**IMPORTANT RESULTS ARE OBTAINED IN EXPERIMENT.**

The Animal Husbandry Department has just finished a very interesting and valuable experiment in which they determined not only the value of corn silage in maintaining beef breeding cows, but they also compared the various roughages commonly used as supplementary feeds with silage. Three lots of nine cows each were selected for the experiment of as nearly the same weight as possible. Each cow received thirty pounds of silage and one pound of cottonseed meal daily and in addition the following roughages were fed ad libitum lot number one received clean, bright, mixed hay, lot number two was fed a good quality of oat straw, and lot number three received corn stover. The result of the experiment showed that lot two, receiving oat straw, consumed the greatest bulk and made by far the heaviest daily gain. Lot three, which got corn stover, consumed the least bulk and gained considerably less than lot two. Finally, lot one, on those fed on mixed hay, consumed a third larger bulk than lot three and made only one-third the daily gain.

Not counting the feed cost, the oat straw supplement easily proved itself superior from the standpoint of gain in weight, the corn stover stood next, and the mixed hay third. The feeds were based on local prices at the time of the experiment. Each of the three lots carried about the same weight of calves during the period. All the cows averaged good condition at the close of the period.

**YEARLING DIAMOND MEN WILL FACE BELLEFONTE**

(Continued from first page)

nine may look for a hard struggle tomorrow. Freshmen Show Little Improvement. The ragged defense and poor hitting exhibited by the Nittany Frosh in the game with Kiski on Monday showed very little that they had improved very little in the past week. They threw numerous chances away that might have won the game for them and they could not hit in pinches with the exception of the seventh inning. Two or three times they had a couple of men on the base paths and could not produce a hit to bring them in. Credit must be given, however, for the manner in which they tightened up in two instances when the bases were full of Pitt runners and prevented runs. The main trouble is that they do not tighten up until it is too late.

Hard work in the last few days may have remedied the faults brought out in the Kiski contest but it is very doubtful whether the yearlings have improved sufficiently to put up an air tight defense or to bang the Bellefonte pitcher all over the lot. Coach Klosser has had only three days since the Kiski game in which to bolster up the weak spots. The Freshmen are still handicapped by a death of wickets, only two men, Fixter and Kelley being fit for active service. Fixter usually pitching well when given adequate support. He went the entire thirteen innings against the Pitt Freshmen, and will probably hurt tomorrow. The remainder of the line-up will be identical with that which appeared last Monday.

**1919 CLASS WILL HOLD COMMENCEMENT DANCE**

The class of 1919 held an outdoor meeting Monday evening at seven o'clock on the front steps of the Liberal Arts Building with H. D. Rues president. It was decided to hold a Commencement Dance during Commencement Week. The matter is in the hands of Chester Pierce, secretary of the class, the exact time and place for the dance has not yet been decided. The class also passed a motion to hold a smoker sometime between May fourteenth and May twenty-first.

**COLGATE AND VARSITY RUNNERS IN DUAL MEET**

(Continued from first page)

les, 230 yard dash, half mile run, one mile relay, and will be run directly before the Blue and White runners meet Colgate in the same race, each high school event being followed by the same event in the varsity meet.

It is impossible to pick even the probable winners of the meet from the list of the eighteen teams entered for the culture of most of them is about on a par. Bellefonte Academy, with twenty-two men entered has a good chance to carry off the honors. Clearfield High School should show up well in the relay, as they won that event in the high school class at the Penn Relays a few weeks ago. Johnstown, Lewisburg, Harrisburg Tech, Williamsport and Steelton are the first three teams by strong teams and should figure conspicuously in the scoring. The Northeast High School of Phila. has entered the men in the races and West Philadelphia High School will be represented by one man who will run in the two mile event.

The men on these teams will be entertained at the various fraternities while in State College. Medals will be given to those winning first, second and third places in all events except the relays. These medals will be made of gold, silver and bronze and will be awarded in the order named respectively. The first three teams finishing in the one mile relay will receive silver loving cups, while the J. G. White High School Championship Trophy will be awarded to the team which scored the highest number of points in the meet. The winner of the White Trophy is entitled to hold it for one year. Once it is won by any school in three different years, it becomes the permanent possession of that institution. The trophy is held at the present time by the Williamsport High School.

Points scored in the meet will be counted as follows, 5, 3, 2, 1, for the first four places respectively.

The teams which have been entered to date are Altoona, Bellefonte Academy, Bellefonte High School, Berwick, Clearfield, Dubois, Gregg Township Vocational School, Harrisburg Tech, Johnstown, Keyser Preparatory School, Lewisburg, Lock Haven, Northeast, Philadelphia, Peabody, of Pittsburg, State College, Steelton, Williamsport, and West Philadelphia.

The entries for the Williamsport and the State College teams were received too late to be printed in the program of the meet. It might be noted at this time that men from Williamsport will be numbered from 100 to 201 inclusive and those from State College will be numbered from 202 to 220 inclusive.

**GRADUATES ACTIVE ON JUNE PROGRAM**

(Continued from first page)

alone will attract many former Penn State students to return to the campus. An amendment to the Constitution of the Association that will vitally effect the graduate of the Blue and White institution was presented at the gathering. Dr. John M. Thomas, the new President of the College will be present and will address the meeting. This will be the first opportunity for many of the alumni to meet him. Following the meeting, the old grads will go to the Big Tent on the Front Campus and attend the luncheon especially prepared for them.

Visitors and students may not see the former Penn State men and women parade this year, on account of the many other activities. This annual feature may be omitted although it has not been definitely decided. As the track meet with Pitt starts at one p. m. and the ball game with the Panthers follows at three thirty, there will be no time in between for the procession.

The last and what will be one of the biggest events of the day will be the informal reception to President and Mrs. M. Thomas and Dr. and Mrs. E. Sparks at nine o'clock in the Women's Building. This will be the first opportunity for the alumni to welcome President and Mrs. Thomas and it is expected that a large crowd will attend. Arrangements for this function have been placed in the hands of the Alumnae Club of the College. Dancing, card playing and a general get-together are being planned for this wind up of the full day.

The Department of Grounds and Buildings is seeing that the Campus will be at its best for the big affair. Workmen are now improving it by planting grass in the bare spots so that the grounds will be green for Commencement Week.

**THIS WEEK WINDS UP SPRING GRID PRACTICE**

Progress is being shown daily by Coach Harlow's proteges in their practice each afternoon on Old Beaver Field. The squad is devoting the evening part of its time to mastering the fundamentals of the great American game so that they will be better prepared to undertake the more advanced work on the varsity squad next fall. The work at the present time, then, is made up of practice in dummy work, kicking and punting. It is very improbable that any scrimmage will be undertaken this spring and for that reason no definite idea of the men's ability can be had. As Coach Harlow says, the spring practice is more to teach the principles of the game than to get any actual football training. The practice which ends this week, has done the squad a great deal of good and has given the squad a good start for the fall season.

**Alumni Notes**

W. W. Mills '03, Arlet, Pa. is one of the oldest living graduates of Penn State. He recently attended a dinner of alumni at Scranton and is much interested in the happenings at State College.

J. E. Hines '07, was elected last fall and is now a member of Congress from the Sixteenth Congressional District of Ohio.

Louis F. Coffano '16 is in Greece, the country of his birth, and it is thought that he is with the Greek army. Mr. Coffano ran away from school in Greece when he was about twelve years of age, and worked his way around the world until he came to the United States, which became his adopted country. In 1912 he entered Penn State in the course of Agronomy and graduated in 1916. He then enlisted in the United States Army and took part in the World War. Later, while on a visit to Greece, he got caught in the military operations of that country where he is now, if all reports are true.

Captain Harris D. Buckwalter '10, who was one of the first Penn State men to lose his life in the World War was recently buried at Troyes, France. Captain Buckwalter was in command of a company of infantry constructing trenches when he was killed by a high explosive shell which fell within a few feet of him on a picked night. Death was instantaneous.

Mr. B. H. Rawl, who is one of the most widely known dairy specialists in the world, took special work at Penn State some time ago. He has been with the Department of Agriculture for sixteen years. He has been largely instrumental in bringing about the great advance of the past decade in scientific dairying.

Fraternity baseball games scheduled for tomorrow and next week are as follows:

Saturday, May 14  
Phi Gamma Delta vs Theta Xi—Diamond No 1  
Alpha Zeta vs Kappa Sigma—Diamond No 3  
Kappa Delta Rho vs Sigma Phi Epsilon—Diamond No. 1  
Monday, May 16

**JUNIOR SOCCERITES HOLD SOPHS TO SCORELESS TIE**

The final game of the interclass soccer schedule was played last Wednesday night, when the Juniors held the Sophomores to a scoreless tie. After playing an extra period, it was finally decided to play off the tie at a later date. If the Sophomores win this game it will mean that they have won the interclass championship, while if the Juniors win, a tie will result between the Juniors and Sophomores.

During the first half of the game, neither team gained any great advantage. The lines of both teams did consistent work and kept the ball well out of dangerous territory. At the beginning of the second half, the Juniors

started out with a rush and nearly succeeded in kicking a goal several times. The half finally ended with neither team scoring. It was then decided to play an extra period. During this period both teams fought hard to score but were unsuccessful in their attempts.

**OTHER COLLEGE NEWS**

**DARTMOUTH**—The varsity Golf team opened the season last Friday by defeating the Columbia golfers, 7-2, on the local course. The Green's next big contest is with the Penn team at Philadelphia.

**GEORGIA TECH**—A "Greater Tech Campaign" is in progress, and students are soliciting \$157,500 for their college. The entire city of Atlanta has been divided up into twelve zones, and an R. O. T. C. Company was assigned to cover each zone. The first day's subscription totalled over \$40,000.
