

Welcome to the Students of the Summer School!

SUMMER COLLEGIAN

How Many Have Enrolled for the Very Popular Campus Course?

VOLUME 7, NUMBER 1.

STATE COLLEGE, PA., SATURDAY, JUNE 24, 1922

FIVE CENTS PER COPY

TOTAL REGISTRATION MAY EXCEED 2,500 MARK; CLASSES BEGIN MONDAY

Thirteenth Annual Summer Session at Penn State Will Have Record-Breaking Enrollment

300 COLLEGE STUDENTS HERE FOR SUMMER TERM

The largest summer session in the history of Penn State... These ten words tell the story of the 1922 summer school. All indications point to a record-breaking enrollment, and at least 700 more students are expected than were here last year.

An innovation in the summer session this year has been the system of advance registration, whereby the student and students are obliged to avoid the wearisome waiting that has characterized the registration of other years.

It is estimated that 300 regular four-year students of the college are remaining at Penn State this summer to study for extra credit. Of this number, about 100 are rehabilitation students who have been sent here by the United States government for training along the lines they desire.

TWO LECTURES BY RABBI NATHAN EARLY NEXT WEEK

The first two evenings next week will be given over to lectures by Rabbi Marvin Nathan, of Philadelphia, who comes to Penn State under the auspices of the Jewish Chautauk Society.

MISS POIR WILL SUCCEED MISS SPARKS AS INSTRUCTOR

Because of the illness of her mother, Miss Ethel C. Sparks, who has been engaged as instructor in industrial arts during the summer session, will not be able to fill that position.

GRADUATE SCHOOL AUTHORIZED; DR. KERN IS APPOINTED DEAN

Board of Trustees, in Annual Meeting, Approves New System for Higher Study at Penn State—Project Will Mean Much for the Future of the College

One of the most important pieces of business transacted at the annual meeting of the college Board of Trustees, held last week, was the authorization of a Graduate School for the Pennsylvania State College.

Dr. Kern Appointed Dean. Dr. Frank D. Kern is the dean of Penn State's new graduate school. Dr. Kern, who has been head of the College Department of Botany since 1913, is one of the best known research men at Penn State.

PRESIDENT THOMAS WELCOMES STUDENTS

Penn State welcomes heartily each and every student for the summer session of 1922. We hope it will be for each one the best college term they have ever enjoyed.

DR. FINEGAN WILL SPEAK WEDNESDAY

State Superintendent of Public Instruction to Lecture on "Pennsylvania and the Schools"

One of the most instructive lectures of the early part of the summer session will be given on Wednesday evening at seven o'clock in the Open Air Theatre.

Dr. Finegan is a frequent visitor at Penn State, his last visit being during the recent commencement activities. He is an ex-officio member of the Board of Trustees of the Pennsylvania State College.

THE NEXT ISSUE

Inasmuch as the first number of the "Summer Collegian" is being issued on the day of registration, and contains advance news stories covering all next week, the second issue of the paper will appear on Wednesday, July 5th.

UNIVERSITY IS PLAN OF FUTURE OF PENN STATE

Authorities Hope to Change Name of Institution to "The Pennsylvania State University"

DRIVE FOR \$2,000,000 TO OPEN IN SEPTEMBER

With alumni organizations steadily being perfected in every county of the state, with unqualified endorsement being met on every hand, and with the thrille of publicity wide open, the campaign for a Greater Penn State is gathering momentum with each passing day.

A campaign for \$2,000,000 was first suggested by President Thomas more than a year ago, while in his inaugural address last Fall he asserted his determination to have Penn State—the only free institution of higher learning in the Commonwealth—recognized as the State University.

More buildings are required for the social, athletic and health activities of the present student body of 2,500 men and women and the summer student body of 2,500, while others will be needed when the development of academic facilities will permit the enrollment of a student body of 10,000.

Summer Session Announcements

June 24 to July 5

Saturday, June 24
8:00 a. m. to 10:00 p. m.—Registration for summer courses completed in the Army. Offices of Treasurer and Dean of Summer Session open 8:00 a. m. to 10:00 p. m.

Sunday, June 25
7:00 p. m.—Song Service. Address by President John M. Thomas. Open Air Theatre.

Monday, June 26
8:00 a. m.—Summer Session Classes begin.
8:00 a. m.—First Session of Intensive Course in Sociological Foundations of Curriculum Making. Room 200 Hort.

10:00 a. m.—First Session of Speech Clinic. Public School Building.
2:00 p. m.—First Session of Three Weeks' Course in Methods of Americanization. Room 14, Liberal Arts.

7:00 p. m.—Lecture by Rabbi Marvin Nathan, of Philadelphia, "Who Were the Pharisees?" Open Air Theatre.

Tuesday, June 27
8:00 a. m.—Demonstration School Classes Begin. Public School Buildings.
7:00 p. m.—Lecture by Rabbi Nathan, "The Blank Leaf between the Old and New Testaments." Open Air Theatre.

8:00 p. m.—Round Table Conference on Industrial Education, in Charge of Dr. A. S. Hurrell, Assistant Dean of the Summer Session. Room 200, Eng. Bldg. D.

Wednesday, June 28
7:00 p. m.—Lecture by Hon. Thomas E. Finegan, State Superintendent of Public Instruction, "Pennsylvania and the Schools." Open Air Theatre.

Thursday, June 29
7:00 p. m.—Lecture by Hon. Hamilton Holt, Editor of The Independent, New York City, "The Limitation of Armaments." Open Air Theatre.

Friday, June 30
2:00 p. m.—Dr. Charles H. Keene, Department of Public Instruction, will meet all who are taking the School Nursing Course, in a Special Conference in Old Chapel.

7:00 p. m.—Lecture by Dr. Hamilton Holt, "The League of Nations Accomplishments." Open Air Theatre.

Saturday, July 1
1:30 p. m.—Mountain Excursion. See Bulletin Boards for Particulars.
7:00 p. m.—Lecture by Dr. Hamilton Holt, "Editing a Magazine."
8:00 p. m.—Reception to Summer Students and Faculty. Informal. Lawn of Women's Building.

9:00 p. m.—First Summer Session Dance. Admission to be charged. Armory.
Sunday, July 2
7:00 p. m.—Song Service. Address by Rev. Dr. Samuel Black McCormick, Chancellor Emeritus of the University of Pittsburgh. Subject, "Christianity and Democracy." Open Air Theatre.

Monday, July 3
11:00 a. m.—First Session of Intensive Three Weeks' Course in Nutrition for Teachers. Room 11, Liberal Arts.
4:00 p. m.—Lecture by Mrs. Chester B. Story, of Pittsburgh, "As Others See Us." Old Chapel.

7:00 p. m.—Dialect Readings by President John M. Thomas. Open Air Theatre.
Tuesday, July 4
7:00 p. m.—First Appearance of the Summer Session Players under the Direction of Mr. Arthur Charles Cloetingh, "Nothing but the Truth." Auditorium. Tickets, 75 cents.
8:45 p. m.—Round Table Conference on Industrial Education. Room 200, Engineering Building D.

THREE LECTURES TO BE GIVEN BY HAMILTON HOLT

Former Editor of "The Independent" to Come to Penn State Last Part of Next Week

SPEAKER IS KNOWN THROUGHOUT NATION

One of the best known and widely read editors in the United States, the Hon. Hamilton Holt, will come to Penn State and give a series of three lectures during the coming Thursday, Friday, and Saturday evenings. Like all the other evening gatherings of the summer session, these lectures will begin at seven o'clock, and will be given in the Open Air Theatre.

Dr. Holt's subjects have been announced as follows: Thursday evening, "The Limitation of Armaments"; Friday evening, "The League of Nations Accomplishments"; and Saturday evening, "Editing a Magazine." The lecturer will speak on each of these from the point of view of an eyewitness and from experience. As an editor, he has closely followed the movement for the limitation of arms, and he will have first-hand information on the League of Nations, for he was the representative of the League to Enforce Peace at the Peace Conference of Versailles in 1919.

And as for telling about the editing of a magazine, Dr. Holt will have experience and anecdotes innumerable to relate. He became connected with "The Independent" in 1897 and he remained as managing editor of that journal until 1913. In that year he became editor and owner, and the following years saw the gradual rise of that magazine until it was one of the leading magazines in American political, public and social life. He remained as editor of "The Independent" until October 1st of last year, (1921), when his journal was absorbed by the "Weekly Review," although still published under the old title. For some months after the merger, Dr. Holt acted as consulting editor of the consolidated magazines, but a perusal of the staff at present shows that he is no longer connected with the journal, in an editorial capacity.

Born in Brooklyn, August 18, 1872. (Continued on third page)

DR. W. G. CHAMBERS IS NEW DEAN OF SUMMER SESSION AT PENN STATE

DEAN CHAMBERS GREETES STUDENTS

The officers and faculty of the Summer Session extend to you all the most cordial greetings. Through the generosity of the Commonwealth we are enabled to extend to you here among the beautiful mountains of Pennsylvania the opportunity for summer study which were undreamed of a generation ago.

WILL GRANT CHAMBERS

Successor to Dr. E. R. Smith Was Formerly Dean of Education at University of Pittsburgh

ASSUMED DUTIES AT PENN STATE EARLY LAST FALL

One of the most important changes in the history of the summer session occurred when Dr. Will Grant Chambers was appointed Dean of the Summer Session and Educational Extension at Penn State. Dr. Chambers assumed his duties on the first of September last fall, coming here from the University of Pittsburgh, where he had been Dean of the School of Education for eleven years. He succeeded, as Dean of the Summer Session, Dr. Edwin R. Smith, who had filled the position for a number of years and who resigned last year to become Head of the Department of Mathematics at Iowa State College, at Ames, Iowa.

It is quite certain that no better man than Dr. Chambers could have been chosen for the position of Dean of the Summer Session and Educational Extension at Penn State, inasmuch as the results of his efforts since coming here last fall speak for themselves. During the year, under his supervision, extension courses were established in Pennsylvania, mostly by the evening route. The largest number centering around Pittsburgh and Erie. In these courses 2,857 were enrolled and 86 per cent earned college credit toward a degree. As this educational extension work is for the benefit of teachers, most of the courses taught were in liberal arts and education. These classes met two hours a week for sixteen weeks each semester, the time being late afternoons or evenings or Saturdays. The faculty was drawn mostly from other universities and normal schools near at hand, as well as from the State Department of Public Instruction. About eighty-five students were taken care of in correspondence.

Dean Chambers' Career

Such is the record of Dean Chambers so far, in addition to preparing for what is the largest summer session in the history of Penn State. Dean Chambers was born in Pleasant Unity, Westmoreland County, Pa., on April 26, 1887, the son of Joseph Harlow Chambers and Susan Binker (Hansberry) Chambers. He attended the Central State Normal School at Lock Haven, being graduated from there in 1917. He then went to Lafayette College, receiving his B. S. degree and his Master of Arts degree in education.

MRS. STORY TO LECTURE HERE MONDAY, JULY 3RD

A lecture of interest to all women students and faculty members of the summer session, and men also, will be given by Mrs. Chester B. Story, of Pittsburgh, on Monday afternoon, July 3rd, in the Old Chapel, at four o'clock. Her subject will be "As Others See Us," and the lecture will deal with proper dress.

PRESIDENT THOMAS TO BE SPEAKER TOMORROW EVENING

Dr. John M. Thomas, President of Penn State, will give the address at the assembly in the Open Air Theatre on the front campus, tomorrow (Sunday) evening, at seven o'clock. This will be the first gathering of the 1922 summer session. A short song service will precede the address.

COURSE IN RADIO IS UNIQUE FEATURE OF SUMMER SESSION

Widespread Interest in Wireless Telephony Has Led College to Offer Classroom Work in Radio; Large Enrollment is Expected

What promises to be the unique course of the 1922 summer session is the course in radio instruction which will begin with the opening of summer school on Monday. In accordance with the great wave of interest and popularity which has followed the development and perfecting of wireless telephony, Penn State is keeping right up to date and offering its students the latest in this most interesting classroom instruction on this subject.

The course in radio will be under the charge of Mr. G. L. Crossley, who is in charge of the wireless station at the college. Mr. Crossley is well qualified to give this course, inasmuch as during the regular college year he teaches it to the seniors who are taking electrical engineering.

It is believed that the logical instruction of the student is such a very popular yet misunderstood subject, as a radio should follow the development of the art by its inventors and scientific workers. It is therefore thought advisable to trace the development of radio with its scientific importance up to the present day.

properties, the three element vacuum tube as a detector, as an amplifier, as an oscillator, and radio telephony and its various applications.

During the course, design and actual construction of apparatus will be taken up to enable the student to get a working knowledge of the subject. Receiving sets of both the crystal detector, for short distances, and audio sets of one or more tubes for medium and long distances will be considered.

An attempt will be made to present the subject from a physical and practical rather than from a mathematical standpoint without sacrifice in technical accuracy, in order that the subject may be easily grasped by the layman. Although a knowledge of elementary physics and mathematics would be desirable, it will not be necessary.

These students who take the course will meet for two recitations and two laboratory periods a week, and upon the completion of their work will receive two credits. The course is a science subject, and comes under the Department of Electrical Engineering. Registration should be made at Dean Chambers' office. Should the first section be filled up, a second or even third section of students will be arranged.
