### Notices

All contributions for the Penn State Alumnae Bazaar should be sent in at once to Mrs. P. H. Dole, 178 West College Avenue, chairman of the Bazaar Committee. This bazaar will be held on November 17th. Proceeds will go to the Campaign Fund.

Tomorrow night, at seven o'clock in old chapel Rev. F. V. of Gettysburg, Philadelphia, will give an illustrated lecture on conditions in South America.

The first of a series of Engineering lectures will be given this afternoon in Old Chapel at 4:30 by Dean Sackett of the Engineering School. Dean Sackett has just returned from a two months' investigating tour of the technical institutions and industrial conditions of Great Britain.

### DR. A. B. CURRY TO TALK ON CAMPUS PROBLEMS

Dr. A. Bruce Curry Jr., Professor of the English Bible in the Biblical Seminary of New York will visit Penn State next week to conduct a series of normal classes for students interested in Bible study. It is possible that Dr. Curry will address the whole student body on campus problems. He will arrive next Tuesday and will leave on Saturday, November third.

Professor Curry is widely known in student Y. M. C. A. circles and for several years has been in charge of the Bible course at the Silver Bay Conference. His keen analysis of the problems of Christianity, scientific, social, ethical and industrial, as well as his broad-minded scholarship, has raised him to the rank of a leader in present day religious thought. A comparatively young man himself, he has always been most interested in the problems of the college man, and many of his books deal with their side of the question.

Dr. Curry presents the problems of college life in a way that grips the interest of every student. An endeavor was made to induce him to lengthen his stay but his program is so extensive that he was compelled to refuse.

What about going home for the weekend? Hire a car and drive it yourself. Make reservations now. Drive-It-Yourself Auto Co. 224 E. College

### ROCKVIEW INMATES ARE GIVEN VARIED COURSES

(Continued from first page)  
 had previously conducted classes on a small scale at the Penitentiary, is helping with the work.  
 "Lack of class room equipment and state funds is somewhat of a handicap, but in this instance the college is making a special effort to make every concession possible in the way of free instruction, free texts and equipment assures a good beginning," said Professor Miller today. "It is hoped that the state will see the urgent need for this type of work on a larger scale at all its penal institutions." Last year similar work was carried on with great success at the Eastern Penitentiary in Philadelphia.

One man desired musical instruction in harmony, his desire being met through the music department of the college. Two men will receive instruction by correspondence in mining through a special arrangement with the college School of Mines.  
 The classes are being conducted at no expense to the prisoners and very little to the penitentiary. The college gives all its service free and even supplies most of the necessary lesson texts without charge. Professor N. C. Miller, head of the engineering extension department, says that this is in line with the department's policy of placing all its facilities at the disposal of the various prisons.

### PLAYERS ENTER ROUND ROBIN TOURNAMENT FOR COLLEGE TENNIS SQUAD

All the men who came through the all-college tournament as winners are automatically in the round robin journey. The men are: Captain Laws, J. C. D. Geuther '24, E. R. Eggleston '26, W. Gillen '24, R. A. Garman '26, A. E. Hellmich '26, E. D. Mitchell '26, J. M. Price '26, C. L. McVaugh '24, H. J. Duff '26, W. C. Hartsmire '24, H. N. Fatzinger '24, G. E. Beard '25, F. O. Nolte and coach W. R. Ham.  
 Any other men who think they are qualified to enter this tournament may do so if they can prove that they are entitled to enter. In order to do this they will be required to play some man from the last year's squad and if they show up satisfactorily they will be entered. Since there are already fifteen men in the meet and the limit has been placed at seventeen, there is an opening for two more men.  
 Each man in the tournament will play every other man three sets and will receive one point for each set he wins. The men having the highest number of points at the end of the meet will form the nucleus of the squad or next spring.

### ENGINEERING SOCIETY TO BE REORGANIZED SOON

#### New Constitution and By-Laws To Be Made—Officers Will Be Elected Next Fall

A committee of prominent engineering students under the leadership of the officers of the Combined Engineering Society held a meeting Tuesday night to take the preliminary steps in the reorganization of the society. Since the Society has become so active in the direction of "all-engineering" activities, its machinery has proved to be inadequate to handle its work.  
 The present draft of the reorganization includes an entirely new constitution and by-laws which seem to correct the weak points of the present constitution. The executive power of the new organization is to be vested in an Engineering Council, which is composed of the usual officers of the organization, two student representatives of each department included in the society, a faculty member and a publicity manager.  
 It is planned that an election will be held just before school is out in the spring, at which the officers and the student representatives are to be elected. In general, the officers are elected from the junior class and hold office for one year. The department representatives are to be elected from the sophomore class by the members of their own class, and hold office for two years, that is, through the junior and senior years.

One of the difficulties with which the Combined Engineering Society has had to contend is that the organization is entirely new each fall. The provision for the election of the student representatives on the Council for a period of two years will always provide a membership of the Council, half of which has had at least one year's experience. This will insure that the executive body of the organization will be able to work efficiently as soon as college opens in the fall.

The faculty are represented on the Council by a faculty member elected by the Council at its first meeting in the fall. At this time, the Council also elects a publicity manager whose duty it is to handle newspaper publicity, advertising and so on. This latter position is regarded as a very important one, for the actual membership of the organization is held together very loosely.  
 A meeting is to be held next Tuesday night at which the final revisions of the proposed constitution and by-laws will be taken up, and the new one adopted in its final form.

Go when you will. Come when you like. Rent a car and drive it yourself. Drive-It-Yourself Auto Co. Phone 376 224 E. College

### DEFINITE PROGRESS MADE BY NITTANY DEBATERS

(Continued from first page)  
 ing, colleges from points as far away as Kansas and Colorado have been heard from.

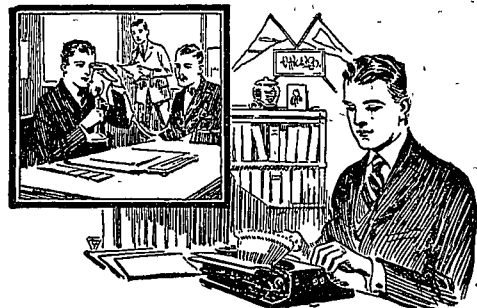

**Freshman Debaters Organize**  
 The freshman debating squad, keeping pace with its fellow forensic artists, is working diligently now under the direction of C. O. Ridenour, the coach. Mr. Ridenour intends to select a permanent working squad of twenty first-year men. These twenty men have not been selected yet and there is still time for all of the Class of 1927 who so desire to yet enter in the competition.

Trips to the eastern and western parts of the state are being planned for the yearling debaters. As freshman debating is a new thing in eastern college circles, some trouble will probably be experienced in arranging a suitable schedule, for this is the first freshman debating organization to ever represent Penn State.

Next Monday evening at seven o'clock, in Room 316 Old Main Building, the freshman debating squad will hold a meeting at which time several preliminary speeches will be given. A discussion of the principles of debating, led by Mr. Ridenour, will also be in order at this meeting. All freshman candidates must be to this meeting, and extra effort should be expended hereafter, since any freshman who remains with the debating squad for the entire year will receive one full credit in return.
