A GLORIOUS WEEK-END

The COLLEGIAN wishes to congratulate every member of the various varsity athletic teams that partook of the contests that were staged over the past week-end, for the magnificent part he played in making Penn State's annual Washington's Birthday celebration and athletic carnival the very great success it undoubtedly was. The Athletic Association is deserving of much credit in scheduling such notable contests as these were at such a time.

The men who partook of the various contests and bouts are especially due commendation. In a number of the bouts that were staged last Friday night and Saturday afternoon it was nothing but pure grit and pluck on the part of the Penn State man that won him the bout, and these were wonderful examples of true Penn State spirit and the desire to win out for the glory of the college.

Commendation is also due the ushers for the "meets." The way in which they handled the huge crowds present was very fine. Student cooperation also made this possible and Penn State men showed themselves to fine advantage by the way in which they provided seating room and entertaining facilities for the large number of visitors that were at the college over the week-end.

In addition, student support of the Rehab production and incidentally the Penn State War Memorial Fund is worthy of honorable mention. The attendance at the two shows was very good and Penn State should have quite a nucleus with which to begin her campaign for this honor to the men whose faces were at one time familiar to the campus.

Some of the Penn State girls are attempting to find a solution to the problem of sending a number of girls to the Lafayette Conference by making candy and offering the same to the students of the college at a reasonable price. Their motive is entirely unselfish and in no manner bespeaks of anything but a purely business proposition. They offer good value for the money expended and demands of this nature are so infrequent that a hearty response should be forthcoming from the students. Here is a chance to help along a worthy Penn State cause and at the same time enjoy some very good candy. Let us help the girls to go to the Lafayette Conference.

CAN FAITH SAVE THE HONOR SYSTEM?

Time and again Penn State students have been told that there are many phases with which to regard the Honor System. The college preacher for last Sunday again emphasized the Christian standpoint. Students were told their duty to themselves, their college and their God. These things have been emphasized many times before. Are they the solution to the problem?

Those who have a firm belief in what their relationship to the system should be from the standpoint mentioned, also have a great faith in their fellows. Many men have felt the same and because their efforts toward a more virile system and a greater cooperation by the student have resulted in naught, they have come to the conclusion that there is no saving left, that students at this college will not support the system, whether their future Christian life is jeopardized or not. They have spoken with men about the system; they have placed before them the obligation they are under because of their belief in a life hereafter and their duty to their parents; men have agreed that this is very, very true; and yet, in spite of their assent to these beliefs, they will enter an examination and cheat. Under such conditions, is it any wonder that the leaders of the college, the men whose belief was strong, have come to the conclusion that it cannot stand?

Perhaps we should have even greater faith. But, with this faith comes the realization that it alone can accomplish nothing. There must be concerted action on everyone's part. We believe that the majority of students, if given a fair examination, one which will occupy every minute of the time allotted, will not and cannot crib or they cannot complete the examination. It is true enough that the clause regarding reporting is the real "jonah" of the system. No man wishes to report another. It has come to the point at Penn State where no man will report another. So, if we wish to continue the Honor System, we must remove this clause and count on every man, both instructor and student, cooperating.

If we can have every student of the opinion that it is his chosen privilege to take an examination where his honor to carry on properly is at stake, then we will have a real Honor System. Can we do that? Our previous experience has been that we cannot. In the face of such results what can we expect of the future? If every Penn State man cannot take an honorable attitude toward the system then it had better go.

WOMEN'S CONFERENCE TO EMBODY MANY FEATURES

Extensive Program Arranged For Vocational Guidance Meetings for Girl Students

Plans have been completed for the vocational guidance conference which is being held for the women students on March 7 and 8. The conference as proposed by Dean Margaret Knight will be conducted by the women students with the aid of a vocational expert and its meetings will be presided over by the girls interested in the various subjects to be discussed, while the speakers will all be men and will be prominent in the various lines of women's activities.

All the spheres of women's activity will be discussed at these meetings, and the speakers who will endeavor to explain the various professions, and aid the girl in choosing their life work, are all experienced in their chosen work and capable of guiding the women student into the right path. The conference leader is Miss Helen M. Bennett, manager of the Chicago Collegiate Bureau of Occupations, who will open the meetings by an address Monday morning, March 7, in Old Church. Lectures in the morning the vocations in chemistry will be discussed in Dr. Margaret E. McDonald, horticulture and agriculture by Miss Elizabeth Leighton, Les, of the Ambler School of Horticulture, and accountancy, by Mrs. L. J. Bradford, formerly Institution Cost Accountant with the Ontario Government. The student presiding officer for these meetings will be Miss Irene A. Felchert '21.

On Monday afternoon, with Miss Grace Yocum '22 as the student presiding officer, home economics will be treated by Miss Edna White of the Merrill Palmer School, Detroit. Cafeteria work and management will be discussed by Mrs. Ralph Wilcox, of Pittsburgh. Also among the subjects to be treated will be the architecture and physical education by Miss Anna Kechelnie and Miss Ruth Stanwood respectively.

In order that the women students will be able to obtain the full benefit of these meetings, they will be excused from classes of March 7 and 8. All the meetings with the exception of the opening meetings each morning will be held in the Foyer of the Auditorium. The opening meeting Tuesday morning, March 8, will be addressed by Mr. Paul Besser of the New York School of Social Work and his subject will be the "Opportunities in the Field of Social Work." The other subjects under discussion will be child welfare work, public health work, home service work of the American Red Cross, and the vocational opportunities in the Y. W. C. A. Miss Edna Sell '21 is the student presiding officer of this section of the conference.

One of the biggest features of the meetings will be the Tuesday afternoon group, with Miss Helen Brown '21 in the chair. The first subject to be discussed will be the teaching profession by Dr. D. A. Anderson of the faculty. After his talk, Miss Muriel Brown, of the State Department of Public Instruction will speak on the opportunities in educational psychology. Mr. Arthur Deering of the faculty will have as his subject the field of dramatic art. Miss Elizabeth Dyer of Carnegie Tech will discuss salesmanship, and Miss Bennett will close the series by a talk on Journalism.

Most Good Dressers Bring their clothes to us for cleaning, pressing and repairing. They have formed a habit which is hard to break. You ought to join them—why don't you do it today?
E. W. GERNARD.

Schedule For Re-examinations

Re-examinations for the removal of conditions incurred last semester will begin next Saturday afternoon and continue until April second, according to the schedule which has been issued by the Registrar. Students receiving a grade of "D" in courses other than practical courses are entitled to take these re-examinations by presenting the notice of such a grade to the instructor in charge of the re-examination.

When a re-examination is scheduled for any other time than Saturday at one-thirty p. m., the student may in case of conflict with a regular college exercise, be excused from his regular class work by showing, beforehand to his instructor, his permit for the re-exam. The Registrar has also announced that all conflicts in re-examinations must be reported to his office before Thursday noon of this week. Re-exams in Bibliography, Greek and Latin will be by appointment. The schedule is as follows:

- Saturday, February 26, 1:30 p. m.

JAPANESE TOWER
 CHATEAU DE LOEVEN, BRUSSELS, BELGIUM
 Equipped with Otis Elevators

THIS is part of the summer home of Leopold the Second, late King of the Belgians. It stands in the Royal Parc of the Chateau de Loeben, suburb of Brussels.

In the homes and palaces of kings; in the public buildings that peasants use, in the gigantic temples of commerce; in countries of eternal sunshine or those where nights are months long—everywhere the Otis organization stretches out its hand to provide vertical transportation.

A circle embracing Otis activities would encompass the earth, for world service is the aim of Otis.

Most of the famous buildings of the world are equipped with Otis Elevators

FINE LECTURE GIVEN ON LOCOMOTIVE DEVELOPMENT

Mr. L. L. Park, Superintendent of Welfare of the American Locomotive Company, at Schenectady, New York, delivered a very interesting and educational lecture on Friday afternoon in Engineering D when he addressed an assemblage of engineering students on the subject, "The Development of the Locomotive." Mr. Park used stereopticon-views in portraying the various steps in the progress of the locomotive and described the also giving features of each and told of the disadvantages which made the adoption of the types impossible.

The types of locomotives discussed dated from the year of 1829 to the present time. The use of steam power was demonstrated in that early year by Peter Cooper and numerous roads adopted his ideas. The horizontal and vertical type boilers were shown and the process of perfecting these essentials was shown as various roads and inventors improved on these inventions. The features which the different combinations of drive wheels presented were shown and reasons for their failure were given and the ways of improvement were given consideration. The lecture was not an exhaustive one but the speaker covered a large proportion of the work in locomotive development. The Mallet type of engine was well explained and the present day types of this engine were shown on the screen.

DON'T NEGLECT A COLD

If a cold is not treated when the first symptoms show themselves it will frequently develop into more serious complications. A cold in the head or throat is no longer considered a condition that will correct itself without medication. If nature is properly assisted, this ailment can be corrected without bad after effects. It is unnecessary to take unpleasant or obnoxious preparations for this purpose. There is a simple, safe, sure, efficient and pleasant combination for treating a cold. It is known as **Reed's Cold Tablets** (U. S. Pat. 1,414,216) and when combined with Acetanilide Tablets, which contain Aspirin (U. S. Pat. 1,414,216), is widely acknowledged as being of great value in the treatment of colds. These ingredients are most valuable in relieving pain, reducing fever, drying up coryza, lessening inflammation, eliminating poisonous secretions, warming up the stomach and shortening duration of the disease. Get a box of these Cold Tablets of us today. Taken them according to directions the moment the first symptoms appear and you will obtain quick relief.

MOOD CHANGE CHART
 An Analysis of the Effect of Music on the Human Mind

Test Your Mood Changes

TIRED! Nervous? Worried?
 Put a RE-CREATION on the New Edison, relax into a chair, let the music flood the room with melody—and comfort. The music produces a mood change. Mr. Edison has devised a Mood Change Chart by which you can register your reactions to music. Come in and get your supply. Make the experiment in your own home. Have every member of your family, also your friends fill out charts. It's more interesting than the Ouija board. Mr. Edison would like to study your charts in connection with his great research into the effects of music on the minds and moods of men. If you don't own a New Edison, come into our store and fill out a Mood Change Chart. Get Mr. Edison all the Mood Change Charts he needs.
