ALPHA CHI SIGMA WINS INTERFRATERNITY RELAYS

The last competitive meet among the fraternities for first place in track was staged on Saturday on New Beaver Field. Seven fraternities were entered in the meet and each house was represented by a quartet of good runners. Each man carried the baton for 220 yards in the half mile relay held at ten o'clock in the morning. The teams were divided into two heats. The first comprised the representatives of the Alpha Gamma Iota, Alpha Chi Sigma, Delta Upsilon, and the Phi Kappa Phi fraternities. The three remaining teams that competed for the final meet represented the Kappa Sigma, Sigma Pi, and Phi Delta Theta houses.

The first heat was run in the faster time of the two, and was won by the Alpha Chi Sigma team with a running time of one minute thirty-eight and four-fifths seconds. Buck Williams crossed the tape in the second heat of the meet, winning the race for the Kappa Sigma house. The time for the Kappa Sigma four was one minute forty-one and one-fifth seconds. The final heat was run in the afternoon during the varsity meet with West Virginia, between the winners of the two heats held in the morning. The Alpha Chi Sigma won the final event in one minute thirty-eight and two-fifths seconds.

The inter-unit relay races will be held on Saturday afternoon. All men who have not won their letter in varsity track will be eligible to run on the teams representing their districts. The team winning the inter-unit relay will meet the Alpha Chi Sigma four on Saturday, May twenty-ninth in the college championship relay race. The annual scrap between the two lower classes in track will also be held on May twenty-ninth. This will be the last meet to be held between classes this semester.

DAIRY DEPARTMENT BUYS JERSEYS AND ABERSHIRES

Two Jersey heifers and two Abershires were purchased by the Dairy Husbandry Department at the recent sale of W. L. Glatfelter, Spring Grove, Pa. The Jerseys are descendants from Hood Farm Hoops 8th, a noted Jersey sire, having 50 daughters in the Register of Merit. The College already has two half sisters to these recently purchased. The high production and excellent dairy type of this line of breeding were such that it was deemed wise to secure additional females of the same line of breeding. The average record of these recently purchased is 445 pounds of butterfat per year in two-year-olds. It is expected that these additions will add new laurels to the College Dairy herd.

NOTED JAPANESE TELLS OF AGRICULTURAL PROBLEMS

Dr. Iwata Tanimura, Japanese Commissioner of Agriculture, who is at present making an extensive tour of this country in the interest of the Japanese Government, gave an illustrated lecture last Friday evening in the Old Chapel. Dr. Tanimura is recognized as the foremost agriculturist of the Orient and is devoting his whole life toward the betterment of agriculture conditions in Japan and China. He is the owner and personal supervisor of one thousand acres of the best farm land in Japan, on which he conducts extensive experiments for his government. Dr. Tanimura has been commissioned to purchase cattle and sheep for immediate exportation to Japan, this being one of the principal objects of his visit to this country at the present time.

Dr. Tanimura chose as his subject "Irrigation and Live Stock Conditions in Japan." He vividly described the prevalent method of the cattle industry in Japan and deplored the fact that there were but a few thousand sheep in the whole of his country. He told of the wonderful natural possibilities Japan offers for the developing of the cattle industry and of the work he and his agents were attempting to accomplish by bringing this fact before the Japanese public.

The lecture was illustrated throughout by slides which were made especially to be shown to the students of Penn State and mark the first public presentation of these pictures in the United States. Dr. Tanimura is a graduate of Yale and Dickinson and has devoted considerable time to the study of agriculture in other American colleges and universities.

MANDOLIN CLUB PLANS NEW FEATURES FOR TRIP

Following the division of the Glee and Mandolin Clubs into separate organizations, the Mandolin Club held a meeting last week and formulated plans for its activities next year. The club has undergone a complete reorganization and if present expectations are carried out, several innovations

BOTH - - PHONES

promise to mark it as one of the most progressive of Penn State musical organizations. As a feature of the plans a Jazz orchestra will be formed and trips to surrounding towns will be arranged. On these trips a concert will be presented at each stop-over and immediately afterwards will follow a dance, the music for this affair being furnished by the club. Several special events will be added to the club's repertoire and in this way, it is hoped that an up-to-the-minute type of entertainment can be offered. The following officers were elected to serve for the next year: C. C. Leinbach '21, president and director; H. Plathburn '22, vice president; J. A. Cameron '22, secretary; B. L. Smith '21, business manager; M. T. Warner '21, publicity manager.

CHAPEL SPEAKER TELLS OF CHRISTIAN PROBLEMS

Doctor H. H. Apple, President of Franklin and Marshall College at Lancaster, Pa., spoke of the problems that Moses faced in leading the children of Israel from Egypt, in relation to the problems that Christians are facing today, in his talk last Sunday morning at the chapel.

"Just as God told Moses to move forward, today He tells us to go on. We are entering on a new age and with this come new problems which we will have to face and solve." President Apple stated that through the power of God alone could these problems be solved. The most important question he that of Christianity and why it did not prevent war. The people do not ask why statelessness, business, science, or art do not prevent war. The responsibility lies on the American churches in making the country religiously strong.

MOUNTAINEER TRACK TEAM SWAMPED BY 101-25 SCORE

(Continued from first page) this year, every confidence is being placed in the ability of the Centre County collegians to roll up the high score Saturday. Earlier in the season, Pitt was a victor in a dual meet with Princeton, but last Saturday recently been greatly augmented in strength by the return to his old team of Shen, the flashy speedster, and it is highly probable that he will shine in the meet this week end.

WINNERS IN DIVISIONS LEAD BY LARGE SCORE

(Continued from first page) No fast time was displayed in any of these events, in fact they were slow for the pick of the high schools of the state. The best record was made when Palm threw the twelve pound hammer 155 feet out distancing his opponents by a large margin. Without doubt the interscholastic were a great success inasmuch as they brought together the stars on the track in the state and increased good fellowship between the various schools.
