PENN STATE POULTRY AIDING STARVING CHINA

Some time ago Captain Arthur E. Slater, who was once a poultry specialist, but who is now a Presbyterian missionary in Etah, India, conceived the idea of introducing high grade poultry into his district in India. The country there is well adapted to poultry raising, but the natives are very poor and the few chickens that they have are of such an inferior type that they lay only an occasional egg almost as small as a pigeon's egg. With such primitive means and with crude methods of agriculture many of the population cannot even earn a scant existence. As a beginning toward relieving a few from extreme want, Captain Slater purchased from the college forty "White" Wyandotters and six roosters, with money subscribed by members of the State College churches.

Dean R. L. Watts has received a very interesting letter from Captain Slater, telling of the safe arrival of the birds. With one or two exceptions the fowls completed the twelve thousand mile journey in very good condition and soon showed lots of "egg" within a week they were laying a fifty per cent normal egg production and ninety per cent of these proved fertile when incubated. Captain Slater plans to distribute settings of the eggs among the most deserving native families. A small flock of these chickens will enable each starving family to earn a scant livelihood. By starting the people of his district in some productive occupation, he hopes to raise them out of the deep rut of poverty.

The church can make little headway among the natives who are principally concerned in keeping in from starving. They must be uplifted socially and economically to be influenced spiritually. It is Captain Slater's aim to make his district into a self-sustaining Christian community. He is convinced that this can be accomplished with the aid of Penn State Leghorns. To propagate this work a poultry demonstration farm is necessary in order to show the natives how to raise chickens properly. He hopes to locate the demonstration station in one of the central villages, and to place in charge of a native Christian, Darbari by name, who has been educated at the mission. This plan is the only apparent means of salvation of thousands of destitute people in this poverty stricken land. Professor Knandel of the Poultry Department is greatly interested in this project and the officials of the School of Agriculture are anxious to cooperate in helping Captain Slater. At present the necessary funds are not available and he has sent his appeal to Penn State and to the various State College for aid in this worthy cause.

PROMINENT ALUMNUS PASSES AWAY AT HOME

Penn State has lost a very valuable friend by the death of Charles H. McKee, of the class of '73 who passed away at his home in Pittsburgh last week. He was a former member of the firm of McKee, Mitchell, and Aiter, all Penn State men. In recent years, he has made his home for the winter in Vero, Florida where he was making some interesting experiments on the growth of citrus fruits.

Many times in the past, Mr. McKee has shown his intense love for the college by helping it in several ways. The most notable and beneficial of these happened at the time when the Mussger farm was about to be lost to the college, because there was no money in the coffers of the institution with which to purchase this valuable farm. Upon hearing of this condition, Mr. McKee stepped in and bought the farm with his own earnings. When the Legislature finally passed the appropriation, the old Alumnus had the farm to the college for the same price which he paid for it notwithstanding the fact that adjoining land had increased enormously in value since then. It is, therefore, to his loyalty to his Alma Mater that we owe the possession of all that land lying to the east of the experimental lots. This is but one of the many cases when he has come to the aid of the college in time of need.

MICH. AG. COLLEGE—The faculty, at a recent meeting, made several changes in the agriculture course. The main purpose of the changes is to give the students a wider range of selection in the technical subjects. The Dairy Department will offer a course in judging and selecting of dairy breeds, which will include preparing the animals for show and sale.

PLAYERS TO APPEAR AT YORK AND LOCK HAVEN

Following their successful presentation of "The Man Who Married a Dumb Wife" in the Auditorium last Friday evening, the Penn State Players are planning a conquest into neighboring cities for the purpose of giving the public a taste of Penn State's dramatic art. The schedule calls for a presentation of "The Seven Keys to Baldpate" this evening when the Players go to York sometime the following week they plan to play "The Man Who Married a Dumb Wife" at Lock Haven, and finally on Friday evening May sixth, they will present for the second time this year what is perhaps their greatest success so far, "The Seven Keys to Baldpate" for the benefit of the local Y. M. C. A.

The next play to be put on by the Players will be Percy Mackaye's "A Thousand Years Ago" which will be presented sometime around Commencement. They will present for try outs will be issued in the near future.

Dean Margaret A. Knight will accompany the Penn State Players on their trip to York, Pa., where they go today. She will act in the capacity of chaperon for the women students who appear in the cast of the play.

STATE COLLEGE WOMEN TO RENDER MUSICAL

A musical treat is in store for the women of State College for a musical and recital is scheduled to be given by the Music Section of the State College Women's Club, assisted by Miss Jackson of the English Department, on next Monday evening, April twenty fifth at eight fifteen o'clock in the Old Chapel. As this is in the nature of a benefit for the purpose of raising money pledged by the Club, the admission fee has been set at the sum of thirty-five cents. An extensive program that is noteworthy for the various attractive numbers which it contains will consist of the following:

1. Overture—Don Giovanni Mozart
2. Symphony Orchestra
3. A Spring Day Mrs. Taylor and Miss Bley
4. In Folle. Mendelssohn
5. Mrs. Holbein assisted by orchestra
6. Reading—"The Florist's Shop"
7. Piano Solo
8. Mrs. Govier
9. Trio—Holbein, Herman, Putnam
10. "Entre les Clans" St. Saens
11. VII. Symphony Orchestra

SEEDLING WALNUT TREES TO BE DISTRIBUTED FREE

The Centre County Conservation Association has received from the State Forestry Department at Harrisburg 3000 seedlings of the black walnut tree. It is planned to have these trees planted on the State Forest. In years to come they will furnish food for squirrels and other forest animals. The black walnut tree requires a moist, rich soil, for best development. It should be planted on the bottom land along streams in open spots for black walnut will not grow in the shade. Hunting clubs and others who wish to plant this tree near their cabins should apply to the Chairman of the Forestry or Game Committee in their Conservation District or to Professor Geo. R. Green, Chairman of Forestry Committee, Forestry Building, State College, Pa.

MUSICAL CLUBS TO GIVE FREE CONCERT

(Continued from first page)

the members of the different organizations will appear in this number and it should prove a fitting climax for the evening. The program which is one of merit and quality will be as follows:

1. The Two Grenadiers Schumann
2. Arranged by C. C. Robinson
3. A Dream of Spring P. Hans Flath
4. Mandolin Quartet
5. Croon, Croon, Underneath de Moon Clatsam
6. Boat Song Glee Club
7. Harriet Ware Girls' Quartet
8. Misses Fulton, Dana, Thompson, Erb
9. Accompanist, Miss Hewston
10. The Home Town Band A. J. Weidt
11. Mandolin Club
12. H. Fishburn, Leader
13. Phantom Band Thayer
14. The World's Male Quartet
15. My Ole Banjo Glee Club
16. Loomis
17. Popular Selection
18. Banjo Club
19. State Songs
20. Combined Clubs

SCABBARD AND BLADE WIN CUP IN NATIONAL CONTEST

"It" Company of Scabbard and Blade, the national honorary military fraternity at Penn State, has on display in the Athletic Store Window, the silver loving cup awarded by the National Society of Scabbard and Blade to that chapter making the highest score in the national competition recently closed. Each chapter of Scabbard and Blade was represented by a team of five men in this competition which was held during the last two weeks of February and the first two weeks of March. The Penn State Scabbard and Blade Chapter's representatives were: Cadet Colonel M. T. Warner, Lieutenant Colonel F. B. Thompson, Major W. H. McNeves, Major H. G. Fisher, and Captain W. R. Magee.

This team was very ably coached by Major Harold B. Johnston, Asst. Professor of Military Science and Tactics at this institution, and Sergeant John W. Lennon. This match did not require a trip, each team shooting at its respective institution, having its score certified by a nearby army and forwarded to the headquarters of the Scabbard and Blade, where the scores were tabulated and the winner determined. The matches were most in ten stages, two per week, five standing, five prone.

BATSMEN TO MEET LEBANON NINE NEXT

(Continued from first page)

fairly good twirlers. Matchton, the catcher, and Moore, the Lebanon captain and first baseman, are the other two veterans on the nine. Uhler, Hoeman, and Cohen complete the infield, playing at second, third, and short respectively and with Moore, make a fast and sure batting line-up. The team can hold its own with most any infield group. Six men, Smith, Finn, Nitrauer, Helas, P. Wolfe and Swank are striving for the garden positions with the most equal results so that the personnel of the outfield tomorrow is rather uncertain.

Varsity Going Well

The fact that the varsity batsmen have won nine consecutive victories has not allowed Coach Bezdek to let up on the men and he is now driving them at top speed, preparing the team for the game with Tech and for the coming trip, which includes games with Yale and Princeton. Under the steady plugging of the last two weeks, the hitting of the diamond has increased perceptibly. Against Delaware they rang up a total of twelve safe slouts while last Saturday they annexed eleven at the expense of Juniata, five of the latter being home runs. The pitching of Killinger, Uhler, and Captain Halnes have been slugging the horsehide at a great clip and have been powerful factors in the team's success. The game also been of high order, only two errors being chalked up to its credit in the last three contests.

The line-up for tomorrow's tilt will be the same as usual since "Bez" is well satisfied with the present combination and feels that it is the best obtainable. As to the pitchers for the game, Coach Bezdek has not yet determined but will start either Thomas or Melinger. Hunter, twirled, last Saturday and is entitled to a rest while Thomas pitched against Delaware and Melinger appeared in the box against Gettysburg. There are several other hurlers who are making bids for the team but they have not shown sufficient ability and control to warrant their being started in the coming game.

ENGINEERING NOTES

Four Senior Mechanical Engineering students are running a series of comparative tests on the specimens of boiler steel welded. They are W. G. Steinbright, M. G. Miller, W. C. Tompkins, and W. O. Teufel.

Mr. D. J. Price, Development Engineer for the Bureau of Chemistry, Washington, D. C., was here on the eighteenth for conferences with Mr. B. W. Dedrick, of the Flour Milling Course, Prof. E. J. Kinze, head of the Industrial Engineering Department, and Dean Sackett concerning a recent expansion in a large Chicago Grain Elevator, which did \$3,000,000 dollars damage.

Messrs. Skiff and Dalton, of the National Electric Light Association, Nela Park, Cleveland, Ohio, were here Monday and Tuesday to interview Seniors.

Mr. C. H. Prief, of the General Electric Company, Schenectady, N. Y., was also in State College interviewing Seniors looking for employment. A considerable number of this year's Senior class has already received offers.

Mr. J. W. Fortenbaugh, Civil Engineering 1912, and Mr. H. N. Freeburn, Sanitary Engineering '17 who are connected with the Engineering Division of the State Department of Health, were in State College Monday in connection with the disposal of refuse in this locality.

Mr. V. G. Duncan of the Extension Department of the School of Mines has recently here making plans for the summer short courses in mining. These are six weeks for practical miners, beginning immediately after school closes.

TRACK MEN WIN OVER HARVARD

(Continued from first page)

about two feet, covering the distance in nine and four-fifths seconds. This is the first track meet that Uhler, Bezdek's crack first baseman, has had in this spring. A little more training should develop him into one of the fastest collegiate sprinters in the United States. Gourdin is a wonderful runner. He had a slight lead during the entire one hundred yards. In the one mile race which came next on the program, Captain O'Connell of Harvard and "Blondy" Romig of Penn State ran the last lap of the race almost neck and neck. Within a few feet of the tape however, O'Connell put forth a mighty effort and swung into the lead, capturing first place by a few feet. Romig is at his best in a longer distance than the mile and the race which he gave the 1919 Intercollegiate one mile champion short course in surprise to most of the Penn State rooters.

Demming scored first place in the 440 yard dash, running an excellent race in spite of the pulled tendon in one of his legs. He began about half way around the track he began to pick up from behind and started to pass his teammates and opponents finishing the race in fifty-one and three-fifths seconds.

In the two mile run Romig, Cooper

and Snyder proved easy victors in the order named. Shortly after the start of the event, the runners began to string out with Romig in the lead, which position he held throughout the race. Snyder who finished third put on a wonderful spurt of speed and beat his opponent to the mark.

When the 250 yard low hurdles race came off, Hile surprised Barron by coming in first by a slight margin. Whitney was the first Harvard man to finish in this race.

"Bill" Uhler won the 225 yard dash in twenty-two seconds flat. He was closely followed by two Harvard men, Wansker and Chapin, the latter barely nosing out "Hinky" Halnes.

In the field events Penn State proved to be somewhat weak as compared with Harvard. This lack of strength on the part of Penn State or rather predominance of strength on the part of Harvard was especially noticeable in the pole vault, high jump, and hammer throw.

Harwood, of Olympic fame, cleared twenty six feet in the pole vault which distance was as high as the standards would permit him to go. If it would have been possible to place the bar at a greater height he would undoubtedly have made even a better record.

Harvard won the first three places in the hammer throw, but did not do quite so well in the shot put. Beck, Penn State's heavyweight boxer and second Green, Penn State, and Goodell, Harvard, tied for third. Height 6 feet, 8 inches.

Pole vault—Harwood, Harvard, won;

120-yard high hurdles—Barron, Penn State, won; Hile, Penn State, second; Kauffman, Penn State, third. Time 15 seconds.

100-yard dash—Gourdin, Harvard, won; Uhler, Penn State, second; Wansker, Harvard, third. Time 9 4-5 seconds.

One mile run—O'Connell, Harvard, won; Romig, Penn State, second; Carter, Penn State, third. Time 4 minutes 35 seconds.

440-yard run—Demming, Penn State, won; Chute, Harvard, second; Wharton, Harvard, third. Time 51 3-5 seconds.

Two-mile run—Romig, Penn State, won; Cooper, Penn State, second; Snyder, Penn State, third. Time 10 minutes, 1 3-5 seconds.

225-yard low hurdles—Hile, Penn State, won; Barron, Penn State, second; Whitney, Harvard, third. Time 24 1-5 seconds.

220-yard dash—Uhler, Penn State, won; Wansker, Harvard, second; Chapin, Harvard, third. Time 22 seconds.

800-yard run—Demming Penn State, won; Colt, Harvard, second; Edgerston, Penn State, third. Time 2 minutes 1 second.

Shot put—Beck, Penn State, won; Tolbert, Harvard, second; Melchior, Penn State, third. Distance, 41 feet 3 inches.

High jump—Fitts and Grogness, Harvard, tied for first; Parent, Penn State, second; Green, Penn State, and Goodell, Harvard, tied for third. Height 6 feet, 8 inches.

Pole vault—Harwood, Harvard, won;

HARVARD UNIVERSITY Dental School

There is unlimited demand for skilled dentists and specialists in dentistry. This school offers a most thorough and efficient training in this interesting profession. For those who wish to specialize there are courses in Oral Surgery, Orthodontia (straightening the teeth) and other branches. Instruction by leading dentists of Boston and vicinity. Up-to-date equipment with unusual opportunities for practical work. A college certificate indicating one year's work in college English, Biology, Chemistry, as well as high school or college Physics, required for admission. Write for particulars.

EUGENE H. SMITH, D. M. D., Dean Boston, Mass.

120-yard high hurdles—Barron, Penn State, won; Hile, Penn State, second; Kauffman, Penn State, third. Time 15 seconds.

NUCOA Butters Bread Stays Sweet

J. H. MUSSER 441 W. College Ave. State College, Pa. EXCLUSIVELY

"All is discovered—leave at once!"

IN the shivery tones of melodrama false prophets rise up to assure you that all the wonders of electricity have been discovered, that the industry has had its day, that you should lose no time changing to some younger and less developed profession.

There were folks giving this same advice back in the eighteen seventies—but somehow Edison and Bell seemed to think differently. And now, depend upon it that in 1921 as at any time during the last hundred years, the world is on the eve of important inventions and discoveries and their commercialization in the realm of electricity.

How momentous these developments shall become in the next forty years is largely up to you men now in college. It will fall upon you to work out interconnection systems, to manage water-power projects, to plan electrification of railroads, to extend the lines of communication into new lands.

There are seventy million Americans who do not use electricity in their homes. One of your jobs will be to supply them.

So there is a long-time market for your services, a demand for your utmost energy and enthusiasm and ability.

Your cue is to start now thinking about your work in a big way, building yourself to measure up to the opportunities and the problems that will be your share in developing this greater industry of tomorrow.

The electrical industry needs men who can see far and think straight.

Western Electric Company

The part which for 50 years this Company has played in furthering electrical development is an indication of the share it will have in working out the even greater problems of the future.
