## PREFERENTIAL BALLOTING

PREPERENTIAL IMALOTING There is a feeling among student leaders on the campus that the preferential system of balloting employed in the election of class of-ficers is not adequate for the needs of Penn State Moreover, there is a behef, founded upon past experiences that it is not fair. Instituted several years ago as the distinctive feature of a new election system designed to prece the election of class leaders upon a fairer basis, preferential balloting has defeated its primery purpose. Theoretically it is a success, but applied to practical use it is an abso-lute failure. lute failure.

Inte failure. It is not necessary to go into a deteiled discussion of this defunct system of voting, for its salicht features are known to practically all of the undergraduates. Suffice it to say that preferential balloting incorporates the idea of specifying a first, second and third choice of candidates. And herein enter complications a-many Since the institution of the system, it has been necessary to repeat nearly every election held because the necessary majority of votes.

was not received by any one nominee Repeated elections lead to sus picion and general dissetisfaction Several cases might be cited where

Whis not received by any one nominee receiving the highest number of the relations, express them for a second and third choice candidates have been elected to positions of the rest like hall there for while the nominee receiving the highest number of the rest like hall make bis influence for the solution of unimportance in the class and for yotten in the shuffle. If does not seem possible that a conscientions voter, whether his influence for the commonwealth, can make a second and third choice of candidates. If e wants ene man for the office and no ther. Why, then, should be ber required to state on a ballotting, and when a man refuses to make a second and third choice and includes only the name of the individual whom he wishes to see that is come from yithin, when a man refuses to make a second and third choice of the individual whom he wishes to see the only practical solution of the problem. With the introduction of the receives the second and third choice offer a much fairer basis upon which to select class leaders. It is the near offer the only practical solution of the problem. With the introduction of a many diverse to see the second and third there with the intermet the second the advection with the intermet to base upon which to select class leaders in the intermet detection the many times to the second the problem. With the intermet to base upon the problem. With the intermet to base upon the the problem. With the intermet to base upon the the problem. With the intermet to base upon the the problem. With the intermet

A. A.A. S. ELECTS OFFICERS

## MISFITS OR SUCCESSI'UL MEN

... creation, the mean in the Perri Strike Bunch of the Ar a star Association for the Advances of Science chose their officers for denda year of 1924. The officers for denda year of 1924. The officer secretary is a four year tenure, evaluing until next year, hence the issue of election to this office. The : owing officers were elected.

heles and the consideration be given the question of balading before the annual spring electrons. MISFITS OR SUCCESSIUL MEN It is a disagreeable commentity on the scholastic situation in this inventively be precent of the men students, in a conservative estimate, are taking work for which they are not suited and in which they have no interest. So long as this condition continues to evist, there is little need for whoch at the below grade epideme. Neither is there war, and the they prepried. The undergraduate of today lives in an atmosphere of doubt. He found is the twenty of the below grade epideme. Neither is there war, and is the grade epideme. Neither is there war, and is an enstitution of higher learning bave no idea. At the most, a vague conception—of the work for which they are suited. Selecting the profession in which they hore to male the gradest success in life, sposses of exception—of the work for which they are suited. Selecting the profession in which they hore to male the gradest success in life, sposses of exception—of the work for which they are suited. Selecting the profession in which they hore is made the gradest success in life, sposses of exception—of the work for which they are used to life or the success without guidance and go through four years without their niche in the general scheme of things without much difficulty of college undergraduates—the average mun—grape about in the dark of college undergraduates that due yi awar. For which he has some the success of the second about yo any work for which he has no interest. He is one of the many who found in the success of the students find themeselves to all the size second without parteular need of asysteme. But the rank and file of college undergraduates the day in work for which he has some they are stude the second about yo all the the professions in materially being given an opportunity to judge the professions. In the dark of college undergraduates the dark of the many who found in the theselves stude. The some of the many who fou us" Each week some prominent p oge associated with the college v mentioned in a short story in whithe included the main points obtacted and earceer, and if pet a photograph.

NEW MODELS FOR COLLEGE MEN For the young man who likes the new straight line sack, there's the Yale. It's the correct thing. A broad shouldered, loose fu-ting, somewhat short coat; straight, wide trousers.

The Cornell is cut a trifle closer. Both show that perfection of cut found only in SOCIETY BRAND clothes. The Florsheim Shoe for style and comfort.

The Correct Sportocasin for you.
