

SKATING RINK TO BE A REALITY—BEZDEK

Present Work On Old Beaver Field Is of Experimental Nature

Hugo Bezdek wants the student body to have an ice skating rink. He is enthusiastic about the project, declaring that nothing short of a large rink of about a hundred yards square will satisfy him.

The work on Old Beaver Field has been largely in the nature of an experiment, from which Bezdek has obtained information that will enable him to successfully carry out his schemes.

It conditions are found unfavorable, it will be necessary to abandon the field, and the rink will be located elsewhere.

TWO COURSES IN BIB. LIT. GIVEN THIS SEMESTER

Beginning with the second semester three new courses in Biblical Literature will be added to the curriculum of the college, namely Bib. Lit. 6, Bib. Lit. 5, Bib. Lit. 9.

Dr. Patton's course will take up the study of Paul and his missionary journeys and letters to the Church of Corinth. This course is very important as it teaches the founding of the early Church.

MANY "SHORT HORNS" TAKING DAIRY COURSE

The course in Dairy Manufacturing which the Department of Dairy Industries is offering as one of its winter Short Courses has enjoyed a remarkable popularity among the "Short Horns" this year.

This large increase in the number of Dairy Manufacturing students is attributed to the fact that Dairy Manufacturing interests in Pennsylvania have undergone considerable development in recent years.

Nor will the Short Course students in this work lack good instruction this winter, as practical and experienced teachers count for anything.

SALESMANSHIP IS THE FOUNDATION OF BUSINESS

This is true of all classes of commerce. Almost anyone can make an article but it takes a salesman to get its full value in the open market. Salesmanship should be studied by all college men contemplating a business career.
