GRANGE
Members of the Penn State Grange will receive the sixth State Degree, Tuesday, May 23, 1922, in the Auditorium, at eight p. m., standard time. W. A. McSparran, Master of the Pennsylvania State Grange, will be present, and will deliver an address before the public in the outdoor theatre before the degree work.
The Lehigh Chemical Society will meet on Thursday, May 25th, 1922, at 8 00 p. m. in Room 206, Ag Building. The winner of the senior prize will be announced. This prize, an honor recently granted to Penn State, is a year's membership in the Society of American Chemists. Freshmen and Sophomores are cordially invited to attend the meeting.

FRESHMAN NINE LOSES FIRST GAME OF SEASON

(Continued from first page)
In the fourth frame of the contest after getting to first on a neat single. The Pitt center fielder stole second while Swetonic was at the plate and was then advanced to third on Hartman's error which placed Kincaid first. Brown then attempted a steal home but was caught at the plate by a timely peg to Parshall. The out was nullified, however, when Parshall dropped the ball almost immediately after tagging the Pitt runner.
The visitors registered a double play in the eighth inning when Kerstetter flew to Regan on short. Regan then threw first and caught Johnson off the bag. The final score was 1 to 0.

TECHNICAL MEN ARE IMPRESSED BY NEEDS

(Continued from first page)
and Materials of Construction, P. C. Haldeman, of the Lukens Steel and Construction Company, Coatesville, Engineering Extension, Mr. Gibson on Friday afternoon was devoted to a thorough study of each department and the formulation of a report covering suggestions for improvement in instruction and equipment.
Delegates and Faculty Speak
Short speeches were made by H. D. Hitts, Principal Assistant Engineer, State Highway Department, Dr. Clifford Connelly, Commissioner of Labor and Industry, R. G. Munning, Chief Engineer, American Bridge Company, J. J. Jackson, Chief Counsel for the Westinghouse Electric and Manufacturing Company, and W. B. Wickenden, of the American Telephone and Telegraph Company, New York. The chief point emphasized by all the speakers was that Penn State should be given sufficient support to enable it to accept all the Pennsylvania boys and girls who are qualified to enter.
Professor A. J. Wood of the Railway Mechanical Engineering Department also explained the importance to Pennsylvania of a good engineering research laboratory, and of the work which has already been done along that line, at Penn State.
The work of the Department of Engineering Extension at Penn State was explained by Professor N. C. Miller, Associate Professor of Engineering Extension, who stated that sixty thousand Pennsylvania men and women have received instruction from this department.
Inspect Campus and Buildings Saturday
Saturday morning the visitors were taken over the campus, and inspected the buildings of the College, while the committee chairman were compiling the following report which was adopted by the Conference at its noon luncheon.
To The President and the Board of Trustees.
1—We, the undersigned representatives of about 40 of the leading industries of Pennsylvania, have carefully considered the methods of instruction in the several courses and departments of the School of Engineering in our judgment the instruction is sound and gives due weight to character, citizenship and service to the State. Of the 2500 graduates in engineering, over half are in the state and occupying positions of service to the railways, industries, citizens and the various departments of the State.
2—We have examined the equipment and find it fair in quality, but insufficient to handle the present student body effectively. The equipment is totally inadequate to provide for the instruction of all the worthy, well-qualified young people of Pennsylvania who are applying for entrance to

this, the State Institution. We urge that additional funds to equipment be made on a scale sufficient to provide for the desirable growth of the school, as well as to bring the present instruction up to proper levels of efficiency.
3—Additional buildings are an absolute necessity if the institution is to perform the service which the State and Federal Governments have designated it to do. We heartily endorse the building program which includes a new Main Engineering Building to replace the one destroyed by fire in 1918. A new building for the Department of Electrical Engineering, A new foundry and a new transportation building.
These should be fire-proof structures of simple but dignified appearance.
4—We believe that the Commonwealth should provide for the permanent and proper support of the Pennsylvania State College by a millage tax.
5—We have investigated the salaries of the Faculty and comparing them with salaries paid in similar institutions and in the industries for men of the same age, experience, and responsibilities, we are shocked at the meagre appropriation and low salaries paid in one of the largest and most important schools of engineering in the United States. The teacher is the most important factor in technical education. He should be experienced in his profession, sympathetic with boys, a leader and must by his character reflect the spirit of the institution, which is service. The State owes an obligation to its teachers which it has not paid.
6—We believe in the aid which the Engineering Extension Department is giving to the men in industry by providing courses of instruction which may be pursued in the shop or at home. It has helped thousands of men and women to be better workmen, has been a factor in their promotion and has helped them to be better citizens.
7—The investigation of scientific problems is a necessary function of a State Institution. Many small industries are unable to equip and operate a laboratory for the study of some new product or new process or invention. It is generally recognized as the proper function of the State to help its citizens and its industries in the development of new sources of wealth. To that end we believe that the Engineering Experiment Station of the Pennsylvania State College should receive support from the State.
In conclusion we submit the following:
WHEREAS, the School of Engineering is doing a valuable service to the industries and engineering enterprises of this and other states and nations and
WHEREAS, it has not been supported by the State so that it could receive all those qualified to enter and could not properly compensate its faculty and has unduly overloaded its teaching staff since the number of teachers has not increased and the number of students has increased from 750 to 1189 in 1922—therefore be it
RESOLVED, that the State of Pennsylvania should provide for the next biennium:
New buildings at an estimated cost of \$1,015,000
New equipment at a cost of 175,000
For salaries, maintenance, etc 541,000
For Engineering Extension 60,000
For the Engineering Experiment Station 30,000
Respectfully submitted,
Committee

for the home team by nabbing McCaw's drive to right field and then popping the ball home to Ludwick in time to tap Golden before he had crossed the plate. The fourth inning was uneventful for the Blue and White, for although Palm got a single, Ullery, Lightner and Koehler popped easy flies which were milted.
Another double play featured the fifth round of the game when R. Doherty grounded to Traphoner, who passed to Koehler catching J. Doherty on second. Koehler then threw R. Doherty out on first. Durkin walloped a hot drive to Palm which Bedenk's center fielder nabbed after a sensational run. The Nittanyites were unable to get on base during their half of the inning. Traphoner went down for the first count of three strikes for Wurdick on his time at bat and was thrown out on first, the catcher having tossed the ball.
Dzwilewski came back in the sixth by fanning Cappe, the first man up for the Carnegie Tech nine. The remainder of the frame was without thrills although Golden was left on third when Robertson made the third out by flying to Palm. The inning was also uneventful for the Lions and the score remained 7 to 2 at the end of the frame.
Koehler tripled in the seventh and brought home by Traphoner's hit which also permitted Bedenk to score after getting to first on a bunt. The Lions then went out in order in the eighth and the final tally stood 9 to 2.

STUDENTS ARE URGED TO SEND LETTERS TO DADS

(Continued from first page)
even Montana to get far ahead with their great free State Universities which receive \$5,000,000 or more a year in appropriations. We are going to start telling every one about Penn State and you're elected to help the good cause along.
Let's go, Dad! Write to Professor M. S. McDowell, secretary-treasurer of the Parents of Penn State Association, Old Main, State College, Pa., send him a dollar each for you and Mother as membership dues. Then we'll make it a family affair and "Make Penn State Great." Do that right away—you won't regret it.
NOTE: Here the student writer might add that personal "touch" to most every letter Dads receive that relates to current expenses etc. (Of course we have no suspicion that you might want to do that!) Close the letter as per usual.

BUSINESS MEETING HELD BY FATHERS IN MORNING

(Continued from first page)
M. S. McDowell of State College secretary-treasurer. A constitution and by-laws committee was appointed by President Musser to draw up a constitution for the new association which was presented at the evening mass meeting and accepted.
This organization will branch out in all parts of the state where there are enough parents to form a local branch.

CARNEGIE TECH BEATEN IN FATHER'S DAY FRAY

(Continued from first page)
out in order. Penn State took the offensive in her turn at bat when Ullery scored the first tally of the game on a circuit clout over center field. Palm flew to Wurdick, Lightner grounded to short and was thrown out on first. The inning ended when Koehler was called out while trying to steal second, after getting to first on a hit.
Cappe opened the second round for Tech by flying to Lightner in left field. Golden duplicated his teammate's fly to Lightner which the Nittany left fielder nabbed in a sensational play. Mills got to first when he was hit by a pitched ball. The Tartan right fielder then stole second while McCaw was at bat. McCaw reached first on an error for Sparks but was called out at the plate when he endeavored to get home on Robertson's single. Sparks' error which permitted McCaw to reach first also netted the Skibos their first marker when Mills came home on the third baseman's wild throw.
The second inning was a slugfest for the Nittany diamond armers as they scored five of their nine runs during that period. The frame opened when Bedenk was thrown out on first after grounding to third. Sparks singled, was advanced to second on Cappe's error which placed Traphoner on first, and was then enabled to reach third on a similar error by the Tartan shortstop which filled the bases. Dzwilewski then registered a two bagger and permitted all three of the Nittany runners to score. Ullery made the second out of the round by being thrown out on first after rolling to third. Palm, next in line, then clouted a three bagger over the center-fielder's head and was brought home by Durkin's error which put Lightner on first. The inning ended with the score standing 6 to 1 when Koehler forced the Nittany left fielder out on second.
The third frame was uneventful for the visitors although J. Doherty registered their first hit of the game during his turn at bat. The Bedokian forces added another tally to their score at their time at the plate when Bedenk was admitted to the plate on Sparks' hit, after getting to first on a single. The third inning ended with the score of 7 to 1.
Cappe made the second run for the Tech nine during the next frame when he scored on Dzwilewski's error which placed Mills on first. Golden also tried to score during the fourth but was prevented from crossing the plate by a neat double play featuring Bedek and Ludwick. Bedenk made the final out

of the association. One dollar per year will be charged for dues of charter members. The parents are advised to get in touch with some one who will be appointed and connected directly with the association in their county. This man can be located through the Alumni Association office. For the present a section of the Alumni Publication will be received for the Parents' Association until a monthly publication is later established.

PENN STATE WINS AT PITT INTERCOLLEGIATES

(Continued from first page)
220-yard dash—Won by Zook Bethony, second, Wakefield, Pitt, third, Laughran, Pitt; fourth, Sayers Penn State, fifth Taylor Penn State. Time—21.4 seconds.
140-yard dash—Won by Taylor Penn State, second, Martin, Pitt, third, Moore, Penn State, fourth, Allen, Pitt, fifth, Gilmore, W & J. Time—54.3-5 seconds.
Half-mile run—Won by Helfrich, Penn State, second, Allen, Pitt, third, Duck, Penn State, fourth Edgerton, Penn State, fifth Datcher W & J. Time—2 minutes 11.4-5 seconds.
One mile run—Won by Shields Penn State, second, Enck, Penn State, third, Reuter, W & J, fourth, Allen W & J, fifth, Favcett, Pitt. Time—19 minutes 8 seconds.
Two-mile run—Won by Cooper Penn State, second, Hay, Pitt, third, Taylor, W & J, fourth Snyder Penn State, fifth, Aheane, Pitt. Time—40 minutes 46.2-5 seconds.
120-yard high hurdles—Won by Barron Penn State, second, Kauffman, Penn State, third, Conn, W & J, fourth, Bickley, Pitt, fifth, Hile, Penn State. Time—4.6 seconds.
220-yard hurdles—Won by Barron, Penn State, second, Aldrette, W & J, third, Hile, Penn State, fourth, Kauffman Penn State, fifth, Conn, W & J.
Shot put—Won by Hewitt Pitt, 8 feet 9 1-2 inches, second, Thornton, Pitt, 35 feet 2 1-2 inches, third, Smith, Bethms, 37 feet 4 inches, fourth, Bradlee, Bethany, 37 feet 4 inches, fifth Wilghos, W & J, 55 feet 5 inches.
Discus throw—Won by Ashton Westminster, second, Grimes, Penn State, third, Hewitt, Pitt, fourth, Barker, Westminster, fifth, Murdoch, Pitt. Distance—129 feet 9 inches.
Hammer throw—Won by Howitt Pitt, second, Thornton, Pitt, third, Kelce, Bethany, fifth, Bradley Bethany. Distance—126 feet 6 inches.
High jump—Won by Robusch, Pitt, second, Hechel, Penn State, third, Lie between Wright, Westminster and Green Penn State, fifth, Ribbett, Bethany. Height—5 feet 10 inches.
Broad jump—Won by Grubb, Penn State, second, Elder, W & J, third, Capers, Pitt, fourth, Martin Pitt, fifth Hill, Penn State. Distance—21 feet 1 1-2 inches.
Pole vault—Won by Robusch, Pitt, second, Kice, Penn State, third, Riggs, W & J, fourth Riblett Bethany; fifth, Eakin W & J. Height—11 feet 3 inches.
Javelin throw—Won by Styer, Penn

State, second, Robusch, Pitt, third, Wilghos, W & J, fourth Hile, Penn State and Hewitt Pitt, tied. Distance—147 feet.

MASS MEETING FEATURES SECOND FATHER'S DAY

(Continued from first page)
order opened the ceremonies by making the formal presentation of the trophy to Captain George Snell '22, who accepted the shield in the name of the football team.
The second surprise of the evening came when "Nowah" Bentz '23, captain-elect of the 1922 team, paid tribute to Coach Bedek for his work with Penn State athletics and as "the greatest exponent of character building" that he had ever known. He then presented "Bez" with an attractive gold watch bearing the inscription "To Bez, from Penn State."
The Nittany coach was deeply touched by the token, and in his talk that followed told the assembly that it was their loyalty and support that made every branch of Penn State's athletics a success. "Bez" then told of the fundamental principles of life upon which he based his coaching.

TWO GRADS LEAVE FOR AFRICA NEXT AUGUST

Two Penn State graduates of last year, James P. McKnight and Monte E. Rupp, who are planning to go to Africa this coming August to engage in missionary work, were in State College last week-end, renewing old acquaintances. They have received appointments to the Egyptian Sudan, and will take part

Philadelphia College of OSTEOPATHY

Incorporated 1899
Located in leading medical centre of America, up-to-date laboratories for study of chemistry, physics, biology, anatomy, physiology, pathology, bacteriology, surgery, etc., connected with the new and thoroughly equipped Osteopathic Hospital of Philadelphia, unexcelled facilities for clinical experience.
Four years' course of study with regular attendance at clinics and internship in the Osteopathic Hospital of Philadelphia, leads to Degree, Doctor of Osteopathy. Graduates admitted to State Board Examinations (including those of New York) and practice successfully throughout the United States and many foreign countries.
Entrance Requirements: Standard four-year High School course. Students desiring to qualify for practice in Pennsylvania require credits for a year's work in each of the sciences, biology, physics and chemistry. College preparatory work is valuable, but is not essential to success in practice, and is, therefore, not exacted. Four years in the Philadelphia College of Osteopathy will fit you for your profession. Next term opens September 12, 1922.
For catalog and other literature address:
The Registrar, Box Spring Garden at 19th Street Philadelphia, Pa.

In agricultural work in connection with the mission school under the United Presbyterian Church Board, making a total of twelve Penn State men and women who are now engaged in missionary work in Africa. Seven of this number have gone within the last two years. A map of Africa, about five by eight feet, showing the exact location of our Penn State missionaries by means of cleverly-arranged electric light bulbs, is being prepared by the Student Fellowship Group and will be on exhibition in a short time.
"Jimmie" McKnight has spent the past winter in the South, touring for four months all over the Southern states from Florida to California, and study the different methods of rice and sugar cane production, and irrigation, in order that he may better be prepared for his work in the tropical climate he will be in.

Mining Department to Show Twelve-Reel Film

The School of Mines has obtained from the United States Bureau of Mines a twelve-reel film which includes a complete and perfect photographing of the copper mining industry as it is carried on at Butte, Montana, where is situated one of the largest copper-mining camps in the country. The first six reels of this set will be shown in the Old Chapel this evening at eight o'clock. The remaining six reels will appear in Old Chapel, Monday, May twenty-ninth, at eight o'clock.
