## GETTYSBURG GAME WILL BE TEST FOR PENN STATE TEAM

### Coach Bill Wood's Veteran Line-up Is Strongest In Years--Lehigh Held to 0-0 Score

A game which is likely to prove quite as interesting as any local gridiron feature here this fall will be played on New Beaver Field tomorrow afternoon when Bill Wood, former Penn State line man, brings his warriors from Gettysburg to do battle with Hugo Beazek's Lions in the third contest of the season. The game is scheduled to begin at three o'clock instead of the usual two-thirty.

The struggle for supremacy with the battlefield boys will not be an easy one by any means and is expected to furnish the first real test for the Nittany grid men. The Gettysburg field held Penn State to twenty-four points last year, and they are reported to be even stronger this fall. Coach Wood is desirous of taking his Alma Mater into camp if at all possible, and it is a foregone conclusion that he will bring a fighting bunch of huskies to New Beaver Field tomorrow.

Hinkle Haines, Penn State halfback in 1919 and 1920, and assistant to Beazek at the Nittany institution this fall, was assistant coach at Gettysburg last year. He predicts a hard battle and intimates that Bill's followers are out for blood. The game at Bethlehem last Saturday in which the powerful Lehigh warriors were held to a 0-0 score, proves that the visitors must not be taken lightly. The Lehigh attack men had three chances to score in that contest but could not come through because they were unable to penetrate the stonewall defense of the boys from the Battlefield.

Gettysburg's veteran backfield is at most intact, and, according to recent press dispatches, the team will start the game here with Smith at quarterback, Breen at left half, the clever Merlich at right halfback, and Galbraith at fullback. At left end Coach Wood will present Singley, with Emanuel at the other extremity. Wolfe and Doran will hold down the tackle jobs, with Dew and Hunter at guards and Gilliland at center. A number of these linemen are recognized as outstanding figures on the gridiron last fall and will have to be reckoned with in the

## REGULAR ARMY NEEDS SECOND LIEUTENANTS

### All Branches of the Service Included in Examination To Be Given by War Department

In order to fill the vacancies existing in the grade of second lieutenant in the United States Army, the War Department has announced that an examination will be held on October twenty-third, 1922, to fill all vacancies existing in the several branches of the service, viz: Infantry, Cavalry, Field Artillery, Coast Artillery, Air Service, Signal Corps, Quartermaster Corps, Engineers and Ordnance Corps.

The War department regulations require that an applicant must be a member of the Officers' Reserve Corps, National Guard, or Organized Reserves. However, practically any citizen of the United States, between the ages of 21 and 30, may take the examination, as his enlistment in the Organized Reserves may be accomplished before the date of the final examination.

## ALUMNI DAY BANQUET PLANNED BY THESEPIANS

The Thespians will give a banquet for the members of the Thespian Club October twenty-first. As the date of the banquet has been set for Alumni Day, it is expected that a number of former Thespians will attend. The program for the occasion is in charge of J. W. Kindt '24.

## A. A. ELECTIONS

The election of the Vice-Presidents of the Athletic Association will be held at the various schools on Tuesday morning.

## ORIENTAL PLAYERS PERFORM TONIGHT

### Japanese Entertainers To Give Novel Bits of Far Eastern Drama and Music

Novel and delightful bits of Japanese entertainment will be offered by Mr. and Mrs. Mitoharu Ongawa in the college auditorium this evening at eight-thirty. Bringing, as they do, the drama, the music, the dances and the legends of the East, the sketches that these two talented Japanese actors present have attracted favorable comment from many of the leading newspaper critics for their originality, charm and manner of presentation.

Mr. Ongawa is a Samurai of the Tokugawa clan which guided the destinies of the Japanese Empire for nearly three hundred years, as its actual rulers. His boyhood days were spent in the practice of the two-handed swords and the long bow.

The program as it appeared in the Tuesday issue of the COLLEGIAN is an attempt by Mr. and Mrs. Ongawa to picture the romantic life of old Japan, fast disappearing before the commercial spirit of today. The first part of the entertainment consists of dances, native songs, legends and instrumental selections. After the intermission they will give, as an example of the latest development of dramatic art in Japan, "The Fox Woman". This play is founded on an ancient superstition that the wicked red fox often took the form of a woman and caused all manner of mischief, and gives a picture of the life and customs of the Japanese farmer.

## MANY STUDENTS IN ENG. EXTENSION DEPARTMENT

The Engineering Extension Department of Penn State is now giving home study courses to a large number of those who cannot enter the college because of the inadequate buildings and limited faculty, and not because the standards of education among the younger generation are lower.

Educational Standards no Lower  
To the faculty of Penn State there is no evidence that the standards of our young people are lower than they have been in the past, but on the other hand the number of high school graduates seeking a higher education at the present time is much larger than was prophesied ten years ago. So rapidly has the number of applicants increased that the facilities provided by the Keystone State, at the college are now sufficient to accommodate only about one-half of those who are fully qualified to start their college work.

The extension courses offered by the Engineering Extension Department of Penn State entitle the learner to credit toward a degree and are exceedingly helpful to many ambitious students who, having made plans to get their college education at the state institution, find that there is no room for them. The courses most called for are those in mathematics, drawing, and industrial organization and management. Among other courses given are those in architecture, structural steel, concrete, mechanics, and heat engines. A distinct advantage possessed by these courses is that the work may be begun any time, and the student may advance as rapidly as his hours of study will permit. Since the fall of the year is the natural time to take up such studies, the department is at present very busy attending to the new enrollments that are coming in every day.

## CAMPUS ORGANIZATIONS PLEDGE TO CAMPAIGN

### Glee Club and Alumni of Lion's Paw Society Each Vote To Give Thousand Dollars

Announcement of the receipt of a check for one thousand dollars from the Alumni Association of Lion's Paw Senior Honor Society and a pledge for one thousand dollars from the Glee Club as their share in Penn State's two million dollar Emergency Building Fund Campaign was made this week by President Thomas, who expressed his enthusiastic appreciation of the generous gift to Penn State.

At the annual meeting of the Lion's Paw Alumni Association last June, action was taken to support the campaign, and the thousand dollar contribution was voted with the understanding that the official presentation was not to take place until the start of the general campaign in the fall. With the opening of the campaign this week, the check was accordingly turned over to President Thomas.

"Lion's Paw Society has come nobly to the aid of Penn State just as the society has always taken a leading part in every movement for the betterment of the college," said Dr. Thomas. "The gift of one thousand dollars is a most generous one and is a fine example of college loyalty and Penn State spirit. It is such support that is bound to make following the action of the Thespians our campaign a success."

## COLLEGE DEBATING TO UNDERGO ORGANIZATION

### Conference Will Be Held at Harrisburg in Order To Effect Permanent Body

A conference for the purpose of effecting a permanent administrative organization to direct intercollegiate debating in Pennsylvania will be held in Harrisburg on October seventh. Invitations have been sent by debating clubs of Penn State to all colleges in the state where more than ordinary attention is given to this traditional form of college activity, asking them to send delegates to the Harrisburg meeting. At least fifteen colleges will be represented. Collegiate debating practices, including the arrangement of schedules, a uniform system of judging and methods of popularizing debates will be considered.

## LARGE ATTENDANCE AT FIRST I. E. MEETING

The first meeting of the Industrial Engineering Society was held last Wednesday night when a large number of students enrolled in the course gathered to hear the head of the department speak. Professor J. O. Keller, a graduate in the class of 1914 and who was appointed to the departmental position at the beginning of this term, explained the functions and the organization of the national Society of Industrial Engineers. At this time, he formally introduced two additions to the I. E. instruction staff: C. Bullinger and C. W. Beese. Mr. Bullinger has had much experience in drafting work, having been connected with shipbuilding companies in this line of work for ten years. Mr. Beese was a chief tool designer before coming to Penn State.

## Student Union Occupies Unique Place in College Life at Illinois

The Illinois Union (University of Illinois) has for its stated purpose "the fostering of a better Illinois spirit." In carrying out this purpose it sponsors a large number of student activities and provides a club-house and social privileges for its members.

The Union occupies a commodious building in the heart of the student district. It provides dormitory quarters for eighty students and dining facilities for six hundred. Besides lounging rooms and a small auditorium, it has a number of committee and conference rooms. Most of the important business of the general student organizations is planned in the Union building. It is available also for smokers and receptions.

Among the duties of the Union are the following:  
Entire charge of Alumni Homecoming.  
Charge of Dad's Day.  
Control of celebrations.  
Control of game excursion trips.  
Supervision of all student elections.  
Management of the Glee Club.  
Management of the Annual Musical Comedy.

## STATE CAMPAIGN DRIVE CONTINUES STEADY INCREASE

### Over \$378,000 Or One-fifth of Goal Now Recorded at Campaign Headquarters

### THOUSAND DOLLAR CLUB HAS THIRTY-SIX MEMBERS

### State-wide Interest in Penn State's Campaign Efforts Shown by Encouraging Reports

The mercury in the big thermometer on the front of Old Main is steadily rising. On Tuesday it reached the \$300,000 while by Wednesday night it had climbed almost to the \$400,000 mark. According to information given out by President Thomas at that time, the total amount pledged to Penn State's Emergency Building Fund has reached \$378,471.82, which is almost one-fifth of the amount sought—\$2,000,000.

This total is made up entirely of various individual subscriptions which have been turned over by students, faculty, Summer Session, potato growers, poultrymen, alumni and others as part of the general fund. It also includes the 1922 Class Memorial and the general student campaign. Up to Wednesday, a total of \$174,740 had been pledged by

## ALUMNI PLAN FOR HOMECOMING DAY

### Many Expect to Arrive on Friday, October Twentieth, for Third Annual Celebration

### SMOKER SCHEDULED FOR EVENING IN THE ARMORY

Alumni Homecoming will be a bigger and better affair than ever according to the plans that are now being considered by the Alumni Association. The whole occasion is to be staged and every effort will be made to insure the Alumni a real welcome "on October twenty-first."

The Alumni will begin to arrive in State College on Friday afternoon and on that night open house will be held everywhere for the returning grads. On Saturday morning a short snappy meeting to boost the campaign for the two million dollar Building Fund will be held in the Auditorium at ten o'clock. The meeting, presided over by George H. Dieke, President of the Alumni Association, will be addressed by President Thomas. Saturday afternoon the game with Middlebury will be an attraction that everyone will attend. Immediately after the game fraternity and club dinners will be held.

The day will be brought to a close by a smoker held in the Armory at a quarter after eight. In addition to the usual "smokes," there will be plenty of pretzels and cider. A feature of the smoker is that there will be no speeches of solicitation for the Building Fund, and the time will be spent in a real get-together of the Alumni.

## SOPHOMORE GIRLS HAVE PLEDGED 100% TO FUND

The sophomore girls finished their drive for the Endowment Fund on Wednesday with the record of one hundred per cent participation. This mark has

## Student Union Occupies Unique Place in College Life at Illinois

Management of all-college dances on Friday and Saturday nights.  
Operation of a second-hand book store.  
Sponsor for the unit system among non-fraternity men.  
From time to time other duties are given to it. For instance, if the governor of the state should visit the college, the Union would represent the student body in planning for his reception.

The Union has nothing to do with student government, Journalism, athletics, dramatics, fraternities, honor system, or women's activities. It is a corporation, the directors of which are faculty, alumni and students. The general student officers are elected by popular ballot. The work of the Union is distributed among seven large departments, and at the head of each is a chairman. Within each department the work is done by assistants who are advanced by the merit system. A paid graduate manager supervises the work.

In spite of a large number of activities of the Union, it is a financially profitable organization. The net profits for the Union dances alone average seven thousand a year.

## HONOR SOCIETIES DEFINE MEMBERSHIP STANDARDS

### Gamma Sigma Delta Admitted to Council—Plans Made for Scholarship Day

At a meeting of the Honor Society Council, held last Tuesday evening, it was voted to amend that part of the By-Laws of the council which defines the requirements as to the eligibility of societies to membership in the council, so as to read:

"To be eligible, a society must conform to the following standards:  
"1. The basis for the election of members shall be primarily high scholarship, but not necessarily that alone. To be entitled to the distinction of high scholarship, a student should be in the upper one-fifth of his class in average grade for all his studies. This standard should be strictly adhered to by those honor societies which now elect from a large number of students; Phi Kappa Phi, Sigma Tau, Tau Beta Pi, and Gamma Sigma Delta. Those societies which now elect from a more limited number of students, including Eta Kappa Nu, Alpha Chi Sigma, Phi Lambda Upsilon, and Sigma Gamma Epsilon, may elect from the upper one-fourth of the class, until such time as a larger enrollment of students in their respective fields shall make it possible to adhere to the higher standard.  
"2. Election to an honorary society shall take place not earlier than the second semester of the Junior year, except that one Junior may be elected in the first semester."

## CHRISTIAN FELLOWSHIP SPEAKER WILL DISCUSS RUSSIAN OPPORTUNITIES

### E. T. Colton Had Wide Variety of Hair-Raising Experiences During Stay With Bolsheviki

Arrested by the Bolsheviki, remaining in Moscow when all other Americans had left, riding through the forests of the Red Guards for three hundred miles in a sleigh—these and many other adventures during his stay in Russia were but incidents in the life of E. T. Colton who speaks here Tuesday evening at seven o'clock in the Auditorium.

A recognized authority on Russian conditions, Mr. Colton will speak on the subject, "Opportunity for American Business and Philanthropy in Russia." This is the third number of the Tuesday evening series conducted by the Student Fellowship for Christian Aid. A special musical program has been arranged in connection with the meeting, and Clifford E. Finley '24, a member of the varsity quartet, has consented to sing several selections. There will also be a mass singing of college songs. Admission is free and there will be no collections or subscriptions taken at the meeting. The meeting is guaranteed to last only one hour.

## American Relief Administration Member

In Russia since 1918, Mr. Colton's main job has been that of feeding university students. In this connection he was a part of the American Relief Administration, on the staff of the Director, Colonel William R. Haskell. Mr. Colton was the representative of the International Committee of the Y. M. C. A. on the Administration.

"The most statesmanlike presentation of the Russian situation that I have heard since the war," was the description that a university professor gave to a talk given by Mr. Colton at the Eastern Intercollegiate Conference of Y. M. C. A.'s held at Silver Bay on Lake George, New York, this spring. Colton speaks on the Russian situation from a world-wide point of view. During his connections with the Y. M. C. A. he has traveled officially in Mexico, Porto Rico, Cuba, Panama, Ecuador, South America, Japan, Korea, China and Manchuria.

## CO-EDS PLANNING FOR VOCATIONAL CONFERENCE

The girl students of the college are planning a Vocational Conference to be held here in December, the exact date having not yet been decided upon. The conference, which will last for two days, will be similar to the one held two years ago and will consist of talks by leaders in many different professions, round-table discussions and personal interviews. The speakers will include representatives from the State Department of Education, professional workers from outside institutions and local business men.

The chairman of the conference committee is Miss Alice Manning, '23, and her assistants are Grace Farley, '24, Flora McCune, '24, and Agnes Taylor, '23. Miss Helen M. Bennett, Manager of the Collegiate Bureau of Occupations of Chicago will again be the Conference Leader.

## STUDENT CAMPAIGN PASSES \$200,000 POINT IN DRIVE

### Complete Reorganization Effected to Insure Thorough Canvass of Student Body

### REGISTRAR ASKS FOR ADDRESS CHANGES

Have you changed your State College address since registering? If you have, go at once to the Registrar's Office and fill out a slip indicating your new address that it may appear in the new College Directory.

## FROSH GRIDMEN TO MEET BELLEFONTE

### First Game of Season Will Be Test for Yearlings—Coach Dissatisfied With Team

### MANY VETERANS ON HEAVY ACADEMY SQUAD

Results of nearly a month's training of the large Freshman football squad under the coaching of "Dutch" Hornmann will be tested for practically the first time tomorrow when the yearlings trot out on Old Beaver at one o'clock, to meet the Bellefonte Academy representatives in the first game of the season.

Predictions as to the outcome would be useless at this time because the real ability of the freshman squad has not yet been thoroughly tested. The only means of forming any conclusions concerning the Blue and White first year men has been by their short scrimmages with the second and third year sides. These clashes showed the fact that the freshmen have a good supply of fighting spirit but lack the skill and experience to carry out movements as they should be.

Taken as a whole the first team, in the coach's eyes, is better to some degree than the first year team of last season, but while some of the candidates are unusually good in their positions, others are a problem in forming a first eleven. Coach Hornmann is not yet satisfied with the work of the freshmen and is depending on tomorrow's contest to make several changes in the line-up.

The line-up of the first team to oppose Bellefonte tomorrow will be the same as has been playing regularly together for the past weeks. McCann and Hissom will start at ends, Kirkoff and Fellows at tackle, Micalske, April or Graff at guards, Grey or House at center. In the backfield, Adams and Johnson are certain of being at quarter and fullbacks respectively. At halfback it will be necessary to use Light and probably Jim Keefe who has shown up well since he came out a few days ago.

## JUNIOR ENGINEERS TO TAKE LEWISTOWN TRIP

The announcement that appeared in the last issue of the COLLEGIAN, stating that all senior mechanical and industrial engineers would make the trip to Lewistown, Monday, October sixteenth, has been revised by the departments concerned to include Juniors. This change has been made because the A. S. M. E. has found that accommodations can be made for both classes, whereas it was at first thought that there would be room for seniors only. It is estimated that about two hundred engineering students will make the trip to Lewistown.

As was stated, this trip is for the purpose of attending the meeting of the Central Pennsylvania Section of the A. S. M. E., and to inspect the Standard Steel plant at Lewistown. This inspection will probably last until three-thirty in the afternoon, when the meeting is scheduled to begin. The chief speaker at this meeting will be Dexter S. Kimball, of Cornell University, President of the A. S. M. E.

## NOTICE OF LA VIE PHOTOGRAPHS

All students who expect to graduate with the Class of 1924 and who are not carrying junior schedules at the present time, are urged to get in touch with H. G. Hoehler, Business Manager of La Vie, at once to have their pictures taken before the photographers leave.

The final effort to raise the last one hundred thousand dollars for the Student Campaign that is to convert Old Main into the new Penn State union, was launched last night when the final reports of the canvassers showed that the sum subscribed to date totaled \$201,940. This figure represents a seventy-two percent participation of the student body in the drive, but it has been decided to continue the campaign until every man now enrolled has been canvassed and the total brought as near the three million dollar goal as possible.

Although the seniors are still at the top of the list, with a seventy-eight percent participation, the Juniors promise to eclipse them in the next few days, as the class now has a percentage of seventy-six. The sophomores and the two-year men are tied for third place with the thermometers of both classes showing a percentage of seventy-four. The freshmen are the only class which has failed to show any marked increase in its participation since the week-end, and they are now trailing at the bottom of the list with fifty-eight percent.

Juniors Show Biggest Increase  
The Junior class has shown the greatest increase in subscriptions since the fiscal returns Saturday night, and have risen from fifty-eight percent to their present seventy-six percent in two days. In the order of amounts pledged towards the fund to remodel Old Main, the freshmen are still leading the classes with \$61,250, the sophomores come second with a total of \$51,650, and the Juniors third with a total of \$43,025. The seniors are at the bottom of the list of the four year classes with \$39,615, while the two-year men have raised their total by only two pledges.

Reorganization Made  
With the last lap of the drive in sight, the campaign officials have effected a complete reorganization of the staff in order that a more thorough canvass of the student body may be effected. The first step in reorganization was that of compiling a new list of the students now enrolled in the four year courses and the two-year classes, which is more up-to-date than the one issued by the Registrar at the beginning of the term. As soon as the new list was compiled, the staff checked off the names of those men who had already subscribed to the fund and turned the remainder over to the new organization for a complete canvass. This method insures every student ample opportunity to subscribe his share towards the Penn State Union as a one hundred percent canvass is now a certainty.

## THE REV. C. G. ATKINS TO PREACH AT CHAPEL

### Detroit Minister Will Conduct Sunday Services for Second Time This Year

Reporting his visit of last April, the Reverend C. G. Atkins of the First Congregational Church of Detroit, Michigan, will come to Penn State on Sunday to conduct the Chapel services. The vivid impression as a strong thinker, which the Rev. Atkins left with the students and faculty members last year has occasioned this second request for his services.

Being a graduate of the Ohio State University, the Cincinnati Law School, and of the Yale Divinity School, as well as being a member of the Phi Beta Kappa, equips the Reverend Atkins to impart a thoughtful, scholarly and interesting sermon. Since this Sunday's speaker is credited with the authorship of several books, in addition to having been awarded the Church Peace Union prize in 1914 for his essay on "International Peace," a double incentive to listen to an eloquence of address and poetical feeling such as this man possesses, is created.

## PENN STATE POULTRY INTRODUCED IN EGYPT

Thirteen hens and two male birds carefully selected from the twenty-five hundred fowl on the Pennsylvania State College Farm have been started from State College on a seven thousand-mile trip to Egypt where they are to be used to establish a better breed of poultry than now exists in that country. Housed in a specially built coop and accompanied by one hundred and fifty pounds of feed, the little family of White Leghorns began its two month trip with all arrangements carefully made for its safe passage by automobile, truck, railroad, steamship, and river barge. The shipment is a gift of the college to a former student, J. P. McKnight, a missionary who sails on the same boat
