

MANY CHANGES MADE IN FACULTY PERSONNEL

Fifty-two new members have been added to the teaching staff of the college to take the places of those who have resigned and to provide for needed expansion.

Most of the appointments were made to fill the positions vacated by the forty-one professors and instructors who left during the past year. Of the various departments of the college, the Summer Session personnel shows the greatest change.

The following is a list of the additions to the faculty:

- Chambers, W. G., Dean of the Summer Session and of Educational Extension.
Dutcher, Raymond A., Professor of Chemical Agriculture and Head of the Department of Chemical Agriculture.
Keller, J. Orvis, Associate Professor of Industrial Engineering.
Dankels, Paul A., Assistant Professor of Engineering Extension.
Edington, William B., Assistant Professor of Mathematics.
Fowler, Clyde A., Captain of Infantry, U. S. A., Assistant Professor of Military Science and Tactics.
Francis, Emma, Assistant Professor of Chemical Agriculture.
Sanford, P. L., Assistant Professor of Poultry Husbandry Extension.
Thomas, H. E., Assistant Professor of Botany.
Bardole, M. S., Instructor in Chemistry.
Bustess, I. N., Instructor in Civil Engineering.
Day, Ella J., Instructor in Home Economics Extension.
Demmer, Albert, Instructor in Electrochemical Engineering.
Dunar, David D., Instructor in Physical Education (Westing).
Dwyer, P. S., Instructor in Mathematics.
Feely, Charles F., Instructor in Engineering Extension.
Field, Helen E., Instructor in Spanish and French.
Forbes, A. H., Instructor in Electrical Engineering.
Gibbs, Clarence D., Instructor in Electrical Engineering.
Huey, Clarence B., Instructor in Chemistry.
Meyers, Elbron H. B., Instructor in Physical Education.
Olmstead, R. H., Instructor in Dairy Husbandry Extension.
Pakonham, P. C., Instructor in Economics.
Rutherford, Robert, Instructor of Physical Education and Superintendent of the Golf Course.
Seifing, Frederick G., Instructor in Chemistry.
Shibill, Jabir, Instructor in Mathematics.
Smith, Evelyn, Instructor in Domestic Science.
Vannant, Fred T., Instructor in Mechanics.
Wols, R. H., Instructor in Economics.
Wheeler, Elizabeth W., Instructor in Domestic Science.
Wright, Brandon, Instructor in Agricultural Extension.
Beadles, Ethel, Assistant in Home Economics Extension.
Cott, Blanche, Assistant in Home Economics Extension.
Collins, Bertine, Assistant in Home Economics Extension.
Davis, Rachel, Assistant in Home Economics Extension.
Donahon, Erna, Assistant in Home Economics Extension.
Elliott, Esther, Assistant in Home Economics Extension.
Forbes, Anne, Assistant in Home Economics Extension.

- Economics Extension.
Halter, P. J., Assistant in Forestry.
Heitch, Mary, Assistant in Home Economics Extension.
Koenig, Paul, Assistant in Animal Husbandry Extension.
Lewis, Marjorie L., Assistant in Home Economics Extension.
Lille, Barbara, Assistant in Home Economics Extension.
Mason, Sarah, Assistant in Home Economics Extension.
Nitzkowski, Eureka, Assistant in Home Economics Extension.
Putney, W. T., Assistant in History.
Read, Cecil A., Assistant in Dairy Husbandry.
Thomas, Charles A., Assistant in Economic Entomology.
Wilson, Evelyn, Assistant in Home Economics Extension.
Tysan, John D., Teaching Fellow in Mechanical Engineering.
Zierdt, Charles E., Teaching Fellow in Agronomy.
Steelman, Mrs. L. W., Nurse.
E. R. Smith, Professor of Mathematics, Director of Summer Session.
J. D. Crowell, Associate Professor of Spanish.
J. O. Knass, Associate Professor of History.
R. M. Armstrong, Associate Professor of Teacher Training in Vocational Home Economics.
Lillian H. Locke, Assistant Professor of Teacher Training in Vocational Home Economics.
Clara G. Turner, Assistant Professor in Domestic Science.
Mamie Arnold, Instructor in Home Economics Extension.
J. P. Ballantine, Instructor in Mathematics.
C. D. Berger, Instructor in Physics.
Marguerite Blery, Instructor in Home Economics Extension.
W. H. Cole, Instructor in Zoology.
D. R. Duen, Instructor in Romance Languages.
Mildred N. Gardner, Instructor in Domestic Art.
Alice H. Haley, Instructor in Teacher Training in Vocational Home Economics.
A. R. Hartzell, Instructor in Chem.
Carl Hartzell, Instructor in Spanish.
Belle Hubbard, Instructor in Home Economics Extension.
M. W. Klosser, Instructor in Bacteriology.
M. J. Maxfield, Instructor in Electrical Engineering.
J. W. Mitten, Instructor in Dairy Husbandry.
W. W. Patchell, Instructor in Civil Engineering.
P. C. Quilian, Instructor in Physical Education.
Grace A. Rust, Instructor in Domestic Science.
O. H. Sabold, Instructor in Spanish.
C. M. Schoorl, Instructor in Electrical Engineering.
J. W. Sternberg, Instructor in Hist.
J. T. Taylor, Instructor in History.
Grace M. Thatcher, Instructor in Home Nursing.
R. H. Ware, Instructor in Economics.
W. E. White, Instructor in Mechanics and Materials of Construction.

Rose Andrews, Assistant in Home Economics Extension.
Iola F. George, Assistant in Home Economics Extension.
H. R. Laub, Assistant in Chemistry.
Hazel M. Shultz, Assistant in Home Economics Extension.
L. W. Smith, Assistant in Forestry.
Frank Wroner, Assistant in Forestry.

STUDENT DIRECTORY NEARING COMPLETION

The student directory for the school term 1921-22 is being made up by the students having charge of the work and will be on sale in three weeks. For several years, it has been the custom at the college to publish a directory of all students enrolled in all courses of the fall term of college in a handy volume that can be purchased at a nominal cost.

In times past, a very small percentage of error has occurred in the contents due to the fact that many of the students are not settled at their respective residences until about three weeks after the opening of the term and no way had been found to correct this fault.

The following men have severed their connections with the college during the past year: E. R. Smith, Professor of Mathematics, Director of Summer Session.
J. D. Crowell, Associate Professor of Spanish.
J. O. Knass, Associate Professor of History.
R. M. Armstrong, Associate Professor of Teacher Training in Vocational Home Economics.

"DADDY" GROFF SOON TO VISIT PENN STATE

Mr. G. W. (Daddy) Groff is expected to arrive in Penn State about the last of the week. "Daddy" Groff has not been loafing on the job as evidenced by the fact that the Chinese government has appropriated \$100,000 a year for the next ten years for the Canton Christian College, which was founded by and is supported by Penn State. Not only this, but there is also the possibility of securing next year \$700,000 extra for buildings, since the other gift is meant for general maintenance.

MANY ATTEND R. O. T. C. CAMP AT PLATTSBURG

Varied Daily Program Keeps Students Interested in Work—Athletics a Feature

Penn State was well represented this summer at the R. O. T. C. camp at Plattsburg, N. Y., where seventy-eight students spent part of the month of June and July in military training. Lehigh University, with one hundred and forty-seven men at the camp, was the only school there with a bigger representation than the college.

A total of nine hundred and eighty-one students from thirty-eight institutions of seventeen states attended the Plattsburg camp. This was the first year that the R. O. T. C. camp was held at Plattsburg and all favorable comments were made concerning this ideal place for an infantry camp.

The group from Penn State was divided into two sections, one of advanced corps men and one of first students. The former consisted of fifty-four students who had completed four semesters of drill at Penn State and the other group of twenty-four were those who had drilled less than four semesters at college.

FIRST CLASS MEETING

The first meeting of the freshmen girls was held in the Old Chapel on Tuesday evening when Miss Florence Allen '22 welcomed them as a class in the name of the Women's Student Government Association. Miss Agnes Nowan '22, President of the Girls Athletic Association, and Miss Grace Youm '21, President of the Y. W. C. A., conveyed words of greeting from their respective organizations.

days and Saturdays the work ended at noon, each evening, after supper, three inter-company baseball games were held and two inter-company track and field meets were staged during the period of the camp. Tennis, swimming and other sports also took care of the students' spare hours, while week-end boxes were also added to the variety of the camp.

The entire staff of the Department of Military Science and Tactics at Penn State attended the camp at Plattsburg and did much to make the Penn State group feel more at home. Commandant of Cadets, Colonel G. B. Conant, was the executive officer. Major M. D. White was the adjutant, Major H. B. Johnson was director of pistol firing and Captain G. L. Feltner was a company commander.

Wanting Officer Bracken was an instructor in bayonet and in swimming, and Sergeants Lennon, Guadack and Bonway also assisted in the work at the camp.

A staff of fifty-nine commissioned officers were in charge of the work at the camp and through their interest was the institution of five weeks made a success. Fifty warrant and non-commissioned officers were also stationed at Plattsburg during the period of the R. O. T. C. camp.

FROM CO-EDS HOLD

The first meeting of the freshmen girls was held in the Old Chapel on Tuesday evening when Miss Florence Allen '22 welcomed them as a class in the name of the Women's Student Government Association. Miss Agnes Nowan '22, President of the Girls Athletic Association, and Miss Grace Youm '21, President of the Y. W. C. A., conveyed words of greeting from their respective organizations.

GOLFERS PRACTICE FOR COMING TOURNAMENTS

Everyone Eligible To Complete For College Championship Late This Month

Great improvements have been made on the golf course this summer and everything points toward an active season on the Penn State links with tournaments of all kinds scheduled in the near future.

Qualifying rounds for the first golf tournament at State College will commence on Monday the twenty-sixth of September. The first thirty-two to qualify in these rounds will continue in the finals when two groups of sixteen will contend for the golf championship of the college.

Another activity which will soon be staged on the greens is the inter-unit tournament. No definite plans have been made for this affair but action is now being taken and matches for unit championship are almost sure to be a reality.

DRY CLEANING & PRESSING QUICK SERVICE WORKMANSHIP GUARANTEED

daily interest in this sport by the students is being manifested by the many lower classmen who are scheduling golf as their fall sport.

Townpeople and visitors to the college may now play golf at a reasonable rate. A fee of five dollars a month, two dollars and a half for two weeks or seventy-five cents a day is now being charged for all who are not students. This amount is necessary to help pay for the wear and tear on the greens caused by the great crowds using them.

The golf course has been improved greatly this summer. All of the new greens are now open and the hazards will be filled with sand in a few days. An office has also been opened near the first teeing ground. All students and others must sign here before going on the course.

George Westinghouse. Thirty years ago, the alternating current system was but an infant, for whose life those who believed in it were fighting daily and nightly battles; today this same system is a giant of almost inconceivable size, so capable of defending itself that no one seeks to attack it. For 95% of the electricity that is generated and transmitted today is alternating current. The story of the development of alternating current is a story of courage and vision and faith, of misunderstanding and misrepresentation; of engineering failures and triumphs; of commercial ability and organization. It reads like a classic romance. In its chapters are credit and honor for all who have deserved it, but the central figure, the man whose motives and acts furnished the basis of the plot, was George Westinghouse, the founder of the Westinghouse Industries. When, in 1886, he brought over from Europe the crude Gaulard and Gibbs system, even he, great as was his foresight, did not dream of the coming magnitude of the idea which he was fostering. The development work undertaken by the strong engineers whom he put to work led at first into many serious differences with those who favored direct current. Legislatures were even impo-
