College Golf Coach Offers Suggestions to New Players—Plan Contests Next Year

Novices at golf should be especially careful of their methods of play if they wish to learn the game well and to become proficient in this sport.

When a person goes on the links for the first time he should not attempt to teach himself the game but go to the instructor for advice.

A mistake which many beginners make, is accepting the advice which every person donates to them.

Some Fundamentals of Golf
Mr. Rutherford has issued some general fundamental instructions which are necessary and should be followed by the beginner.

In swinging, the body should not be raised. When the club is swung back, the left shoulder should be dropped.

Many golfers have trouble with topping the ball or hitting with the heel of the club. The heel of the club is the weakest spot and it is the hitting of the ball here that is the greatest cause of hooking clubs.

Spring activities are with us again

Women players make the mistake of using heavy-weight balls. In many cases using the heaviest ones available.

Contests Next Year
When Penn State students have acquired more skill at golf, contests will be staged in this game.

Great improvements will be made on the links this summer and Penn State will be assured of a first class course next year.

At the present time the links is proving very popular and many students are taking advantage of the pleasant afternoons to play the nine hole course.

FACULTY MEMBERS HOLD RECEPTION FOR "PREXY"

The members of the faculty and their wives gave a formal reception in their parlors last Wednesday evening.

Dr. Sparks and Dr. and Mrs. Thomas formed the receiving line while Dr. F. L. Patton introduced the various members of the faculty to the President.

Several girls from each class in college were also present to help with the arrangements.

INDUSTRIAL ENGINEERS RECEIVE NEW APPARATUS

The Department of Industrial Engineering has received two complete welding outfits and one complete cutting outfit from the Oxwell Acetylene Co.

SUCCESS OF COLLEGE MEN SHOWN BY FIGURES

A close correspondence between good in engineering is shown in an investigation made under the auspices of the American Association of College Registrars.

It was found that, of 392 distinguished engineers graduated at 75 technical schools, colleges and universities, 182 or 46.4 per cent stood in the highest fifth of their classes.

Figures for a group of 189 alumni of five Eastern engineering schools were somewhat different in the upper classes, the second highest scholastic fifth having the largest percentage.

Of 730 names on the Registrars' Association list of distinguished engineers, practically 80 per cent were found to be collegiate graduates.

The arbitrary basis of eminence in this study of a professional group was taken to be the holding of office, membership in important committees and service as representatives of the four "founder" engineering societies.

PENN STATE PRE-MEDS RANK HIGH AT JEFFERSON

Although enrolled in one of the least known courses in the School of Natural Science, the Penn State Pre-Meds rank among the highest in the medical schools of the country.

It is the plan of The Players to make this performance the banner one of the year and nothing will be spared to surpass all previous efforts.

These extracts are simply samples of a number of letters which show that Penn State Pre-Meds are up-holding the high standards of Penn State in their chosen line of work.

CANDIDATES CALLED FOR PLAYERS' JUNE OFFERING

The Penn State Players have chosen for their commencement offering Percy Mackay's charming play of old China, "A Thousand Years Ago."

It is the plan of The Players to make this performance the banner one of the year and nothing will be spared to surpass all previous efforts.

The College Man's Shop

We are showing some new numbers in Narro-Knit Ties. A splendid value at a popular price, \$1.00

We also have a very complete line of cut Silk Ties, both in four-in-hand and bat wing. Moderate prices. Excellent values.

REDMANOL The Perfect Mouthpiece Men who know pipe satisfaction will tell you that they prefer REDMANOL to any other mouthpiece because it has just the right feel on the teeth. REDMANOL is as transparent and beautiful as amber; but stronger. Modern science has made it tasteless and odorless. Whether you are buying a cigarette holder, a cigar holder, or a "jimmy" pipe, ask your dealer to show you one with a REDMANOL bit.

Music's Perfect Mirror The NEW EDISON "The Phonograph with a Soul" The New Edison is like the perfect mirror that reflects form and feature, true to every line and subtlety of coloring. It gives you an exact RE-CREATION of the singing or playing of the living artist or artists. Mr. Edison spent 7 years of his time and 3 millions of his dollars to develop the perfect realism of the New Edison. He has proved this perfect realism by comparing the New Edison with living artists 5,000 times before more than 5 million people. The New Edison is positively the only phonograph which can sustain this test. We have, for you, a proof on offset paper of the famous Franklin Booth Etching of Mr. Edison, as he looks today. Size 12 x 19 inches. Bears no advertising matter; suitable for framing. Just fill out the ballot,—and bring or mail it to us. L. K. METZGER 111-115 ALLEN STREET.
