Successful 0	
Yards in Scrimmage	
Penn State 256	Georgia Tech 147

The first was Captain Snell, in place of Knab. This move was entirely unexpected, and the State section went wild with glee at seeing the Blue and White captain go in once more, after his illness of several weeks' duration. He played a fine game during the short time he was in. The second substitution was made shortly after, when McCollum injured his shoulder. Smolinsky was sent in to replace him, and did fine work. Many substitutions were made in the Georgia line-up, but they did not avail in stemming the tide which was battering Tech to defeat.

Killinger Was the Star
The outstanding figure throughout the entire course of the game was Penn State's famous quarterback, Glenn Killinger. His handling of difficult punts, his wonderful ability in carrying the ball, either through the line or around the ends, his cool headed generalship of the highest caliber, his beautiful work in forward passing, his great leg as a kicker, all these things made "Killy" the real hero of the game. His wonderful run of eighty-five yards for State's first touchdown in the first quarter was the most spectacular feature of the game.

Lightner and Wilson also figured largely in State's victory over the Penn State's famous quarter-back, Glenn Killinger. His handling of difficult punts, his wonderful ability in carrying the ball, either through the line or around the ends, his cool headed generalship of the highest caliber, his beautiful work in forward passing, his great leg as a kicker, all these things made "Killy" the real hero of the game. His wonderful run of eighty-five yards for State's first touchdown in the first quarter was the most spectacular feature of the game.

EXCHANGE OF TICKETS FOR TECH GAME

Tickets for the Carnegie Tech game will be exchanged on the first floor of Old Main according to the following rules:

Seniors and Juniors—This afternoon and this evening, starting at 3:00 p. m.

Sophomores and Freshmen—Wednesday afternoon and evening, starting at 4:00 p. m.

Fraternities and clubs will be able to secure seats in blocks, one man being allowed to make the purchase or exchange for the entire organization.

RESTORATION OF HORT BUILDING WILL TAKE PLACE IMMEDIATELY

Work on the restoration of the third and fourth floors of the Horticultural Building, which were greatly damaged by fire last Friday afternoon, will be started immediately according to a statement made by Ray H. Smith, controller of the college. Plans and specifications for the restoration of the buildings are already drawn up and just as soon as they are finished the college will start rebuilding the ruined portions themselves or will let a contractor to some outside building firm in order that the class rooms may be put in operation as soon as possible. Insurance appraisers visited the ruins on Saturday afternoon and it is now known that the original appropriation that the damage would amount to \$35,000 is correct. The entire loss was covered by insurance.

Fire Loss Totals \$30,000—Covered by Insurance—Miss Francis Improving

THESPIANS WILL GIVE TWO PLAYS THIS YEAR

Club Announces Election of Faculty and Student Members

At a recent meeting of the Thespian Club Mr. J. G. Gorman and Mr. George F. Horner of the English Department were added to the faculty directorate of the organization. It is the plan of these two new members to collaborate on the two Thespian productions this season. A brilliant program has been planned this year. The performance will be held late in February and it will be something entirely new in Thespian Activity. It is not drama, it is not a musical comedy, it is spectacle—brilliant, colorful, and creative. The lines were written by Mr. Horner and it is a triumph in color and art. The scenic effects and costumes are of the highest quality. Mr. Gorman and Mr. Horner are both of the highest caliber and their collaboration will be of the highest quality.

TECH STUDENTS COMING IN MASS FOR BIG CONTEST

Special Trains Will Transport Majority of Students to Witness Grid Battle

MANY PA. DAY EVENTS

Program for Holiday Includes Four Athletic Games, Drill, Concert, and House Parties

The location of Carnegie Tech will be moved from Pittsburgh to State College next Saturday on Pennsylvania Day, when an entire tripload of rooters will come here to witness the grid contest between their school and Penn State. House parties at almost every fraternity, the Penn State Club Dance in the Armory, the military review by the student cadets, the one by the Glee Club, and three other athletic contests will attract still many others to Penn State for the coming busy week-end.

About three of every four undergraduates at the Smoky City Institute will migrate to the Nittany Valley, so great is their confidence that the eleven will be victorious. The Tech students will leave Pittsburgh early Saturday morning and arrive here shortly before noon, according to present plans. They will take their special train from State College immediately following the game.

Probably the first event of Pennsylvania Day will be the military review in the morning about ten o'clock, when President John M. Thomas will review the cadets. Judge H. Walton Mitchell, President of the Board of Trustees, may also be present at that time. No other event has been scheduled for the morning, although one of the athletic contests may be played at this time. This may be either the varsity soccer game with Lehigh or the Fresh grid battle with the Pitt Panthers.

In addition to the main attraction of the afternoon, which is the football game with Carnegie Tech, the cross country team will have a contest with Lehigh. The Tech students may also take place between the halves of the game, although the definite time for this event has not been scheduled.

When the glee club has completed its concert in the evening, the house party dances will be continued from Friday afternoon until the athletic meet will attend the dances in the Armory on Friday and Saturday evenings when "Fritz's Select Seven" from Philadelphia will furnish the music. "House Party Queens" numbering about four or five hundred will be at State College for the big week-end.

COLLEGE CHORUS SINGS GOUNOD'S "GALLIA"

Miss Betty Croll '25 Stars in Solo Part—Dr. Sparks Conducts Services

The rendering of the cantata "Gallia" by the college chorus which comprises the two chapel services was the means of making last Sunday's chapel services very inspiring and of considerable educational value. The services were conducted by Dr. E. D. Sparks, who gave a short talk in explanation of the college custom of occasionally substituting the College Chorus for a speaker at chapel.

Dr. Sparks opened the services with the usual scripture reading, and his scripture selection was that used by Gounod when he composed his wonderful cantata. After the preliminary exercises, Dr. Sparks announced that the College Chorus would sing the motif of Charles Gounod's famous cantata "Gallia."

After a solemn and impressive organ prelude, the entire chorus took up the rendition with an overwhelming, beautifully harmonious swell of music. Practically all the chorals parts were of this nature. They seemed to be mighty solemn, unyielding, mighty, but not ponderous, and harmony of the highest order was maintained throughout the entire motif.

Miss Betty Croll '25, who sang the solo parts, is to be commended highly, not only on the superior quality of her voice but also on the manner in which she performed her part. Her melodious soprano voice will without doubt prove to be at most desirable asset to the chorus.

SALVI'S AUDIENCE MARVELS AT TALENT
Alberto Salvi, the world's greatest pianist, with his \$20,000 grand piano was presented to a State College audience last Saturday evening in the Auditorium as the third number of the program of the Y musical and entertainment course. The coming of the great Salvi has been long awaited by Penn State students who have heard much of his renowned fame and skill and it is certain that some of the claims made for this wizard have been doubted but after his concert not one was disappointed and various were the praises from all who heard him.

CARNEGIE TECH HARRIERS SET FOR FAST RACE

Plaid Runners Will Open Cross Country Season Here

OPPONENT'S TEAM SPEEDY

Have Defeated Lehigh and Lafayette by Overwhelming Scores

Next Saturday Penn State will have the first and probably the only opportunity of seeing its cross country team in action on the home course this season. At that time the strong hill and dale squad from Carnegie Tech will meet Coach Martin's aggregation and a close race is sure to result. Since the Penn State team has not engaged in any other encounter so far this year, it is not possible to make a definite comparison of the two teams. The Carnegie Tech team has, however, met two worthy foes in Lehigh and Lafayette and in both of these meets the plaid team secured overwhelming victories. The ability of the Carnegie Tech runners to triumph over two such strong teams as Lehigh and Lafayette certainly gives them the right to be classed as a worthy foe for Penn State.

Tech Has Fast Team
Had the Plaid victories over Lehigh and Lafayette been nothing more than an ordinary triumph, Coach Martin would have little to worry about, but the truth of the matter is that the Carnegie team in both meets literally ran away with all the laurels. At Lehigh the Saturday before last, six of the Sidbo's runners finished before a Brown and White man was able to cross the line and that first man to finish for Lehigh was Captain Bray. It is one of the best men who ever represented Tech on any of the cross country courses. At Pittsburgh last Saturday the Plaid trackmen repeated their Bethlehem triumph by scoring a similar victory over Lafayette. In this case five Tech runners crossed the line before Crawford, the Lehigh runner, and the first man to finish the race was a Penn State man. Crawford is one of the best cross country men in the east. Last year in the Intercollegiate he finished shortly after "Blondy" Romig '21, who at that time captured the championship. Sure-ly, however, Tech runners are strong enough to secure such overwhelming victories they will certainly be able to give Captain Cooper's men a good chase.

Dykeman and Miller are probably the fastest on the Carnegie Tech team. At the season they have been covering the long, hard Tech course in times that average about the same. Miller, at that, might be said to be a trifle better runner than Dykeman. Kelly, Greenlaw, Tubbs, Mendenhall and Long are also very good runners.

In the coming meet, Penn State will probably be represented by seven men who finished first in the trials last Saturday afternoon. These men are Snyder, Captain Cooper, Deek, Wendler, Kiffing, Shields, and either Hamilton or Shultz. In the trials these men finished in the order listed above.

STUDENT REPRESENTS D. A. R. AT READING CONVENTION
The State College Chapter of the Daughters of the American Revolution was represented at its recent convention in Reading by Miss Helen Fell '23, organization regent for this district. Miss Fell, as youngest regent in the society, is hopeful of organizing a strong chapter among the women students of this institution, many of whom are eligible for membership.

Plans for working up a chapter in the college were first promoted by Miss Edwin Dale Sparks, who is the State Regent of the D. A. R. Local members of the organization will be interested to know that it is in the Memorial Hall built by the D. A. R. in Washington that the disunited conference will be held.

AGRICULTURAL SURVEYING COURSE FOR FRESH AG'S
A course in Agricultural Surveying is being given every Wednesday morning at 9:30 in the Old Chapel. This course, composed of talks by the heads of the various departments of the Agriculture School, is compulsory for Freshmen taking the Agricultural course. The main purpose is to acquaint the students with the work and purposes of the different departments. All upper classmen who are interested are invited to attend these lectures and may sit in the balcony as the main floor is for the Freshmen.

SIGNA TA ELECTIONS
H. R. Werhoffer '22
A. F. Parent '22
E. DeW. Klinge '22
W. V. Shultz '22
C. B. Hamilton '22
S. J. Strickhouse '22
D. W. Lewis '22
H. Miller '22
H. B. Wreny '22
A. W. Baestis '22
E. D. Schive '22
R. B. Judwin '22
J. J. Zorlich '22

MANDOLIN CLUB WILL GIVE SUNDAY CONCERT
With several trips and a Sunday afternoon concert being planned to take place in the near future, the Mandolin Club is putting on speed and rehearsing diligently to get in trim for these big events. Thirty men successfully passed the trials which were held recently and each one of those who passed is a first rate stringed instrument musician. The first combined rehearsal of old and new men was held last Friday evening and at that time the new material showed up exceptionally well, promising to give Penn State a better mandolin club than it has had for many years.

N. Y. UNIVERSITY ESTABLISHES DEPT. OF ORIENTAL COMMERCE
A unique subject, "Oriental Commerce and Politics" is being studied at the present time by many students of the New York University. In view of the large number who are interested in Far Eastern subjects, the institution has deemed it advisable to establish a new department and as a result the Division of Oriental Commerce and Politics has been formed for the purpose of studying the economic and political conditions which affect American business relations with the Asiatic countries. The foundation of the new work is a gift from Dr. Jeremiah W. Jenks, Research Professor of Government, who has turned over to the University a library on the Far East. In all United States, there is probably no finer collection of books on the Far East than that which Dr. Jenks presented to the University.

DEAN WATTS GOES TO ALBANY CONVENTION
Dean R. L. Watts and Professor Nisley will attend the Albany Convention of the Vegetable Growers Association of America to be held at Albany next week from November 1 to the 14th. Dean Watts is on the program to give several talks.

LAVIE NOTICE

The Lavie headquarters are now located on the second floor of the library, in front of room K. The photographs will be prepared to continue work on Tuesday, and will follow out the regular schedule for the remainder of the week. In view of the fact that those pictures taken Friday were destroyed, all men who reported Friday are asked to make new appointments and have their pictures taken again, without any additional charge. Re-appointments can be made at the Co-op Thursday evening at seven o'clock.

BIG GRAPPLING SQUAD ASSURES COACH DETAR OF SUCCESSFUL YEAR

"Dick" Rauch May Fill 175 lb. Berth Made Vacant by Graduation of Spangler

Prospects for Penn State's wrestling team seem to be rather bright this year. Coach D. D. Detar of the Varsity, who made an excellent showing last year in the classes he has found good material, although men are still wanted for one or two weights. Practice is still progressing, and night work will be taken up after Thanksgiving.

In the 115-pound class F. L. Watson '22, who made an excellent showing last year in this season exhibiting greater skill than ever. Not only has he benefited by his year's experience with the Varsity, but he has also gained in weight. In most of his bouts last year, Watson was about three pounds under the absolute weight of his class.

C. B. Dickierhoff '23 and F. A. Bruchner '22 are likewise doing commendable work in practice for the lightweight class, and the latter should experience little difficulty in winning a berth on the Varsity squad.

Coach Detar has issued an urgent call for candidates for the 125-pound class, to report after Thanksgiving. To date, Hurst, Winchank '23, F. A. Mattern have made the best showing in the 125-pound division, as none of these last three has ever wrestled in Varsity meets, new candidates for this class will have more chance of winning places.

Among the 135-pounders Williams and Evans display the largest amount of wrestling ability, but they will put forth the best that is in them if they are to overcome the keen competition of Hill, Coleman, Eberhart, and Dickierhoff. Without a doubt these three will wrestle 135 pounds on the Nittany team this year will have fought for their places.

Penn State is exceedingly fortunate (Continued on last page)

NAVY PUTTING STRESS ON PENN STATE GAME
That the Navy is having nothing to do with Penn State is shown by every move that has been made at the academy in respect to the Penn State-Navy game to be played at Philadelphia, November 17. The college are petitioning the authorities to permit them to attend the game in a body. That such a move is extremely likely is shown by the fact that the West Point regiment attended the Yale game a week ago.

The Middlers are backing their team to the limit leaving nothing untended in the near future, the Mandolin Club is putting on speed and rehearsing diligently to get in trim for these big events. Thirty men successfully passed the trials which were held recently and each one of those who passed is a first rate stringed instrument musician. The first combined rehearsal of old and new men was held last Friday evening and at that time the new material showed up exceptionally well, promising to give Penn State a better mandolin club than it has had for many years.

DISARMAMENT PLAN HIGHLY FAVORED BY COLLEGE STUDENTS

Interest in World Problem Rife at Intercollegiate Gathering at Princeton

RESOLUTIONS DRAWN UP

Forty-Two Colleges Represented—Penn State Delegate on Executive Committee

Student sentiment regarding the limitation of armament the world over reached a high point last Wednesday at Princeton. On that day, when representatives from forty-two colleges and universities met and drew up definite resolutions to send to the disarmament conference which is to be held in Washington, D. C., soon. Originally planned as a national affair, the gathering became one of the most important nature thru the attendance of student delegates of Great Britain, Central and South America, and China and its success exceeded all expectations. A total of eighty-two representatives were present at the opening meeting, and the interest and zeal displayed by these individuals in the armament question indicated beyond doubt that the college student is heartily in favor of disarmament. To prove their support of the plan, three resolutions, expressing the nature of the student backing and giving the ideas of the intercollegiate conference on the disarmament conference, were adopted by the students and will be forwarded to President Harding and to the meeting at the national capital. These resolutions will be printed next issue.

Penn State Represented
Desirous of taking an active part in the Princeton conference, Penn State, through the action of the Student Council, sent two delegates, D. E. Overton, President of the Senior Class and C. T. Douda '22. These men were represented throughout the conference and were quite prominent in the work carried on. A permanent organization committee to further the disarmament agitation among the colleges of the world was organized at Princeton. It was chosen as one of the twelve members on this committee. Following this election, another election was held, this time by the committee itself, and an executive committee, which will take charge of the entire organization among the Eastern colleges, was chosen. D. E. Overton was elected Secretary of this select group, the other members being C. Denby, Jr., Princeton, Chairman, J. E. Flynn, C. C. N. Y., and W. R. Kieran, Wesleyan.

The conference was officially opened Wednesday afternoon above the Princeton Club. The Princeton Club, which is the New Jersey Institution who have an address of welcome to the large student delegation and read telegrams from President Harding and Secretary of State Senator Hughes.

Following the address by President Harding, N. S. Clarke, graduate of Princeton in 1909, spoke of the purpose of the conference as the crystallization of the opinion of the college men on the results to be obtained from the Washington Conference. He also stated that America must take the lead in the disarmament movement and that the student body of this country is peculiarly fitted to aid in such work because of their part in the last war. D. W. Kemmerer, a member of the Princeton faculty, and Major Merle-Smith, Third Assistant Secretary of War, under Wilson's administration, addressed the gathering. Mr. Merle-Smith, under name, emphasizing the fact which the students' expression of public opinion would have on the big conference at Washington. A telegram was read by Robert Wilberforce, representative of the English government, expressing the good wishes of the English Universities in regard to the American student movement. Messages were also read from the Pan-American Union, the National Council of the Limitation of Armament, and the Pan-American Student League.

General O'Bryan Addresses Group
On the evening, following a large banquet of the delegates in the Upper-Class Commons, the representatives gathered at a huge mass meeting to hear the opinions of prominent American citizens on the armament question. The most prominent of these speakers were Colonel F. D. Oliver, a Princeton graduate, General O'Bryan, Vernon Kellogg, who was recently returned from the devastated portions of Europe, and Dwight Morrow, a prominent business man. President Hibben closed the conference with a speech which sounded the dominating spirit of the meeting and which showed the importance of the topic under discussion.
