

REGISTRATION HIGHEST IN ENGINEERING SCHOOL

Enrollment Statistics by Various Departments Furnished by Registrar

A total of 1129 students at Penn State, according to final enrollment figures issued by the Registrar, has established a new record for the number of students here. This surpasses the registration of last year by about one hundred.

The School of Engineering, with 1107 men, leads all others in the numbers enrolled. The other schools in the order of their size are, Agriculture, 854, Liberal Arts, 679, Natural Science, 285, Mining, 758, and Department of Home Economics, 145.

The registration by the departments of the various schools is as follows:

The Carnegie Tech Band

Table listing various high schools and their enrollment statistics.

The 578 Freshmen who were matriculated in September, according to the Registrar, were prepared for college in 398 different schools, of which 302 are public-high schools and 36 are private preparatory schools.

Of the 398 different schools that have prepared students for the Freshman Class 365 are located in Pennsylvania, and 33 are situated outside the State.

Forty-six different schools have prepared 380 Freshmen, as follows:

Table listing 46 different high schools and their respective student counts.

Along with other work accomplished at this meeting was the selection of the test piece which is to be sung by every glee club participating in the annual contest.

ROBERT J. MILLER

JAPANESE TOWER CHATEAU DE LOEKEN, BRUSSELS, BELGIUM

Equipped with Otis Elevators

THIS is part of the summer home of Leopold, the Second, late King of the Belgians.

In the homes and palaces of kings; in the public buildings that peasants use, in the gigantic temples of commerce; in countries of eternal sunshine or those where nights are months long--everywhere the Otis organization stretches out its hand to provide vertical transportation.

A circle embracing Otis activities would circumscribe the earth, for world service is the aim of Otis.

Most of the famous buildings of the world are equipped with Otis Elevators

OTIS ELEVATOR COMPANY

represented by a team composed of such stars as "Bob" Higgins, "Ben" Cabbage, "Charlie" Way, Robb and Hess.

The Council also adopted another very important rule which will be the means of providing a decided relief to most of the members of the Club Corporation.

This ruling states that members of a graduate school of any institution are ineligible to sing on any Glee Club competing in this contest of the Intercollegiate Glee Club Corporation.

This provision will place all Glee Clubs on an equal basis.

Yale and Cornell have been admitted to the Corporation this year, so that the total number of clubs in the federation has now reached ten.

They are: Yale, Princeton, Penn State, Columbia, Penn, Dartmouth, Amherst, Cornell, and New York University.

The Music Department was very glad to learn that Penn State's Glee Club will receive railroad expenses to and from State College this year.

Instead of for two hundred and fifty miles only, as heretofore, this will afford considerable financial relief for the songsters.

SENSATIONAL PLAYS IN STATE-PITT 1919 GAME

The proximity of the football game with the University of Pittsburgh brings back memories of games of the past years, when they were the biggest on our schedule.

The 1919 game was sensational in every respect and stands out as one of the greatest games in the history of football.

Penn State had met with defeat at the hands of Pitt ever since 1912, and when the time came for the 1919 game, each team had lost one game.

It was scheduled as the biggest game of the season and attracted attention throughout the country.

The outcome of the game would decide whether the Panther or the Lion was king of the gridiron.

Penn State was represented by a team composed of such stars as "Bob" Higgins, "Ben" Cabbage, "Charlie" Way, Robb and Hess.

With the opening of the game, Pitt got a flying start at the goal after State fumbled and lost ground on a poor punt, but they were held on State's five yard line, and lost the ball on downs.

With Hess behind his own goal, Robb called the signals, and instead of punting as the Pitt team expected Hess threw a forward pass to Higgins who was waiting on the twenty-five yard line.

"Bob", aided by the interference of Way and Cabbage, ran seventy-five yards for one of the most sensational touchdowns known on the gridiron.

Following this there will be a short literary program and the ever popular "cats."

U. S. DEPT. OF AG. JOBS

A recent communication from the office of Development Work of the Bureau of Chemistry of the United States Department of Agriculture shows that H. R. Brown, who graduated from the Milling Engineering course in 1916, is in charge of Dust Explosions and Fires in Mills and Industrial Plants.

Under him are J. W. Reed, who graduated from Milling course in 1918 and L. L. Longenecker, who graduated from the course of Industrial Engineering in 1921.

W. A. Noel who graduated from the Milling Engineering course in 1914, heads the work on Commission Dehydration.

David J. Price, the engineer in charge of Development work, was here frequently during the cooperative investigation on the explosiveness of farm mill dusts which is carried on by the Engineering Experiment Station with the Bureau of Chemistry, which is represented by Mr. Price.

BELOW GRADE REPORTS TO BE MADE WEDNESDAY
