STATE COLLEGE, PA., TUESDAY, NOVEMBER 7, 1922

PRICE FIVE CENTS

FARM MACHINERY DEALERS RECEIVE CAMPAIGN LETTER

Head of Farm Machinery and Vehicle Dealers of State Asks for Support

MEMBERS OF THE GIRLS' GLEE CLUB PLEDGE \$200 Headquarters Receives Subscriptions From Alumni—Total Now Is \$707.000

The receipt of subscriptions which brought the total pledged in the \$2,000,000 emergency building fund campaign up to \$707,000, a pledge for \$200 from the Girls' Glee Club and the announcement of the entrance of the farm machinery and vehicle dealers of Pennsylvania into the drive for a dormitory unit for Penn State are the leading features of the past few days in the campaign progress.

The largest receipts for the fund over the week-end came from Cleveland, Ohio. Alumni there sent in pledges amounting to over \$20,000, making the total for the state of Ohio \$26,750. One of the pledges was for \$15,000 from an alumnus who desires not to have his name used. Large individual subscriptions from alumni in New York and Boston also boosted the fund several thousand dollars.

Progress is reported slow and sure in Philadelphia and Allegheny counties. In the former a total of \$1,492 is credited at headquarters, and Allegheny county has \$37,794. Dauphin county is coming along with promises for success in the capital city with a total so far of \$5,300.

Announcement has been made that the Girls' Glee Club of the college has pledged two hundred dollars to the fund to be paid from their earnings. This action places the co-ed organization in the class with Lion's Paw, the Theopians, and the Men's Glee Club, each of which has pledged \$1000 to the fund.

One of the most important outside developments in the campaign thus far was the announcement yesterday that the farm machinery dealers of Pennsylvania have been asked by their leader to join in the erection of one of the men's dormitory units as a part of the \$2,000,000 campaign. A pamphlet with a message from Grant Wright, secretary of the Eastern Implement Dealers' Association, has been sent to all hardware men in the state who deal in farm machinery and vehicles, with an appeal that the men get together and provide \$100,000 for a dormitory and thereby show their interest in the college and attempt to secure additional state support for the college that adequate laboratory and teaching facilities might be provided, especially in the department of farm machinery.

Mr. Wright calls it an "opportunity to invest in education" and says further: "The Commonwealth of Pennsylvania—ranking seventh in value of its agricultural products—is one of few of the big agricultural states of the Union where the farm machinery industry is not recognized by adequate instruction and exhibition buildings at its state university.

Iowa, Nebraska, Wisconsin, Minnesota, Georgia, Illinois and many other states can show fine buildings dedicated entirely to the exposition of modern mechanical methods as applied on the farm.

"The building in which farm machinery courses are taught at Pennsylvania (Continued on last page)

PENN STATE CLUB TO HOLD PA. DAY DANCE

Non-Fraternity Men Secure Pittsburgh Orchestra for Annual Fall Hop

Non-fraternity men will hold two dances over the week-end celebration of Pennsylvania Day. The dances, sponsored by the Penn State Club, will be held on Friday and Saturday nights. The Armory will be decorated for the occasion and music will be furnished by the Tarten Entertainers from Pittsburgh.

Last year the Penn State Club took an active part in the social affairs of the college, staging a number of dances in the Armory. In accordance with this policy the club will hold a dance on Thanksgiving Day.

Although no athletic activities have been started this year, the officers are contemplating an active program during the basketball season. Last year almost every unit entered a team in the inter-unit league and competition was keen until the close of the season.

Varsity Matmen Meet Tonight

All varsity wrestling candidates are to report at the Armory this evening at seven p. m. No uniforms are required. Coach DeTar will speak.

REGISTRAR HAS COUNTY LISTS READY

The Registrar has completed a new county list of all the students who are enrolled at the present time. The names are arranged alphabetically according to counties and a list is available for the secretary of any county club if he will call at the office within the next week.

MANY EVENTS PLANNED FOR PENNSYLVANIA DAY

Exhibits of Various Schools, Athletics, and Concert Make Interesting Program

In spite of the fact that Pennsylvania Day has been erased from the college records as an annual official college event, there will be no lack of fun, good times, and entertainment for all. Beginning with a rousing mass meeting Friday night, the program will consist of a frosh football game, a variety football game, displays and exhibits by the different schools of the college, a military review on Holmes Field, and finally winding up with a glee club concert in the Auditorium.

The different schools are hard at work to excel each other in making displays that will richly characterize their school. The engineers will have exhibits of laboratory apparatus and products of experiment, while the agriculturists will stage a large display of dairy cattle and dairy machinery that has been developed in the past few years.

Practically the entire afternoon will be given over to athletic contests. The freshman team will come up against the Syracuse freshmen, and the varsity will later cap the climax of the day by playing Carnegie Tech on New Beaver Field. The Glee Club concert will begin in the evening at seven-fifteen in the Auditorium with a program that is well worth going to hear.

SPANISH CLUB WILL HOLD FIRST MEETING

The first meeting of the new Spanish Club, which has been organized under the name of "Circulo de los Amigos de la Lengua Espanola," will be held on Wednesday evening, November eighth, at seven-thirty in Room 314 Old Main.

The club is under the direction of Professor Martinez, of the Department of Romance Languages, who has organized it with the idea of giving to the students of Penn State who are studying Spanish a chance to become acquainted with spoken Spanish conversation. Various programs will be arranged for the meetings which will include Spanish lectures, talks, songs, and discussions. Nothing but Spanish will be spoken at these meetings and various subjects concerning Spanish and Spanish-American life will be discussed.

The purpose of the club will be to give the students a chance to cultivate the ability to speak Spanish fluently and to increase their vocabulary. It thus offers itself as a golden opportunity for Spanish students to become actually acquainted with the spoken language of all the Spanish countries in the world which will be invaluable to them in later life.

INTERCLASS FALL TRACK EVENTS WON BY FROSH

Ability and Enthusiasm of Yearling Runners Indicate Good Material for Future Teams

The first interclass fall track and field meet, held last Saturday afternoon on New Beaver field resulted in an overwhelming victory for the frosh, who placed in nearly every event, winning most of them. On account of the fact that very few upperclassmen participated in the meet, it became practically a freshman-sophomore scrap. Time for the completion of all events was not given, since the tie-up scrap and the football game between Pitt and Penn State yearlings intervened, causing the omission of several events and the curtailing of others.

Frosh Do Well The ability and enthusiasm exhibited by the first-year men makes it increasingly evident that coach "Bill" Martin will be justified in his hope of producing crack runners from his 1922 material.

Conway '26 won the 100 yard dash in 10.1, and was followed in close order by Torrence '26 and Wind '25, all promising track men. The 120-yard high hurdles were finished in the following order: Atkinson '25, time 17; Sweeten '26; Carter '23; Frank '25.

Half Mile A Surprise The yearlings sprung a surprise in the half mile run. In that several "dark horses" were entered, and won. Todd, '26, who placed first, was an easy winner in two minutes and fourteen seconds, while Harshbarger '26, placing second, ran a good race, although it was his first experience at Penn State work. Bachelor '26, who is a consistent cross country runner, did not finish as well as had been expected. In this event, he placed third.

FRESHMEN DEFEAT PITT FROSH, 20-6

Nittany First Year Warriors Make Three Touchdowns—Pitt Scores Once in Last Quarter

BACKFIELD PLAYERS DO EXCELLENT WORK

Playing the strongest and most penetrating type of offensive football shown this season, the Penn State freshman gridiron warriors drove through the Pitt frosh for three touchdowns which with two extra points after goal made the final score 20 to 6 last Saturday on New Beaver. The Westerners securing their lone tally in the last part of the fourth period by a belated offensive aided by a weakening of the Nittany line.

The work of the backfield men in their line plunges and end runs against the Panther Cub's defense showed exceptional yard gaining ability in all the positions and their hard driving during the first half coupled with several effective passes was responsible for the three touchdowns. The line, while as strong as at any time during the past games, several times allowed long gains by the Pitt backfield men, during the first half of the game, although the visitors could not come within striking distance of the goal, twice coming down the field in a strong drive, but were stopped by a tightening of the Nittany defense.

W. Baker at quarterback, played a first class game for the yearling aggregation, both in carrying the ball and in running the team. Buckley, Light, Helbig, and Shanks, who played at the halfback positions, did better work on Saturday in ground gaining than any time this season. Several times runs of twenty and twenty-five yards were made which were big factors in pushing across the touchdowns. Light was especially noticeable in his work on off tackle plays. Johnston, who played the entire game, in addition to carrying the ball in scrimmage, showed up well in catching punts on the dead run without one fumble during the game.

Shortly after the play opened a Pitt man fumbled and the ball was recovered by the Nittany yearlings who then started down the field in a steady drive. At times the visitors' defense strengthened but was unable to stop the attack which finally resulted in Buckley scoring the first touchdown. Onyx kicked the extra point.

Pitt on the next kickoff, started a terrific charge against the Nittany line, tearing large holes in the defense. A pass however was intercepted by one of the Blue and White gridmen giving Penn State the possession of the ball. After several line plunges, a pass was made from Baker to Faulkner, right end, who ran through three Pitt tacklers for the second touchdown. Onyx again kicked, making the score 14 to 0.

The third touchdown by the Nittany Cubs was made after a similar drive was started when the Westerners lost the ball on downs. Several long runs brought the ball to the Pitt ten yard line for the third tally. The kick by Onyx was blocked.

Neither team was able to score during the third quarter, the ball exchanging sides several times on downs or punts. During the last period, the Penn State squad, by the aid of two passes and line charges managed to take the ball down to the five yard line where they were forced to surrender it to Pitt on downs. The Blue and Gold warriors opened their final struggle with such force that the Nittany yearlings were unable to stem the rush, with the result that with the ball on the opposing two yard line Gustafson, the Pitt fullback, made their only touchdown of the game. The extra try for the goal failed.

STUDENT COUNCIL WILL CONSIDER POINT SYSTEM

Last year the Student Council was presented with a problem which involved a point system in accrediting college activities to students. The workings of this system were investigated, as it is being practiced in other colleges throughout the country and has been found to be practicable and feasible in schools where there is a variety of campus work conducted solely by the student body.

A report relative to the adoption of a similar system at Penn State was conducted by members of the 1921-22 Student Council. Matters of more import, however, have prevented the present legislative body from developing this plan. Following is an outline of the work that has so far been conducted regarding the point system.

J. L. Martin '24 presented the following summary of his investigations to the members of the Student Council last year, and in addition, compiled a tentative schedule for the crediting of points in the four classes: "One of our present difficulties in the light of student government lies in the fact that a few students are overburdened with college activities. This is not only a condition of the present, but has been a condition of the past, and will continue to be in the future unless some steps are taken to correct or prevent its occurrence. It has been a com-

(Continued on last page)

A Nittany Star

"HAP" FRANK

The success of the Penn State forward passing in the last part of the Navy game was due in a large extent to the alertness of Frank who was kept out of the first three quarters of the contest because of injuries. Since his first game on the varsity team last year, "Hap" has been playing a remarkable brand of ball until now he is reckoned among the Nittany essentials. Few ends can be found in the East who are as capable in tackling and catching passes. He will probably start in the coming game Saturday.

CORNELL HARRIERS WIN SYRACUSE CONTESTS

Penn State Ranks Fourth With Ninety-One Points—Carnegie Tech Finishes Fifth

Syracuse, Nov. 4, 1922.—For the second consecutive year, Cornell won the Syracuse Invitation Cross Country Meet, showing a well-balanced team, despite reports that they were not as strong this year as formerly. The number of points scored by the Cornell harriers was forty-two; Penn State ranked fourth with ninety-one, Horton, Decker, Enck, Wendler, Kreftor, Hamilton, and Loy finished in the order named. Contrary to expectations, Carnegie Tech finished fifth, with a total of 167 points, although Captain Dykeman of the plaid team was the first to cross the finish line. Syracuse, placing third with 55 points also showed an evenly balanced group of hill and dale men.

Joe Higgins, of Columbia, who is intercollegiate two-mile champion, was second to Dykeman, while Bill Case of Syracuse, who has been showing up well for the Orange this season, was third. Dykeman, the plaid captain, was the individual winner, taking the lead soon after the start and keeping it throughout the race.

DAIRY CLUB WILL HOLD EXHIBITION

Manufacturing and Production. Students to Demonstrate Many Activities

EXHIBITS TO BE STAGED AT CREAMERY AND BARN

Plans for the Pennsylvania Day exhibit of the dairy department were the principal topics of discussion at a meeting of the Dairy Husbandry Club last Thursday evening. According to the plans for the showing of dairy products, the dairy barn will be roped off so that the large crowd which is expected will have ample room to move about. The main exhibit of the dairymen will be divided into two parts to include the new dairy machinery and the best dairy cattle.

The cattle will be arranged in groups according to breed and milk production. These cows which have been donated to Penn State by friends of the college will have a prominent place in the exhibit, as well as those that are highest in milk production.

In addition to the main exhibition of cattle, a balanced ration will be on display in another part of the room. The various ingredients that go to make up the ration will be placed on different scales so that the whole may constitute an attractive and interesting showing, and the public will be enabled to get an idea of how stock is fed scientifically and especially for maximum milk production.

A novel feature of the exhibit will be a mechanical milk bottle. A common glass milk bottle will be used for this purpose and will be placed in a tilted position so that the milk will run out. Although there is no connection between the bottle and the sources of the milk supply, the milk automatically runs out of the bottle in a continuous stream, without any visible means of the supply being replaced.

A number of tests on the percentage of butter fat that a given sample of milk contains will also be made before the public. To these tests will be added several moisture tests on butter and cheese that promise to be very interesting.

The plans for the dairy exhibit were drawn up by a committee which was appointed for the purpose from the students of the dairy husbandry department. The Dairy Production Exhibit is under the direction of W. J. Lowry '23, while the Dairy Manufacturing Exhibit is being directed by V. D. Rhodes '23.

The meeting of the Dairy Husbandry Club last Thursday evening was entirely of a business nature and included, in addition to the discussion of the exhibit, the election of James Sutcliffe '23 as vice-president to succeed E. D. Evans '23 who has resigned. The plans of a committee on raising funds for the judging team were presented. It is planned to have stands at convenient places on the campus where dairy products will be sold to visitors.

CO-ED TEAMS OPEN FALL HOCKEY SEASON

First Four Games of Interclass Tournament Played Off Last Week

With four games of the interclass hockey schedule already played off, class rivalry for the championship team is running high among the women students of the college. Hockey is even more popular this year than it ever was before, as was shown by the large number which turned out to witness the opening game of the season last week.

The first game of the season which was played last Wednesday afternoon between the freshman girls and the strong junior team, resulted in a 11 to 5 tally in favor of the upperclass. The freshmen showed keen class spirit at this meet and their forward line frequently dodged the junior backfield and ran the ball to the junior goal. But again and again the longer experience and training of the 1924 team told on the frosh and resulted in the final 11 to 5 score.

The senior and sophomore game, which was scheduled to be played on Thursday afternoon was hard fought and close from the opening blast of the referee's whistle until the final winning goal was pushed over by the sophomore team. The final score was 3 to 1.

On Saturday the juniors met the seniors and won by another 3 to 2 tally. Immediately after the junior-senior game, the sophomores and freshmen met in their annual battle. Again the green team played hard and fast hockey and showed fine class spirit, but once more were forced down to a decisive 6 to 4 defeat.

(By Staff Correspondent)

Arthur Holmes, A.B., A.M., Ph.D.

DR. HOLMES WILL LECTURE TONIGHT

Former Faculty Member to Speak On Subject "Has Science Killed God?"

SPEAKER IS WELL VERSED ON SUBJECT

Dr. Arthur Holmes, at one time President of Drake University and who now holds the chair of Moral and Religious in the Department of Psychology at the University of Pennsylvania, will address the Tuesday evening meeting of the Student Fellowship and Y. M. C. A. groups in the Auditorium tonight.

The Y. M. C. A. course of Tuesday evening lectures has been marked by speeches on the conflicting theories of science and religion, and Dr. Holmes, who has made a special study of this subject and who is exceedingly well versed in all the phases of the question will give an address which will be a fitting sequel to the addresses already delivered. He has chosen for his subject, "Has Science Killed God?", and because of his long association with the teachings of the modern doctrines of religion, Dr. Holmes may be taken as an authority in everything that he says. On account of his active interest in the subject he will be able to give his audience all the most important and vital phases of this modern controversy.

PENN STATE FLIGHTS HARD

It is well nigh impossible to select from these eleven desperate fighters on the Penn State team, one or two men who stood out above all others in the work of the day. The eleven was a fighting, desperate unit, which accomplished almost the superhuman in breaking through the opposing and much heavier line. Both Kratz and Lafferty started strong in the opening plays, being responsible for many of the calls that netted yardage through the center and guard positions. Palm showed wonderful improvement in the passing game but his two could not perform as did Cullen's. The line was a set maul and remained practically impregnable to the sailor attack except in the crucial moments of the play when the breaks were made. Penn State was represented on the Capitol field by a stubborn fighting team which fought against a heavier team and that it fate, Wilson proved to be the best ground gainer, as usual.

SENIORS SECURE "TEN VIRGINIANS" FOR DANCE

The Armory from eight o'clock to one on the night of December eighth is to be the scene of one of the best senior dances ever held at Penn State, according to the committee in charge of the dance. Plans for the dance are nearly complete now. The Ten Virginians, the very popular orchestra, which played at State College last year, is to furnish the music.

Whether or not this dance is to be formal is to be decided at the next senior class meeting. The price of one dollar and fifty cents per couple is to be charged. The orchestra is one of the best that could be procured, and it would not be surprising if the assessment were much higher. This is the same orchestra that played at the Junior Prom, last year, and has played also at dances held after the Syracuse and Navy games.

A large crowd is expected at this dance and it is expected that it will be remembered by those attending it long after they have left the portals of Old Main.

TICKET SALE FOR TECH GAME

Tickets will be exchanged for coupon number ten (10) at the following places between 7 and 8 p. m.

Fraternity House Party groups, Tuesday at Treasurers Office, South Window; Seniors, Tuesday, at Treasurers Office, North Window; Juniors, Tuesday, at Athletic Office; Sophomores, Wednesday, at Treasurers Office; Freshmen, Rehears, Specials, 2 Yr. Acs, Wednesday at Athletic Office.

All faculty tickets will be distributed through the office of the Deans of the various schools. Holders of season tickets may secure reserved seats at any of the above exchanges.

Note: One man may present the coupons for his entire fraternity allotment.
