orchestra in the Auditorium was a complete success.

The program was a most enjoyable one. The music in the main, a violin solo, was such as would be expected from one of the best orchestras in the country.

The orchestra was repeatedly applauded and to satisfy the demands of the audience the conductor called for several other famous compositions.

Every player was an artist and at every visit it outdid the previous performance.

SPECIAL SOCIAL EVENING HELD BY PRESS CLUB

Last Thursday evening, the Press Club held a special social meeting in every Cottage as a farewell to the members who were leaving college.

The February second meeting of the club was cancelled because of the Mid-year Convocation.

The next meeting will be held on Monday, February sixteenth at eight p. m.

The second issue of El Dorado is now in the printer's hands.

Mr. M. H. Knutson, of the Bacteriology Division, has returned after an absence of ten days.

The Pitt football and basketball schedules will be complete in a few days.

The Mining Department has just installed for inspection and testing by classes in Mining.

GREAT PREACHERS APPEAL FOR BIG-CALIBRE MEN

of race success, of political injustice. The process is slow and long, but it works toward the right end and every minister can give his life to it.

Rev. Rockwell M. Cross, (Protestant Episcopal), St. Paul, Minn.: "I know that Christianity is the panacea for the ills of the world, that no line-spun theory, that no well conceived plan, that no change of things from what they have been to something different will take the place of the spirit of Jesus Christ in the life of the individual."

Rev. Ernest B. Allen, (Congregationalist), Oak Park, Ill.: "With all its natural and reasonable limitations, I believe the ministry is far and away today the biggest opportunity for leadership for red-blooded

young men who dare to trust their lives in sacrificial service. I can hope for no greater joy than that God may lead my sons into the ministry."

Dr. Charles C. Seligman, (Methodist Episcopal South), Los Angeles, Cal.: "The work of the minister is of a very practical character. It is an almost ideal union of the practical and theoretical. This may explain the fact that the ministry has produced such men as Paul, Savonarola, Wesley, Brooks, and others, who have combined in marked degree intellectual greatness with eminent administrative ability."

Dr. White states that if any man interested will write to him in care of the Interchurch World Movement, New York City, he will be glad to give detailed information describing the unique world opportunities of today.

DR. SPARKS SPEAKS AT FRESHMAN CHAPEL

President Sparks spoke to the first year men at the Freshman chapel services on Sunday morning about the fundamental principles of life.

He used as his text, the quotation, "As the twig is bent, so the tree is inclined," and used examples to prove it.

He then told of bad qualities, such as stealing, profanity, drunkenness, and of good ones, such as backbone and good resolutions.

He then told of bad qualities, such as stealing, profanity, drunkenness, and of good ones, such as backbone and good resolutions.

An Idea, Our Good Name—and the G. T. M.

The problem of keeping abreast of the rapid advances that characterize both shop practice and factory equipment in these days of high pressure business and quality-quantity production is something that over-reaches the limits of one man's or one plant's experience.

Consequently, the progressive factory manager, the engineer, and the superintendent make constant study of the latest in ideas and facilities their chief concern.

The idea underlying the plan of the G. T. M.—Goodyear Technical Man—is to provide the right type of belt for every specific industrial use. It removes the important elements of power transmission and material conveying from the field of hit-and-miss operation, and puts them on a scientific basis.

The force of this idea appealed to the Fort Atkinson Canning Company when they were thinking about the belt equipment for the new plant at Jefferson, Wis. They had never used a Goodyear Belt—the belts they had in their parent plant were giving generally satisfactory service—but they knew Goodyear's reputation for quality, they knew the countrywide approval won by Goodyear Belts operating in other canneries, and they were impressed by the G. T. M.'s analysis of their requirements.

So they specified 100% Goodyear equipment—transmission belts, conveyor belts, steam hose and water hose. Types, widths and plies conform to the G. T. M.'s recommendations—Goodyear Glides for the light drives, whose small pulleys run at high speed; Goodyear Klingtite for general transmission duty; and Goodyear Klingtite on the "mule," where severe belt punishment aptly names the drive. Where raw materials in transit deposit their belt-eating acids, Goodyear Conveyors offer qualities especially resistant to acid.

The unfailing performance of these Goodyear Belts substantiates the plant analysis method of applying belts to the specific service. Their freedom from belt troubles—no shipping, no stretching—to an appreciable amount, which usually causes an interruption in production in order to "cut out" and take up the slack—is their own best service assurance.

A special study of belt function in various industries is set forth in the Goodyear Mechanical Goods Encyclopedia. Students and teachers of engineering will be furnished a copy on request by letter to the Mechanical Goods Department of the Goodyear Tire & Rubber Co., Akron, O.
