**PENN STATE ELEVEN
RATED AS BEST IN EAST**

that the Nittany Lions were undefeated, but chiefly on the fact that Bezdek's eleven set a hard task for itself and was willing to hazard the most difficult of schedules before it would lay claim to any premier honors.

Cullen Cain, of the Public Ledger "Penn State had the hardest schedule in the entire land and did not lose a game. Therefore to Penn State should go Eastern honors in spite of that last and muddy draw."
Thorpe, Official, said
Penn State has without question one of the greatest elevens ever developed.

"State College, Pa., deserved to be termed the capital of the eastern college football world this season, despite its ties with Harvard and Pittsburgh. It was stage-smitten in the Harvard game when the Crimson, with George Owen in the game, got two touchdowns before State recovered from its stadium flight. And Bezdek's men, no more than Pittsburgh, could not show anything on the absolutely wretched Forbes Field gridiron on Thanksgiving Day. It was an attempt at football under the worst conditions I ever saw—State played rings around Annapolis in their game, and, with any sort of a break, would have run up a top-heavy score. And the Navy did not have a slouch of a team as Princeton will admit. And Georgia Tech, a whale of a team, with the best backfield in the country, according to some judges, was a soft mark for Bezdek's men and could not gain against State."

In the East The Nittany County Collegians have played the hardest schedule of any institution of learning in the country. The fact that they have maintained their form from the beginning to the end of a hard schedule is proof that they are a first-class outfit. They opponent that faced Penn State this season had to solve Bezdek's attack after it had developed an offensive play was going to be tried. For this reason the Penn State style of attack was without question the strongest shown on the gridiron. Whitman, Boston newspaper man—

Broadway Hits

The New Edison has the latest song and dance hits from ten days to three months ahead of any other phonograph.

The New Edison RE-CREATES these hits so perfectly that you can not tell the RE-CREATED performance from the original performance,—even if you heard them in direct comparison.

The New Edison plays talking-machine records better than the machines for which they were made.

Why think about an ordinary phonograph,—when you might just as well have a New Edison?
